

MAN WITH A PECULIAR MANIA

He Gave the Fire Department Many Hoars.

CHARGE THAT HE ENJOYS BURNING HAY

Arrested and Locked in Jail Pending an Investigation—Lovers' Quarrel that Ended Under Bloodshed, Yet It Landed Both Parties in Jail.

The police think they have a full-fledged pyromania in jail.

For several weeks the fire department has been kept busy running to fires in the loaded cars of the Elkhorn tracks north of Nicholas street.

Yesterday morning at about 9 o'clock one of the assistant fire chiefs drove past the office of the Nebraska Hay company and the clerk in the office called out and asked if the department was coming down in order to keep up its record.

One of the clerks in the office of the Omaha Bridge and Terminal company has been seen by a man coming from behind the car just before the fire was discovered and so notified Mr. Gibbs of the Nebraska Hay company.

Warner runs a bluff on his love.

PUTTING THEM IN JUDGMENTS.

Poor Farm Lot Purchasers Pushing Their Claims Against the County.

Within the last few days nearly \$30,000 of judgments have been secured against the poor farm lots of Douglas by purchasers of the poor farm lots.

Hardly a meeting of the Board of County Commissioners for some weeks past has been held at which additional Douglas county poor farm claims have not been filed.

Warner is a clerk in the employ of an East Omaha factory and is just a simpleton.

At least two merchants in Omaha paid tribute to the smoothness of a bogus check held Monday evening.

About 5 o'clock in the afternoon a well dressed young man called at Standfield's barber supply house on Dodge street and expressed a desire to invest in a razor.

WHAT THE SOUTH WILL DO

For the Intending Settler in Central Mississippi—The Garden of the South.

To the man looking for quick returns on the money he invests in the region.

Horticulture and orcharding have risen into prominence in the past few years.

The possibilities of agriculture in the Orchard Homes region cannot be easily exaggerated.

Such figures as these show the actual results that can be obtained from a small piece of Orchard Homes land.

WILL TREAT ALL POINTS ALIKE

Union Pacific Sees No Reason for the Utah Kick.

The equalization of rates on the Union Pacific to certain points in Montana and Idaho, effective today, will occasion an adjustment of rates on certain commodities to Utah common points.

ISRAEL FRANK INTERVIEWED

Kindly Consents to Unhush Himself and Give Opinions Concerning Local Issues.

Is it still an open question with the holders of judgments whether or not to try the effect of a mandamus suit to compel an additional levy for the purpose of liquidating the judgments.

GENERAL MANAGER TOWNE DEAD

Sudden End of a Long and Brilliant Railway Career.

San Francisco, July 16.—A. N. Towne, second vice president and general manager of the Southern Pacific, died this morning at his residence in this city.

GREAT HARVEST FOR THE SCALPERS

Sale of Endorser Coupons Results in Cutting an Agent's Meeting.

As usual the return portions of Christian Endorser tickets were being held in the market and a meeting has been called in Chicago of railroad officials to talk over the situation.

Great Yield of Oats

Yesterday, W. H. Kierstead, drove out to his Douglas county farm and upon his return he brought with him a sample of oats from his forty-acre field.

Choir Boys in Camp

The choir boys of St. John's Episcopal church are taking a week's outing at Hanthorn's lake, a few miles north of Council Bluffs.

ONLY WHAT WAS EXPECTED

Holding of the Court No Surprise to the Attorneys.

SHORT LINE DECREE A FORMAL MATTER

It Will Be Taken from Under the Proceeding Wing of the Union Pacific System.

General Solicitor Thurston of the Union Pacific said that the granting of the decree prayed for in the Oregon Short Line and Utah Northern case at Portland was expected.

Even in the outline it is easily seen what contingencies may result from the purpose of those seeking to dismember the Union Pacific, and as one side heard remarked, there are a great many holes in the skimmer.

Before the dreams of those antagonistic to the present management of the Union Pacific are realized it may be some time before the reorganization will be decided upon in which event the wrangle over the property will cease.

It is quietly intimated that in the reorganization of the Oregon Railway & Navigation company now going on the Union Pacific will not be so completely out in the cold as under the present management.

EDICT AGAINST DR. MARBLE

Not in Favor with the Howling Derivatives of the Order.

COUNCIL 125 DECIDES THAT HE MUST GO

Action of a Majority of Members in the Board of Education Controlled by the Leadership of the A. F. A. Order.

The prospect that Superintendent of Schools Marble may be turned down by the action of the radical American Protective association element in the Board of Education is a surprise to most of the citizens who are interested in the schools.

Dr. Marble was first considered as a successor to Mr. Fitzpatrick at the suggestion of Mr. Fitzpatrick himself.

Negligence Shirts

Quite recently we began cutting prices on shirts. It yielded magnificent returns—Precisely in accordance with our object. We don't want shirts—this season—at least—What we want is a new supply for next summer.

As we said, we sold quite a number of all grades, but the bulk in cheaper qualities—like the carpenter and the shavings—we accumulated quite an amount of odds and ends of the 50c and 75c qualities.

The \$1.00 kind which we cut down to 75c (either collars and cuffs attached or loose) are here yet, certainly not as many, but enough for a few hundred people who want 'em.

A good many of those imported cloth shirts which we sold at \$2.00 at early season have been cut down to \$1.25. Still at that price—but you must call quick if you care for a real good thing.

Whew! What a tremendous amount of soft unlaundered shirts we have here. It reminds us of the magic sceptre in the fairy queen's hands. Anything you call for is sure to appear.
