### NO NEWS FROM CAMPOS.

LONDON, July 23 .- The Times' Havana correspondent wires as follows: Since the July 17 the authorities have had no news of Captain General Martinez de Campos, despite repeated inquiries to Santiago de Cuba and other points. It is feared that there is a general uprising in the province of Matanzau which has been in a restless condition. Th The defcat of the Spanish troops when Santo-cildes was killed has given an impetus to the revolution, especially in the province of Santiago de Cuba, where the iron miners have joined the rebels. I have seen a letter from General Gomez explaining his reason for the proclamation forbidding work on the plantations for the supply of provisions to the town. He says that while Spain obtains sufficient revenue from Cuba to pay her soldiers, the officials will continue to rule When the revenue ceases they will retire. This practically means that the insurgents are preparing to ruin the whole island in order to force Spain's hands off of it. The owner of a large plantation in Puerto Principe, employing 900 men, applied to the troops for protection. The officer in command ad-vised him to comply with the insurgent order, whereupon he stopped all work."
