PROSPERITY AND THE NEW TARIFF.

The republicans of Iowa voiced the sentiment of republicans everywhere in congratulating the people of the country upon the evidences of returning prosperity.

FIGARO RESPONSIBLE FOR HIS IMPLYED LIBEL.

Mr. Eustis such a step would be warmly supported in this country and universally approved in Europe, but if it be the proper function of the State department to do such a thing Mr. Eustis would undoubtedly be the last one to advise it.

THE ROMANIST BUGBEAR.

OMAHA, July 11.—To the Editor of The Bee: I feel almost sure you are not aware of all that is being said of the course The Bee has recently taken in respect to the A. P. A.

OTHER LANDS THAN OURS.

While the British people are exempt from the long preliminary canvasses, openly conducted through primaries, district conventions, state conventions and finally national conventions that lead up to an American national election and are followed by a full five months of adjourned conflict on the stump and in the press, they are in constant private training for the general election which may at any moment be ordered.

MIDSUMMER TRIFLES.

Boston Courier: When a jeweler guarantees watches you can make nothing more of it than that his hair was behind the times.

SUCH THINGS DO HAPPEN.

Washington Star: When blouses were all the go she proved who was not slow.

A NEW FEATURE.

THE OMAHA SUNDAY BEE.

SMALLEY'S EUROPEAN NEWS LETTER. Commencing Sunday, The Bee will offer its readers a new feature of foreign news service in George W. Smalley's weekly European news letter.

THE OMAHA SUNDAY BEE.

BE SURE TO READ IT.

There is such a thing as juggling with figures, and County Clerk Sackett is an expert in mathematics.

This much is certain: The Iowa republican state convention has not complicated the presidential situation.

Was it for this that Deputy Attorney General Summers stamped the state last fall for Majors and Churchill?

It would only be the proper rotation of seasons if Summers gave way to Winter in the deputy attorney generalship of the state.

John C. New says that ex-President Harrison never talks in public about his political plans. That is one of the secrets of Mr. Harrison's political success.

Our enterprising fellow citizen, William A. Paxton, has begun buying railroads. This means that Mr. Paxton and the railroad he buys will make money.

Ambassadors should remember that they are not sent abroad by Uncle Sam to say things to journalists which must be retracted after publication.

Perhaps Secretary Morton can keep Bryan away from the Nebraska democrats he will subvert the same purpose as if he induced Secretary Carlisle to come out and instruct them in the principles of sound finance.

It will soon develop why Churchill dismissed Summers. It may transpire that Summers declined to temper his written opinions to suit the peculiar whims of the state house gang, and so far forgot himself as to assert his manhood when reprimanded.

It must be remembered that Deputy Attorney General Summers only failed to get the republican nomination for attorney general last year by a fluke in the count. That may be one reason why Attorney General Churchill prefers Mr. Summers' room to his company.

Members of the Douglas delegation to the late legislature will hardly feel themselves complimented by the caustic scoring which County Clerk Sackett administers to the law bunglers who failed to revise the revenue laws of the state so as to abolish fictitious and discriminating assessments.

Isn't it about time to ring a new change on the penitentiary situation? Another Moore still retains that warlike for \$33,408.00 which the honest apparatus awarded to Dorgan. The halt ought to be tempting enough to induce the prison contractor to make another effort to get hold of the money.

The fact that Iowa republicans have chosen to have a comparatively long campaign does not in the least signify any fear on their part as to the result. The contest in Iowa this year is only a question of the size of the republican majority and the preponderance of republicans in the legislature.

Not content with their efforts to raise the price of silver by means of free coinage at 16 to 1 the people of Colorado now want to raise the altitude of Pike's peak by altering the official survey. Of course Pike's peak has all along been the same height, without regard to possible mistakes in the survey.

Very similarly the market ratio of silver to gold must be fixed by the relative cost of producing the two metals, whether free coinage brings the silver dollar down to half its present value or not.

THE EUSTIS EPISODE.

There will be no disturbance of the friendly relations subsisting between Spain and the United States in consequence of the remarks attributed to Ambassador Eustis by a French paper.

THE CRIME OF 'NINETY-FIVE.

The new gold discoveries draw attention to the fact that several permanent gold camps have been established this year, while the older fields continue their development.

EFFECT OF BETTER TIMES.

The impression that the free silver craze is gradually declining gains ground every day. The greater part of this good fortune is due, doubtless, to better times, but it should not be forgotten that the leading newspapers of the country have fought long and hard for sound money and that some measure at least of the returning sanity may be credited to them.

IF YOU MUST GO, SENATOR, GOODBYE.

Senator Warren of Wyoming gently hints that the time may come when he will be obliged to desert the republican party—all on account of silver. Perhaps Mr. Warren imagines that he can scare the republican party into endorsing his cheap money fad by this threat.

PRELUDE TO DRINKING.

Mankind is upon the horns of a dilemma. Scientists tell us that our drinking water is so impregnated with bacteria as to be unfit for use. Prohibitionists denounce the wine and beer. It is said that tea produces insanity and coffee dyspepsia and insomnia, while poison lurks even in lemonade. If we drink we are threatened with death; if we do not drink we die. What's to be done?

FROM FRONTIERS TO DENIG.

The Nebraska prohibitionists, like their Ohio brethren, are trying to make up for a prolonged drought of money by unlimited outpouring of currency. Their state convention last week shaved free silver up a vote of 64 to 61, and then declared in favor of the issue of all currency by the government, gold and silver to be used only for subsidiary coin.

THE LABOR DEPARTMENT OF THE BRITISH BOARD.

The labor department of the British Board of Trade has issued a report on the employment of women and girls, which sets forth that in Great Britain women compete with men rather than ever they did.

PRINCE FERDINAND OF BULGARIA APPEARS TO BE PLAYING A DOUBLE GAME.

There will certainly be a strange confusion of tongues in the local campaign this fall. We shall have sound money democrats, free silver democrats, A. P. A. democrats and anti-A. P. A. democrats.

ORDERS ARE BEING TAKEN FOR SEATS TO WITNESS ANOTHER BRUTAL PRIZE FIGHT.

Orders are being taken for seats to witness another brutal prize fight that has been arranged to take place in Texas, but as yet the Texas authorities have not taken a single step to prevent the proposed affair.

THE ROAD TO EUSTIS.

Hon. Horace Eustis is making a most commendable effort to explain that he did not mean what he said when he declared for free silver.

THE ABUNDANCE OF JUDGES.

It is a surprising fact, stated by Mr. Joseph Choate in a recent address, that England has 30,000,000 of people in round numbers, does not have so many judges to attend to her legal controversies as any one of our larger states.

THE TRUTH IS THAT IN OUR ANXIETY TO PROVIDE AMPLIANS FOR THE ADJUSTMENT OF LEGAL CASES, WE ARE MAKING OUR JUDICIAL SYSTEM A SOURCE OF ENDLESS TRIFLING WITH THE INTERESTS OF THE PEOPLE.

The truth is that in our anxiety to provide ample means for the adjustment of legal cases, we are making our judicial system a source of endless trifling with the interests of the people.

IT IS EVIDENT THAT THE INTERNATIONAL GEOGRAPHICAL CONGRESS, WHICH WILL MEET IN LONDON ON THE 26TH INST., WILL PROVIDE MANY FEATURES OF POPULAR AS WELL AS SCIENTIFIC INTEREST.

It is evident that the international geographical congress, which will meet in London on the 26th inst., will provide many features of popular as well as scientific interest.
