

HITCH IN THE SETTLEMENT

Acts of a Bolivian Mob Complicate the Differences with Peru.

ATTACKED THE MINISTERIAL RESIDENCE

Offer of the Peruvians to Arbitrate the Questions at Issue Was Thought Might End All Liability of Trouble.

LIMA, Peru, July 19.—(Via Galveston)—The modification of Bolivian demands upon Peru for a salute of her flag, which was initiated in an exclusive cable dispatch to the Associated Press via Galveston yesterday, consists in an agreement to submit this portion of the demand to arbitration. This proposal seemed to indicate a path of speedy and peaceful settlement of the dispute between the two countries. But today's news from Bolivia seems to threaten further complications. The latest information received here from La Paz is that a mob of rioters tore down the flag from the Peruvian legation there and stoned the Peruvian minister. The government is waiting for reliable details of the trouble at La Paz before deciding what further steps to take.

ANYTHING BUT A HOLIDAY EXCURSION

Chinese in Formosa Prove Much Better Fighters Than Those on the Mainland.

LONDON, July 19.—The Times' Hong Kong advice says that the Japanese are abandoning the sea expedition to the southern part of the island of Formosa because the monsoon makes landing impossible. They must march 200 miles on land, despite the floods. The army at Fuzusan is awaiting reinforcements from Japan. Fever and dysentery are rife. The Japanese vanguard at Tungk Chang has been repeatedly attacked and surprised and its outposts harassed. Out of thirty-two Japanese attacked at Tokoham only four escaped, the rest having been killed or committed suicide, fearing capture.

YOKOHAMA, July 19.—An official dispatch received here from the island of Formosa says that the Chinese are making a stubborn defense of that territory. After the capture of Lung Tampo, on June 14, an attempt was made to effect a junction between two Japanese battalions at the river Takaku, but the attempt failed, and a squadron of Japanese cavalry, which was suddenly attacked by a superior force of Chinese, was cut to pieces, only three troopers escaping. The junction of the battalions was effected on July 15.

BOYS MUDDER THEIR MOTHER

Horrible Example of Youthful Depravity in London.

LONDON, July 19.—When the chief steward of the National line steamer, France, now on his way to New York on board that vessel, reaches the United States, he will convey terrible news. His sons, Robert Combs, 13 years old, and Nathan Combs, 11 years old, murdered their mother at Platow, an eastern suburb of London, on July 8. The boys stabbed her while she was asleep and kept the body for nine days in the house in which the crime was committed. When the remains of the woman were discovered the two boys were playing cards. The only reason given by the lads for their crime is that Mrs. Combs whipped the youngest of the children. The murder of Mrs. Combs has caused great excitement in the neighborhood of Platow, and the authorities are making a search for the murderer. The boy who is believed to have committed the crime is now being held in custody.

AMERICAN SPIES WELCOME

At Perfect Liberty to Make Maps of Canadian Provinces.

MONTREAL, July 19.—The minister of militia, when shown a dispatch from Washington saying that the United States government had secretly sent spies into Canada to study the topographical situation and means of defense in the event of an invasion, said: "I do not believe a word of it. There is no necessity for sending spies over here, where everyone is at liberty to come and make his own surveys." This view hardly comports with the fact that the United States government has special legislation passed in parliament in 1892 to meet such a contingency.

Condolences to the Widow

VIENNA, July 19.—The Wiener Allgemeine Zeitung publishes a dispatch from Sofia saying that a telegram has been received there from Emperor Francis Joseph, expressing sympathy with Mrs. Stambouloff in the loss she has sustained by the death of her husband. RESOLUTIONS FAVOR SUNDAY OBSERVANCE

Also Send Greeting to the People of Texas in Their Efforts to Prevent the Corbett-Fitzsimmons Fight—Congratulated by General Morgan.

BALTIMORE, July 19.—With prayer and song the second day of the fifth international convention of the Baptist Young People's Union of America was begun. State banners were planted throughout the tent and around these rallied the delegates and visitors from the several states. Each band took possession of the tent for a time and a noisy time it was. "Maryland, My Maryland," "The Star Spangled Banner" and "The Red, White and Blue" were mingled with hymns until Ontario came up with "God Save the Queen." Finally the great choir got an audience, sang "America" and comparative calm prevailed. The states soon broke out again with calls for the convention and the delegates were their own boundaries, Rhode Island, Wisconsin and Texas being particularly conspicuous. It is expected that the annual meeting will be held in Brooklyn. Devotional exercises were conducted by Rev. A. F. Chaffee, D.D., South Bend, Ind.

The committees of reports on topics congratulated the union on the rapid and reliable growth. The election of officers of the union then took place and the following were chosen unanimously:

President, John H. Chapman, Illinois; vice president, E. J. Young, Ohio; secretary, R. S. Shenstone, Toronto, Ont.; George B. Taylor, D.D., West Virginia; recording secretary, Rev. W. W. Reed, Illinois.

WHAT THE STATES OFFERED

Oregon invited the convention to accept its hospitality in 1897, and Ohio followed, saying the place for holding the convention was to be held so far ahead Ohio gave notice she would soon want the convention. North Dakota announced the condemnation of breweries and the liquor business by the state. New York presented letters from the private secretary of Governor Morton, Mr. Ashley W. Cole, and from Mayor Schermerhorn of Brooklyn sending the invitation of the delegation to hold the convention of 1897 in Brooklyn.

Michigan reported 13,000 Baptist young people, and thus the state and provinces combined, and thus the close.

Denver demanded the convention for 1897, and while the delegates were on their way, a while ago, a fantastically dressed person marched through the main aisle bearing a quadrilateral banner inscribed:

"Go, Denver, young men, and take the ladies." "Go, Denver, 97." "One mille above Brooklyn."

California presented the youngest representative yet seen in any of the meetings. George M. Purnell of Sacramento. He was obliged to take the platform in response to the call of the convention, and there recited his speech and winding up with a word for Denver in 1897.

There was no session in the tent this afternoon. Instead there were held twelve "workshops" in conference halls, in various parts of the city. The general topic being "The Young People's Society as a Working Force."

Delegates and visitors who did not assist at the workshop conference enjoyed this afternoon in short excursions to the city parks and to points of interest in and about the city.

At the beginning of the evening exercises there could not have been less than 10,000 people within the tent, and it was not long before nearly as many people were on the streets. The evening exercises were held in the city.

BETTER SUNDAY OBSERVANCE

The Young Baptist Union of the United States, in convention assembled, recognizing the first day of the week as the Lord's day, and the day of weekly rest from all secular and profane pursuits, and in view of the fact that the Lord's day is being profaned in many places of public worship and in the homes of the people, and that we extend our hearty sympathy to the noble people of our country who are striving to prevent the profaning of the Lord's day, and in view of the fact that the Lord's day is being profaned in many places of public worship and in the homes of the people, and that we extend our hearty sympathy to the noble people of our country who are striving to prevent the profaning of the Lord's day.

C. Rider's skull was fractured and he was badly bruised. He died in a few minutes after his admission to a hospital. Peter Collins, William McMahon, William Beck and Patrick O'Connell all received serious injuries.

CONVICT LABOR AT DISCOUNT

DES MOINES, July 19.—(Special Telegram.)—The state executive council is just now engaged in solving the convict labor problem at the penitentiary at Fort Madison. The contractor who employs the state prisoners in the manufacture of furniture has asked for a deduction in the force of employees and price per day which is paid them. The prison labor furniture cannot be sold in any city of much size in the country because a boycott has been instituted against the product of prison labor by labor unions. It can only be sold by job lots. This is very serious and unpaying work for the state. Another thing which is detrimental to the contractor of prison labor at Fort Madison is to pay more for his raw material than the manufacturer who employs union labor. If the executive council does not reduce either the number of employees at the prison or the wages the contractor will not employ them longer.

LANDER, Wyo., July 19.—(Special Telegram.)—Speed Stagner, a squawman of considerable note who lives on the reservation, arrived here today and reports a conversation that he had with Chief Wasakie of the Shoshones. The chief complained that nearly all of his young men had left the reservation, and he feared they had gone to Jackson's Hole to join the Bannocks. Signal fire were seen last night burning on the Wind river range, and again tonight. Their meaning to the whites is very obscure.

The Shoshones, who are in sympathy with the Bannocks, have raised the complaint that their whites are murdering their stock and their rations are short, and that if they did not hunt they would go hungry. Fort Washakie is not in shape to render any assistance to the whites at this time, not having any cavalry. There is only one cavalry regiment in this country, the 10th cavalry, which is stationed at Fort Niobrara and Robinson.

TEXAS LABOR MEN WILL UNITE

State Conference Called to Discuss Separate Political Action.

DALLAS, Tex., July 19.—The State Federation of Labor, the Federated Trades of Texas, and the State Farmers' alliance have amalgamated to discuss separate political action. A joint call has been issued for a meeting of the white and colored labor and farmers' organizations at Longview, Texas, August 20. The call is signed by James Scott, president of the State Federation of Labor, George N. Beach, State Federation of Labor, and John Dwyer of the state alliance.

The call closes as follows: "Recent findings by the court and recent action by the legislature, but company existence of labor organizations in great jeopardy, and if these decisions and actions are allowed to stand, the right to organize is logically denied. It is no exaggeration to say that never in the history of this nation have so many and so grave issues confronted organized labor as now, and never was united, intelligent action so imperative.

All labor and farm organizations are urged to send delegates. It is believed that separate political action will be one of the results.

CAPTURED AMERICAN FISHERMEN

Canadian Officials Claim They Were in the Canadian Dominion Waters.

ST. PAUL, July 19.—A Duluth special to the Pioneer Press says: A report comes from Crane lake of an encounter between American fishermen at that place and Canadian officials. The trouble arose over the Canadians taking up and confiscating nets set in Namekon lake, on the ground that they were placed in Canadian waters and had no right to be there. The fishermen claimed they belonged to the Arctic Fish company started out in search of their nets, when suddenly three boats filled with Canadian officials darted out from behind an island and pursued them. The little steamer May started, but was overtaken by the Canadian officials, and never was united, intelligent action so imperative.

Were Somewhat Exhausted from Lack of Food and Water.

IRON MOUNTAIN, Mich., July 19.—Hundreds of miners surrounded the shaft of the Peabody mine, and a light shined down the receding party penetrated the fallen rock and reached the chamber where nine men had been imprisoned since 6 o'clock Wednesday evening. The men were all alive and unharmed, but they looked the worse for their experience, as they had no drinking water and nothing to eat at all. They had drifted into the fallen rock, and had been twenty feet. Superintendent Brown had nourishment ready for them, and after paring their nails and giving them a hot drink of water, they were all rescued alive.

The five Indian police who were in charge of Fred Smith's place, the man evicted ten days ago, were taken in charge today by a constable with a party of five armed men from Pender. The Indians, upon their promise to at once go back to the agency and cause no further trouble, were allowed to depart. All the evicted renters have been reinstated and are armed with rifles with which to protect themselves. Over 100 of them were in Pender today for the purpose of securing arms. It is thought and hoped by all the people here that Captain Beck will not ignore the injunction, but that he will allow the controversy to be settled by the courts.

STOUT CITY, July 19.—(Special Telegram.)—Captain W. H. Beck of the Winnebago agency left here for Ponca this afternoon for a conference with Judge Norris, who issued the injunction restraining Beck from continuing the eviction of settlers on the reservation. He will go to the agency Saturday and be present at a council of the Indian chiefs called to consider the troubles there.

ATTITUDE OF THE GOVERNMENT

WASHINGTON, July 19.—The questions raised by the injunction issued against Captain Beck, Indian agent at the Omaha and Winnebago reservations in Nebraska, were briefly considered at a conference between Secretary Hoke Smith and Commissioner of Indian Affairs Browning this afternoon. It was decided that a telegram would be issued to the United States district attorney at Pender from making any defense of his claims on behalf of the government. Mr. Sawyer's attorney will send a full instruction by mail, and the effect were forwarded today. They are to the effect that the injunction must be obeyed until it is dissolved, which Mr. Sawyer's attorney will do.

AMERICAN CATTLEMAN MUST MOVE OUT OF MEXICO WITHIN FIFTEEN DAYS

EL PASO, July 19.—The customs collector at Palmos, Mexico, opposite Deming, N. M., has issued an order that any American citizen of the United States who have cattle in the Palomas district for exportation must take such cattle out of that country within fifteen days, and failure to do so will result in the confiscation of the cattle by the Mexican government. This places a number of stockmen in this country in a very awkward position. They bought cattle in Mexico last winter, expecting to graze them in Texas during the summer, and then to bring them back to the United States. They are now in a very awkward position.

SIoux FALLS, S. D., July 19.—(Special.)—Since the packing house project has been revived and over seventy men given work, making a pay roll of about \$1,000 per week, there has been a careful estimate made of the probable supply of hogs. It is estimated that the county could supply the packing house with about 25,000 head of hogs per year. The packing house, according to the plan, would employ about 75 men.
