

WHY THEY WERE DISMISSED

Loat The's Stars Because They Were Chronic Agitators.

NO WARD HEELERS IN UNIFORM WANTED

Chief White To Why He Recommended that Certain Policemen Be Dropped from the Force—Commissioners Explain the Reasons for Their Action.

A great hue and cry has been raised in certain quarters by the recent wholesale dismissal of officers and patrolmen from the police force and a concerted effort has been made during the past ten days to create popular sympathy for the men who were summarily dropped from the police pay roll.

While everybody comes out in sympathy with the recommendations of the grand jury last winter, the mayor and police commission are being roundly abused for fearlessly doing their duty.

Incidentally every removal and appointment is charged up to the Bee and its editor, who is a sort of bogey man to not only the howling dervish gang, but all of the other howlers.

Chief of Police White was seen at his office this morning and expressed his reasons for reorganization of the force as follows: "I recommended the discharge of these men for good reasons. They were fired simply because they were chronic agitators and disruptors whose dismissal was for the good of the service. Mr. Rosewater has never either directly or indirectly, sought to influence me in the discharge of the old men named or the selection of the new ones. I am not subservient to Mr. Rosewater, but any other newspaper man, in attending to my duty as chief of police, I have been doing considerable investigating on my own hook since I came to Omaha and have ascertained from reputable citizens, if you please, that the men dismissed were too much interested in politics to make good policemen."

"It makes no difference to me whether a man is a P. M., a Catholic, an infidel, or a P. J., if he is an agitator and political jawnsmith he has not to give up his job. I don't propose to have ward politicians in uniform. I don't intend to have officers attending political meetings in uniform unless they are called there to preserve order. I don't propose to have the station turned into a nursery for politics, and I don't propose to allow men going out in uniform to be used in their hearts for one another. There has been too much disorganizing, too much backbiting, too much horse play among the police here. Politics and the police must and shall be divorced. Policemen have a perfect right to vote, 'tis true, but they have no right as policemen to be used in their uniforms to interfere with the duties of their fellow officers. The policemen of Omaha under my administration are not working for any political party, but for the city. I would not have a policeman in uniform to interfere with their duty as officers. The records prove that I have not been influenced by the men's politics or their religion, or Mr. Rosewater, but by their pernicious activity as agitators. I intend to put the police force of Omaha on a metropolitan basis, and I think all good citizens will uphold my action."

VIEW OF COMMISSIONERS.

Mayor Bemis—It is a lie for any one to assert that I was influenced by Mr. Rosewater or any politician in the selection of new policemen and discharging others. Mr. Rosewater had referred the board to the records of his office, which I have looked up, and on consideration my vote to dismiss Haze was prompted by the result of that investigation. Mr. Rosewater has never sought to influence me in my appointments or removals of the force.

Commissioner Smith said: "I have voted in the affirmative and with the majority in each instance except three for the removals and appointments on the police force. I did so without solicitation of Mr. Rosewater and in fact he has never sought to influence me in this respect. I believe in sustaining the chief in his desire to reorganize the department."

Commissioner Brown—I never was approached or requested or in fact in any manner directly or indirectly communicated with by Mr. Rosewater or his friends regarding the appointments to or removals from the police force.

Commissioner Deaver—Viewed from a conservative standpoint, the necessity of police reorganization has been apparent for some time, for the good of the service generally. Mr. Rosewater has never sought to dictate or control the appointment or removal of men on the force, with the possible exception of Haze, whose record rather sustained the suggestion. The commissioners, or rather a majority of them, have voted to improve police service on their own responsibility and have no occasion to regret an action which was taken for the interests of the citizens of Omaha who believe in separating police and politics.

According to the foregoing, which can be verified by reference to the original applications on file in the office of the police commissioners, twenty-two men have been appointed to fill vacancies on the police force. Of this number nineteen are native born Americans.

The blanks which an applicant for a position on the police force fills out, contains a number of printed questions which must be truthfully answered. There is no interrogative pertaining to the religion or politics of the applicant.

Each aspirant for a policeman's star must have five reputable references or endorsers. Of the twenty-two men recently appointed to positions on the police force, twelve are Catholics, sixteen are Protestants, and one professes no religion. The total number of applicants for positions on the police force for this year, was 230. Of this number ninety candidates were examined. Mr. Rosewater did not recommend the appointment of any of these, either directly or indirectly.

Use Horsford's Acid Phosphate.

It produces healthy activity of weak or diseased organs, stimulates the system, and acts as a tonic on nerves and brain.

MANY REASONS THAT SHOULD BE CAREFULLY CONSIDERED BY THOSE WHO ARE SEEKING A NEW LOCATION.

Central Mississippi it must be borne in mind that the soil is of the best quality, and that of great value to the settler; that is to say:

Fruits of all kinds grow luxuriantly and in abundance. Fruit trees from the vines and trees are gathered eight months in the year. Vegetables can be had fresh from the garden two months in the year.

And while the pastures in Illinois and other western states are parched and grain and farmers are compelled to haul their stock to feed them from the grain fields, our pastures are covered with fresh, green, natural grasses and all cattle are fat enough for beef. It is not only the case this year, but I have found it so every year since I came here. I have never seen it necessary to feed stock in the pastures and nowhere is water more abundant than in this section, making it one of the finest stock countries in America.

We can raise any cereal or product that can be produced in any of the northern or western states, and at great many other things that they cannot produce. I have peach trees three years old from the seed that have borne this year from one peck to a half bushel per tree, and have bearing grape vines three years old from the cuttings.

Another great advantage is that we have direct railroad communication to all northern and western markets, furnishing cheap transportation for vegetables, fruits and products of the farm. We have lines to eastern markets and are close with through transportation to the southern and coast markets, which are the best in the United States.

As a mild and delightful climate this is surpassed by none, not being as hot in summer as northern Illinois, and seldom, if ever, does the mercury reach within a few degrees of zero in winter. People suffering with consumption, catarrh and bronchitis and other throat and lung troubles find almost instant relief in many cases permanent cure, while scarlet fever and diphtheria are unknown here.

CAUGHT ASTRAY AND SUCKERS

Found Plenty of Men Who Were Anxious to Bite.

ROUSER WORKED THEM ALL ON THE CHECKS

Hostilities Are Again Declared in the Country Around Shely and the Old Polish Troubles Are Once More Revived and Several Arrests Made.

H. Rouser is a smoother swindler than the police thought him when the first reports were received. He passed bogus checks on Standfield & Co. and the Globe Clothing company Monday evening after banking hours and got away with the profits of his work, about \$20, before the officers could get action in the case.

Vigorous search in Omaha, South Omaha and Council Bluffs failed to locate the forger and yesterday another crop of his victims appeared at the police station with their tales of woe. On Monday evening Rouser went into Prisman's clothing store and made a small purchase, offering in payment a check for \$3. He received his change, \$2.55, in good coin and Prisman has the check, which was drawn on the Merchants National bank. The check was drawn on this morning and the case placed in the hands of the police.

Prisman had hardly left the police station when Charles Gooder came in and wanted to be put on the process by which he could get \$15 that he had given Rouser, who was known to him as E. Cohen, a collector of bad debts. Rouser, or Cohen, called at Gooder's place of business and took a contract to collect some bad claims. He gave the name of E. Cohen and had printed cards, giving his office as 329 North Sixteenth street. On the card was printed in red letters, "Removed to New York Life building, 115 North 16th street, Omaha."

He returned on Monday and reported that he had made collections amounting to \$11. He did not have the cash, but had a check for \$25, made payable to E. Cohen and signed by H. Rouser. He explained that he had secured the paper in the course of the work and asked Gooder to cash it, retaining the \$11 due him as a collector. Cohen's efforts as a collector, Gooder had never hoped that \$11 gave him and he paid Cohen \$1 commission and gave him \$14 in change on the check and voted him a crackerjack in the collection line.

Mr. Cohen, alias Rouser, is still missing.

RENEWED THE POLISH CHURCH WAR

Charges and Counter Charges Made by the Interested Parties.

The Polish Catholic church troubles have broken out in a new spot, or several new spots rather, and yesterday the police court had the appearance of a Polish anniversary celebration. Half a hundred Polish women and girls, dressed in their holiday attire, were at hand to tell all they know and have heard about the trouble that Father Karminski had with some of his neighbors on July 5.

Father Karminski was charged with having assaulted Martha Engler, Ignace Reptowski in accused of having used abusive and profane language. Mrs. Joseph Reptowski is charged with having assaulted Martha Engler, Agnes Renarzewski is said to have used obscene language, and Mrs. Rakowski is in jail for disturbing the peace. The others are simply witnesses.

The stories don't agree at all, but the preponderance of evidence indicates that there was a fight, and that the woman who is charged with having assaulted Martha Engler, Agnes Renarzewski and Mrs. Rakowski is in jail for disturbing the peace. The others are simply witnesses.

There are fifty versions to the story, and Judge Berka will pick out the one that suits him best. The woman who is charged with having assaulted Martha Engler, Ignace Reptowski in accused of having used abusive and profane language. Mrs. Joseph Reptowski is charged with having assaulted Martha Engler, Agnes Renarzewski is said to have used obscene language, and Mrs. Rakowski is in jail for disturbing the peace. The others are simply witnesses.

THINK THEY HAVE A FIRE BUG

Jack Willis has been arraigned in police court on a warrant charging him with arson. Detectives have been at work and have found a man who saw Willis jump out of the Union Pacific car Tuesday morning, just a few seconds before the car was wrecked in the baled hay, with which the car was loaded. The complaint was sworn to by Twanley & Sons, the owners of the hay, which was partially destroyed by the fire.

MUNYON'S TRIUMPH.

The Fight Against Disease, Poisonous Drugs and Old Fogysim, Declared in His Favor.

Mr. J. Baumer Tells the Story of His Suffering and Cure.

Mr. J. Baumer, 43 East Twenty-first street, Bayonne, N. J., says: "Eighteen months ago I was so crippled with rheumatism that I could not dress myself. I tried all the doctors in Bayonne, but they gave me up as hopeless. I also tried numerous preparations, but failed to find any relief. At last I heard of Munyon's Rheumatism Cure and began using it. The effect was marvelous. I improved at once, and found that less than two bottles were sufficient to cure me completely, as I have not had a twinge of rheumatism since."

Munyon's Rheumatism Cure is guaranteed to cure rheumatism in any part of the body. Acute or chronic rheumatism cured in from one to five days. It never fails to cure sharp, shooting pains in the arms, legs, sides, back or breast, or aches in any part of the body in from one to three hours. It is guaranteed to promptly cure lameness, stiff and swollen joints, stiff back, and all pains in the hips and loins. Chronic rheumatism, sciatica, lumbago or pain in the back speedily cured.

Munyon's Homeopathic Home Remedy Company, of Philadelphia, sends out specifics for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle.
