COMMERCIAL AND FINANCIAL

Despite Plenty of Bullish News the Wheat and Corn Markets Were Weak.

DECLINES IN ACTIVE FUTURES LIMITED

Provisions Suffered from Bear At tacks and Cheaper Hogs-Wheat Started Slow and Remained So Throughout the Day.

CHICAGO, July 23 .- Despite plenty of bullish news the wheat and corn markets were weak today and closed with respective ses of ic and %c per bu. Oats were also weak, but less so than the more pretentious neighbors, the declines in its active future being limited to less than '4c bu. Provisuffered from bear attacks and

cheaper hogs. Wheat started weak and remained so despite the fact that there was much bullish news afloat. The Chicago receipts, as inspected into store, amounted to seventy-one car loads, four of which graded No. 2. On the corresponding day of last year the in-spection was 725 cars, 552 of which inspected into the contract grade, Minneapolis and Duluth received 258 cars, compared with 341 last year. The total receipts at the western primary markets were 374,000 bu., against 1,174,000 bu. a year ago. The one bearish feature of the day's movement was the feature of the day's movement was the small Atlantic port shipments, consisting of only 14,567 bu, of wheat and 13,854 bbls, of flour. The summing up of the official report of the world's exports last week was 6,990,000 bu, compared with shipments of 8,687,000 bu, from the same places the week before. The cabl s however, w r- disapp 1 ting, the crop reports were favorable and the crowds of scalpers all seemed to be long. Bradstreet's statement of the week's changes in the world's stocks, showing a decrease of 2,620,000 bu, caused an advance of ½c per bu, when it was made known, but the ½c disappeared again about as quickly as it had come into sight, giving the scalpers an excuse to grip the profit in the ½c rise. Another diversion was made in favor of the bull side by the reported taking for shipment from here of 20,000 bu, of wheat, of which 100,000 bu, was to go to Toledo, but even that feature of the present situation created no lasting impression. Wheat started with September from 68%c down to 67%c, as against 68%c at the close of the market yesterday. After gradually sagging to 67%c it recovered to 69%c, and twice subsequently it tumbled back to 67%c, and rose again to the previous highest point, reaching 68%c on Bradstreet's bulge, but always tending quickly back to around the opening figures, and toward the close the market was in the most bearish mood, the price getting down to 57%c. The closing quotation was 67%c to 67%c.

Corn again was forced to come under the influence of the fine crop prospects. The day's receipts numbered 298 cars, and the quantity inspected out was 25,690 bu. Issation was 67%c to 67%c.

Corn again was forced to come under the influence of the fine crop prospects overshadowed everything else and caused weakness to be the predominating feature of the day's business, september from 44%c and 44%c had a temperary advance to 45c. In the afternoon it became very heavy and was first at its lowers price as the session, closed. September declined to ward the close with wheat. September ope small Atlantic port shipments, consisting of only 14,567 bu, of wheat and 13,854 bbls, of

Provisions lost more than all they gained yesterday, and at the close the following were the respective losses: Pork, 42½c; lard, 10c per 100 lbs., and ribs 20c per 100 lbs. The market was at its weakest near the end. The hog receipts were 17,000 head, but prices were quoted 15c lower than on the day before.

Estimated for Wednesday: Wheat, 33 cars; corn, 120 cars; oats, 70 cars; hogs, 20,000 head.

TROPICAL FRUITS.

Statistically, lemons are said to be in a stronger position than for several years past at this season, says the New York Journal of Commerce, and it is held that only an ordinary active summer demand is required to cause prices to advance sharply. Last year this time there were 40%,550 boxes on the way to United States ports, the bulk being for New York. In 1893, at the same date, the quantity affect for the American market was 455.100 boxes. At the present time the stock affect and loading is placed at 230,000 boxes, or 176,000 less than on the same day in 1893. The short shipmen's are attributed to a partial crop fallure, induced by the extreme-cold weather in March, this year, which caused the young fruit in many districts to drop almost entirely from the trees, and left the overheads in protected districts to virtually supply the requirements of the consuming trade. It has been reported recently that steamers chartered for Stellian ports find it difficult to procure enough fruit to fill out their cargoes, and are obliged to take general merchanilise. Again it is reported that had the early July trade here been up to expectations and that had prices advanced instead of declining, there would have been less of a shortage in the July shipmen s, the intimation being that supplies are acid back avaiding a better market in this country. Quotations:

ORANGES—Navels, per box, \$5\$; choice seed.

Upward Movement in Prices Received

a Fresh Impetus.

NEW YORK, July 22.—The upward movement in prices on the Stock exchange received a freshmpetus today in renewed buying for the short account. Crop advices continue very favorable and the weak spots in the market are few. The market opened active, with a confident tone to the trading, which subsequently developed into pronounced buoyancy. The sdvance at times was retarded by sales to take profits, but these were iconsequential until the last hour, when a decaused a sharp break in some shares. Sugar and the grangers were in excellent buying demand, the latter on crop news and the former on orders from a pool of insiders. At the highest point of from a pool of insiders. At the highest point of the day the more important gains were: The grangers, from \$\frac{1}{2}\$ to \$2\frac{1}{2}\$ per cent, the latter in Rock bland; Sugar, 1\frac{1}{2}\$ per cent, the latter in Rock bland; Sugar, 1\frac{1}{2}\$ per cent; Sugar preferred, 1 per cent; Starch first preferred, 2 per cent; lowa Central preferred, Nokes Plate seconds preferred and Lenisville & New Albany preferred, \$\frac{1}{2}\$ per cent; Tobacco and Wabash preferred, \$\frac{1}{2}\$ per cent; Pullman, \$1\frac{1}{2}\$ per cent, and Minneapolis from Panhandle preferred, Tennessee Coal, Illinois Central and Cotton Oil preferred, 1 per cent. The final raid broke Sugar \$1\frac{1}{2}\$ per cent, Rock Island and Lake Shore \$1\$ per cent and the other shares a fraction, Marked strength was, however, noted in Chicago Gas and the Leather shares in the late trading, these socks closing at the best figures of the day, making net gains of \$2\frac{1}{2}\$ per cent, \$\frac{1}{2}\$ per cent respectively.

The market closed irregular, the more important changes on the day not already stated being advances in Rock Island and Iowa Central preferred of \$1\frac{1}{2}\$ per cent, Tobacco 1\frac{1}{2}\$ per cent, Sugar preferred, Cotton Oil preferred and Illinois Central 1 per cent. Railway and miscellane us mortagars were strong and active, with sales of \$2\frac{1}{2}\$ odd.

The Evening Post's London cablegram save.

Off.

The Evening Post's London cablegram says the stock markets were irregular today, consols, colonials and foreigners being flat. American railways and mines were very strong, the former closing at the best. Operations here, however, are mainly confined to bears covering. The new Brazilian loan is quoted at a small discount. It had not an eithusiastic reception.

The following were the closing quotations of the leading stocks of the New York exchange today:

Sterling Exchange Easter.

NEW YORK, July 25.—Sterling exchange was a shade easter, the syndicate bankers offering sight bills freely at \$4.8564.95, less commission. For some time the price has been firmly held at \$4.90, plus commission. English bankers stated today that contracts to deliver cotton bills in September and October are being freely offered, but the bankers will not buy because they are reluctant to pay the rates asked now, some of them believing that before the contract matures rates will be 5c lower for actual bills.

Light Run of Cattle and Beef Steers Were in Moderate Supply.

GLUT OF STOCKERS AND FEEDERS

On Chicago Advices Hogs Took a Sudden Drop After Shippers Had Purchased Some at Yesterday's Prices—Trade Active.

TUESDAY, July 23.

Today's receipts of live stock consisted of 1,931 cattle, 2,100 hogs, no sheep and 55 horses, as against 2,976 cattle, 495 hogs, 373 sheep and 61 horses yesterday, and 1,804 cattle, 3,207 hogs and 344 sheep on Tuesday of last Week.

CATTLE—There were only seventy-three loads of cattle in the yards, as against 121 yesterday, and out of that number there were ten loads consigned direct to the packers, leaving only sixty-three loads, or 1,651 eaving eaving eaving eaving eaving eaving eaving eaving eaving eaving

There were some big heavy cattle which were held at over \$5. The market on fat cattle was not far from steady.

Cow stuff was in good demand and sold at fully steady prices. In some cases the market may have been a little stronger and a few cows that were of the same bunch as were here yesterday sold 5c and 10c higher than yesterday.

The supply of stockers and feeders was again large and the market lower. There has been such a flood of stockers and feeders, especially light stockers, that the market has been a good deal demoralized through the efforts of holders to dispose of their cattle. Representative sales:

Southeastern Corner of the State Suffers from Hot Winds and Drouth,

to a Small Section.

Weekly weather crop bulletin, No. 16, of the Nebraska weather service, co-operating with the United States weather bureau, issued from the central office at t e University of Nebraska, Lincoln, under direction of G. D. Swezey, meterologist of the Nebraska bureau, for the Nebraska experiment station, for the week ending

The week opened with two or three days of high temperature and hot winds, which did considerable damage to corn in the southeastern section of the state. The remainder of the v.c.k was cooler and more or less showery. The temperature for the week as a whole averaged slightly below the normal in the western part of the state and slightly above it in the eastern.

The precipitation varies greatly in different sections of the state, ranging from none at all in some isolated localities to over two inches in others. In the extreme southeastern corner of the state the drouth, which has continued for several weeks, remains practically unbroken. Further west the rainfall continues to be abundant. In the northeastern section the need of rain is beginning to be felt.

The small grain harvest is everywhere well advanced and some threshing has been done.

In the southeastern portion of the state.

Yer.

Pawnee—Some of the early planted corn fields are practically ruined by the hot winds early in the week. Pastures nearly ruined, it has been fix weeks since we had a good rain.

Polk—Corn doing well, but needs rain. Potatoes extra good. Oats two-thirds harvested.

Richardson—Hot winds Tuesday and Wednes—day and most localities needing rain badiy. nas not improved much during the week. One generally light. Flax much earlier and lighter than usual.

Saunders—Corn and pastures are suffering some for lack of rain. Onts harvest in progress and promises a good yield.

Seward—Corn has not grown well. Curis during the day. Out crop will be poor in some parts and very fair in others, especially on low land. Hay crop light, but good quality.

Thayer—Hot winds have damaged early corn badly. Lots of corn all right yet. Rain badly needed for corn and grass.

York—Out harvest nearly done, Estimated yield about thirty busnels per acre. No wheat here. Corn is still backward and not a very good stand. Potatoes doing very well. Hay, crop good.

NORTHEASTERN SECTION.

Burt—Corn is getting behind on account of cool

NORTHEASTERN SECTION.

Burt—Corn is getting behind on account of cool weather and lack of moisture. Harves, all coming on at once. Wheat so dry that it is shelling badly, but fine quality and good heads. Outs the best for years. Pastures drying up.

Cedar—Corn has made rapid progress. Wheat and outs crop being harvested and both are heavy crops. Colfax Disastrous rain and hall storm in each

and oats crop being harvested and both are heavy crops.

Colfax—Disastrous rain and hail storm in eastern part of county. Oats about all cut and crop above the average. Corn tooks well, but needs rain in the southern part of the county.

Cuming—Weather rather dry for coin, but it has made good growth. Oats are being cut and the yield will be large. Wheat nearly ripe and will be a good yield. Hay is good.

Dixon—Oats and spring wheat promise very heavy yields. Too dry for corn.

Dodge—Rain is much needed. Corn tasseling out very short. Spring wheat about all in shock. Oats three-fourths harvested. Yield from forty to seventy-five bushels per acre.

Dougles—Mean temperature, 79 degrees, slightly above the normal.

Holt—Corn has made rapid growth. Early planted corn tasseling. Wheat and oats harvest begun and will be a full crop. Millet doing well.

Holt—Corn has made rapid growth. Early planted corn tasseling. Wheat and oats harvest begun and will be a full crop. Millet doing well. A little more rain would help corn and polatoes, but nothing suffering.

Knox—The oat harvest is well along and some threshed. Some hay city.

Madison—Oats nearly harvested and an unusually heavy crop. Wheat ready to stack. Early corn tasseling out and needs rain.

Pierce—Harvest well under way and some threshing done. A large yield of all small grain.

Pierce—Harvest well under way and some threshing done. A large yield of all small grain.

Platte—Harvest of oats about complete and a splendid crop. Corn nearly all tasseled out and earling. Rye mostly cut and a poor crop. Growing crops and pastures sadly in need of rain.

Sarpy—Oats harvest in full blast. Best crop for years. Rye yielding about ten busin's per acre. Potato crop excellent.

Antelope—Harvest well under way and some threshing done. Alarge pried do the way. Sugar beets doing well.

Stanton—Barley and rye all cut. Harley and oats a heavy crop, but rye is light. Wheat crop will be good. Corn tasseling out and looks well. Washington—Corn standing the drouth well and growing.

CENTRAL SECTION.

Boone—No rain this week. Corn needs rain, but is not suffering. Cats about half a crop. Wheat ripening slowly. Harvest about half over. Wheat, barley and rye a light yield.

Buffalo—Harvest is well on and yield large. The easern half of the county never produced a larger crop of small grain. Corn is superb. Huy on the bottoms good, on the uplands light. Custer—Harvest in full force. Rye backward. Oats have ripened unevenly, but are filled well. Corn growing well, only some places very weedy and yield will be much reduced.

Dawson—Harvesting commenced, but crops are generally light. Corn doing very well.

Greeley—Great growing weather for corn. Oats the best for years. Spring wheat good. Hay promises to be a good crop. Sugar beets growing nicely.

Lat. Cots harvest in full blast; heads well promises to be a good crop. Sugar beets growing nicely.

Hall-Cats harvest in full blast; heads well filled. Early potatoes good. Early corn promises well. Late corn small and weedy.

Howard-Harvesting in pragress. Some have commenced to thresh. Corn plowing finished and ears are shooting. More rain is needed.

Merrick-Cats harvest in full blast. Cats a full crop. Wheat and rye light. Corn doing finely, but more rain needed.

Sherman-Corn making a good growth, but meeds rain badly. Small grain mostly harvested and yield light. Hay nearly a failure.

Valley-Harvest of small grain mostly harvested and winter wheat half a crop, but outs and spring wheat more than an average crop. Rain

is needed. The drouth has not damaged sma grain much, but has some in the south part of

SOUTHWESTERN SECTION. Adams—Rsin this week has improved corn very much and will help the lait oats.

Chase—Good growing week, hot and wet. Alfaira the lest ever raised. Gardens and potatoes excellent. Corn tasselling late. Corn very weedly, but growing fast.

Dundy—An ideal week and crops are booming. Frankin—Plenty of rain. Corn looking fine. Farmers cutting small grain, which is very weedly and with the exception of oats will be a light crop. Milled and sugar cane in good condition. Frontier—Corn doing fine where weeds do not interfere. Polatoes promise a good crop. Hay will be light, but fairly plenty and a good quality. Furnas. The best growing week of the season. Much of the corn is weedy yet. Wild grass fine and has will be picity. Ground thoroughly scaked. Most small grain fair, but some very

hoppers are very link and are repaired of one some damage.

Kearney-Harvest of oats and wheat in progress. Grain very weedy. Rye and bariey are both short crops. Postoes will be immense. Corn is perfect and growing fast. Hay will be a ress. Grain very weedy. Rye and barley are both short creps. Potatoes will be immense. Corn is perfect and growing tast. Hay will be a good crop.

Lincoln-More rain badly needed. Much corn being laid by. Small grain where not strigated is in poor condition.

Perkins—Wheat nearly ripe. Corn doing well, but needs rain soon.

Phelps—Ground in good condition and crops are all doing well. Winter wheat being cut and some cais. Corn never was better.

Red Willow—Ground the uchly scaked and corn growing rapidly. Grass growing well.

Keya Paha—Wheat, cats and hay not improving. Corn is looking well where it has been well worked.

Logan—Corn withering during the day, but straighteus at night. Mostly laid by Some rrebeing cut, but very light. Barly potatoes will make about one-fourth of a crop.

Scott's Huff—Crops are booming. Wild grass the best for years and stock is looking finely. Sheridan—Wheat and cats so badly burned up that the yield will be less than last year.

Webster—Prospects for a full crop of corn. Outs better than was expected. Corn is tasseling and siking well. Some winter wheat yielding twenty-one bushels per acre.

NORTHWESTERN SECTION.

NORTHWESTERN SECTION.

Cherry—A very hot, dry week. Some late corn and pratoes suffering. Early corn and grain tooking well.

Cheyenne—Fairty good growing week. Wheat will be light. Corn especially doing finely, but it is rather late to make a full crop.

Dawes—Small amount of hall on the 17th doing considerable damage. Crops much damaged by drouth. Hay crop will be less than last year. NORTHWESTERN SECTION.

Drouths in Eastern States.

WASHINGTON, July 23.—The weather bureau, in its report of crop conditions for the week ended July 22, easys: Droutiss have been broken in Wisconsin and partly relieved in eastern Ohio and in portlens of Michigan, but continue in western Ohio. Portlons of New York, Pennsylvania and eastern Oregon are also suffering for rain. Corn has made rapid growth in lilinoza and kansas and is reported as improved in Michigan, Wisconsin and South Dakota. The crop is doing well in Misseuri and Arkansas, and is in promising condition in the middle Atlantic and New England states, in the southern states the corn crop is now practically laid by in excellent condition, and gathering of foster has begin. The week has not been uniformly favorable for catton. While a marked impovern it is reported and an improvement is noted in Mississippi and Louisiana, in Tennessee and North Carolina it is running to stalk, and loc much rain has caused injury in portions of Arkansas. Louisiana and Fiorida. In southwestern Texas cotton is suffering for rain.

Tobacco is doing well in Virginia and is in excellent condition in Maryland. In Ohio it is suffering from drouth. In Kentucky it is growing rapidly and some has been topped.

Frost occurred in Idaho on the Ifth, causing slight damage. Frost also occurred in Utah on the 19th. No damage reported. Drouths in Eastern States.

COLUMBIA, Mo., July 21.—The weekly weather crop bulletin, issued by the Missouri weather serv-

COLUMBIA, Mo., July 22.—The weekly weather crop bulletin, issued by the Missouri weather service, says:

Although on several days the weather was oppressively hot and sultry, the mean temperature of the week was very near the normal in all sections. The precipitation was decidedly in excess of the normal over the northern portion of the state, the total for the week at many stations exceeding four inches, and from one to three inches is reported from stations in the central counties, but in the southern sections the rainfall was generally light.

In most of the northern counties cats are about all cut, and in some districts having is nearly completed, but in a number of counties work was stopped by the heavy rains and hay and grain considerably damaged. Corn and orchards were also injured to a considerable extent in a few localities by high winds.

In the central portion but little farm work could be done, and much grain is still in the fields and in bad shape.

In the southern counties the week was generally dry and stacking, threshing and haying have progressed favorably.

The cenditions have been excellent for corn, and that crop promises a phenomenal yield. All other growing crops are also doing well.

Iowa Crops Doing Well. CHICAGO, July 23.—The lows weekly weather crop bulletin, issued today, shows: The temperature of the past week was about the seasonable average. For a midsummer week the rainfail was phenomenally heavy, the measurements reported from more than two-thirds of the state

Scaronable Rolls in the sweather crop bulletin for the week rays: In the castern division the light showers in the south half, with the warm days, have been very b hendial, permitting the ground to dry, tureshing to resume and corn to mature. In the northern part the heavy rains have be n beneficial to growing seems, but delayed harvesting and threshing, yet ounties. In the middle division the hot winds the first
