## RAIN KEPP MANY AT HOME a Limited Number of Excursionists

Visited the City Yes erday. The beavy rain which soaked eastern Nebraska and western Iowa Saturday night was assigned as a sufficient reason why the excursions to Omaha yesterday were not so large as had been expected. As the start from most of the towns had to be made at an early hour, and as it was raining hard late at night, many of the excursionists abandened the idea of coming to the metropolis

to spend the day. As it was, several hundred people came to during the forenoun and took in the various attractions of the city during the day. The Band Concert, Balloon, Etc. Entertain the Patron Yesterday was the first Sunday of free admission at Courtland Beach.

It was a most beautiful day and, although rather cooler than the beach management would desire, yet it was exceedingly pleasant to the patrons who did not care to bathe.

The Chicago, Rock Island & Pacific road brought in an excursion at 11 o'clock, but the excursionists didn't number as large as on some of the other roads that have recently had excursions to Omaha. More than two thirds of them, however, found their way to Omaha's resort and helped swell the crowds and an enjoyable day was passed.

The beach people had anticipated a good trendance of city people as the result of doing away with the admission fee, and this anticipation was fully realized, as there wer 5,000 persons at the beach during the day. concerts by the Courtland Beach band are always enjoyable, but yesterday the visit ors seemed unusually appreciative of Prof. Nordene and his musical talent with which he has surrounded himself, and numerous en The Tyrolean quartet also fecelved generous

had better not go home and Henry thought so too. Accordingly, when he was through with his work, Henry laid down on a lounge in a neighbor's house and indulged in a variety of pleasant dreams. While he was thus indulging something hit him in the head and hit him hard. He did not know what it was, but observers aver that it was a coal bucket held in the hands of Henry's helpmeet. This started a row and its result was the arrest of Henry. Quade lives Another Old Citizen Gone.

Omaha and St. Joseph played another re-

markably interesting game yesterday after-

oon, although the result was somewhat unsatisfactory. It was a draw at the end of ten innings, each side having scored three runs. The contest was called at this exciting juncture to allow the teams to catch trains, the Saints home and Omaha to Des Moines. Young Colburn, of whom so much has been heard recently, was on the rubber for the Alberts aggregation, and he substantially demonstrated that he is entitled to all the praise he has received. In the entire ten innings all the Omahas could do with him was to touch him up for five hits, all of them puny affairs, except Nattress' twobagger in the ninth inning. He is a "south-paw," and handles himself with all the nerve and steadiness of an old veteran of the slab. He has a quiet delivery and is accurate and graceful in all his maneuvers. That he was entitled to a victory is evi-denced in the fact that while he only allowed Omaha five hits, St. Joseph made no less than fourteen off Eagan, but the game was one of those extraordinary ones where hit-

MR. EBRIGHT HAS MORE TROUBLE. DES MOINES, July 21—(Special Telegram.)—Today's game between the Des Moines and Lincoln clubs was a very vexations one in several respects. Buck Ebright's hard luck aggregation apparently went to the grounds determined to kick on the umpire, and it is needless to say they found thenty to kick about. They made a grand bluff of refusing to play on a decision in the first inning, and the umpire held the watch on them and declared the game forfeited to Des Moines. RIOT AT THE QUINCY GAME. RIOT AT THE QUINCY GAME.
QUINCY, 111., July 21.—(Special Telegram.)—Today's game ended in almost a rlot. The game was close, and in the fifth inning Umpire Heath called a Quincy man out at the plate. He was apparently safe, and the decision infuriated the crowd. There were 4 000 people there and at the close of the game the bleachers made a rush for the umpire. Fully 500 men rushed on the diamond, and had it not been for the police it would have gone hard with Heath. He had exasperated the crowd by his poor judgment in the two previous games, which had robbed both clubs, and fearing trouble today, there were about a dozen policemen on robbed both clubs, and fearing trouble to-lay, there were about a dozen policemen on the ground. They escorted the umpire to his hotel to protect him from the crowd. After the excitement had cooled down feath said he would reverse his decision and send in his report of the game as a tle, to 2. ENLARGING VIGILANT'S SAIL AREA

Owners Confident of at Least Giving the Defender a Hard Race. NEW YORK, July 21.-When Vigilan neets Defender tomorrow she will carry arger club topsail than that under which he appeared yesterday. She will also have bigger balloon jib topsail, and it is fair to resume that the sall area added by thes changes will assist no little in sending the yacht through the water faster than she went yesterday. Yachtemen are hoping that temorrow's event will take place in a stiff breeze, if not a blow, for nobody knows definitely what Defender can do in a wind. Mr. Willard, who has charge of Vigilant, was willing to admit today that his boat was outsailed yesterday, but he holds the opinion that he can still give Defender a close race. All sailors who have hitherto been insistent that the centerboard model was superior to the koel, point to the fact that never before was a centerboard beaten by a keel, and declare there must be a further test before they confess defeat. hanges will assist no little in sending the

another race will be held for a purse on or about August 1. This time it will no doubt be run on the bleycle track, instead of being a road race. It was hoped that McGreer's time of 58:12, which he made here in the twenty mile road race some time ago, would be lowered, but owing to the fact that a very strong wind was blowing, and as so many accidents happened to the riders, the best time made was 0.39:15.

OMAHA'S TEAM GOES TO DESVER Fallure to Patronize Professional Ball Resolls in the Transfer.

Yesterday's ball game was the last pro-

fessional game for Omaha this year, W. W.

Kent, president of the Western Association; Mr. Hickey of Lincoln and Mr. Blair of

St. Joseph, the committee to whom the disposition of the Omaha club was left to at the association's recent meeting held a conference at the Paxton hotel last evening, which resulted in a determination to transfer the club to Denver, to which to transfer the club to Denver, to which city it will go at the expiration of the present eastern trip. The citizens of Denver have guaranteed to see the club safely through for the balance of the season, and J. T. McVittle will be in charge.

Mr. Kent said that this move was made necessary for the salvation of the association; that the patronage in Omaha had fallen away to such an extent that it would be simply sairide to endeavor to continue here longer. He further said that there wasn't a city in the circuit but what immented deeply that this move was to be made, but they had their own interests to preserve, and had acquiesced in the transfer. He also said that Omaha was only to be temporarily out of the association; that he had abundant assurances from responsible and trustworthy citizens that Omaha's base ball interests would be well guarded in another year. President Kent further declared that Omaha was the head and front of the Western association's interests, and that a franchise would be handed over to her at the next annual meeting of that body. He had made himself conversant

and that a franchise would be handed over to her at the next annual meeting of that body. He had made himself conversant with the causes of failure here, and was perfectly satisfied that under the present conditions and circumstances nothing could save the club here for the remainder of 1895.

The Omaha-Denver team left last evening, under command of Second Baseman Hutchinson, that is, all of the team that saw their way clear to accompany the same. Balez, Darby, Nattress and Miles remained behind, but whether it was because they were tired of a diet on wind, or were let out to curtail expenses, is not as yet definitely known. The aggregation as it now stands includes Hutchinson, Urich, Shaffer, Lohman, Pace, Eagan, Carrish, inks and Slagle.

ONLY HOPE OF THE DEMOCRACY Ex-Congressman Bland Says Silver Alone Will Save T em

ST. LOUIS, July 21.-Ex-Congressman Bland is in the city. Speaking of the silver question tonight, he said: "There is no use trying to dodge this issue any longer. If the democratic party does not declare for the free coinage of silver it will be wiped off the map. The newspapers in the large cities like St. Louis talk about the silver sentimen dying out, but they are not going to fool anybody. There may be a few democrats in the city who will follow the administration This coming convention will show how the democrats of Missouri will stand. In order to win in the next campaign we have go take a bold stand for silver, and we mus getting into line."

KANSAS CITY, July 21.-At a meeting of of democrats, held last night, resolutions were adopted advising all democrats to refrain from having anything to do with the democratic state convention, which is to asemble at Pertle Springs on August 6, discuss the money question. The resolutions maintain that the question is a national one and that the coming convention is without jurisdiction or authority to declare the po-sition of the party on a national question. Any action the convention may take, it is

claimed, will not be binding on the der cratic voters. Loans Are tontracted. NEW YORK, July 21 .- The New York Fi

nancier says this week; The statement of the associated banks of this city for the week ending July 20, 1895, shows a decrease of \$4,165,500 in loans, sithough the amount of currency and the gain of \$2,883,000 from subtreasury operations were apparently large enough to prevent a falling off in deposits, which increased \$343,300 during the same time. The heavy contraction of loans is an evidence of a temporary stoppage in the ac tivity, which has been a favorable feature of the statement for weeks past. The banks gained \$5,172,900 in cash during the week, the total being made up of \$5.068,500 in legal tenders and \$104,400 in specie. There is growing demand for funds from the different crop centers and money will probably begin to move out of New York shortly. The re sult of the week's operations has been to in crease the reserve \$5.088,825, but the total is

Industrial and Manufacturing Industries Crippled by Overproduction and Large Accumulations of Stocks in Stores

and Warehouses.

WASHINGTON, July 21.-Some of the leading business firms of Luxembourg have united in a circular letter addressed to all representative merchants in that place, calling attention to the rain which threatens the textile industry of central Europe in consequence of the competition and overproduction resulting in the accumulation of great stocks in warehouses and in the hands of wholesale dealers. Because of the dangers lie in wait in the future for manufacturers. United States Commercial Agent G. H. Murphy at Luxembourg has transmitted extracts from this circular to the Department of State for publication in the consular reports. In part the circular reads as follows: "The great overproduction all branches of industry, and the consequent accumulation of stocks, threatening clouds arising from time to time on the polit ical horizon, the widespread discontent aroused by socialistic agitation and the unfavorable news received from other parts of the world are the causes of the crisis now prevailing in central Europe in all branches of business.

"To these misfortunes another has recently been added, which threatens a complete revoolution in retail business. As the locust threatens the fields so all retail business is threatened by a new sort of retall auction shop. In nearly every town of Germany, France and Belgium such shops have opened to the great injury of local trade. Large and expensive advertisements are scattered broadcast to inform the public of the sale of masses of so-called wares. In reality, though, these ere old stock wares, which it is desired to cases worthless wares manufactured especially for this purpose. In France, Belgium and Germany drastic measures have been adopted against these swindlers. In all these cities the established firms have united and made common cause against these competi-tors, and their efforts have been successful. Their united strength has succeeded in keep ing the auction shop merchant within certain bounds; new laws have been made which partially protect honest mercantile houses and the purchasing public." The circular closes with an earnest appeal to every honest bustness man in the city to join the "Luxembourg Merchants' union."

OTOE SETTLERS MUST PAY UP Indians Refuse to Accede to a Further Ex-

tension of Time WASHINGTON, July 21.-The district and officers in those parts of Kansas and Nebraska where parts of the former Missouri and Otoe Indian reservations are located have been instructed to inform the purchasers of these lands that the balances due by them must be paid within ninety days or their entries will be cancelled. These lands were bought at public auction in 1883 at prices largely in excess of their ap-praised value. One-fourth of the purchase money was paid down and the rest made payable in one, two and three years at 5 per cent interest. Having twice extended the time of payment of these deferred pay-ments, two years each time. In March, 1893, congress passed a bill giving relief in case the Indians would accept its provisions. The Indians have refused to do this and the department will enforce the original contract. There is now \$192,122 principal and \$89,000 interest due on the lands.
