Secretary Lamont during the afternoon ordered General Coppinger, commanding the Department of the Platte at Omaha, to proceed to the scene of the trouble and to make such disposition of his command as he may deem necessary to protect the settlers and secure the return of the Indians to their reservations.

Later in the day Commissioner Browning saw Secretary Lamont. The secretary agreed to give the matter under consideration and to make such disposition of his command as he may deem necessary to protect the settlers and secure the return of the Indians to their reservations.

The treaty by which the Banhook Indians were located upon their present reservation shows the right of the Indians to hunt in Wyoming is as follows:

"The Indians hereby agreed that they will make said reservation their permanent homes, and they will make no permanent settlement elsewhere, but they shall have the right to hunt on the unoccupied lands of the United States so long as game may be found thereon and so long as peace exists among the whites and Indians on the borders of the hunting grounds."

The treaty was made in July, 1868. The policy of the Indian bureau of late years has been to persuade the Indians to accept of the reservation as their home, but the existence of their right is said at the Indian bureau to be unquestionable. Now that trouble has arisen, the bureau is endeavoring to be satisfied by the terms of the treaty and the Indian office has ordered the Indians back to their reservations.

**EXCITEMENT AT FEVER HOLE.**

Jackson's Hole Country the scene of a warlike demonstration. (Special Telegram.)—Excitement in the Jackson's Hole country is at fever heat. It is not safe for ranchmen to leave their homes. The Indians are threatening to leave the reservation and to make vengeance for the death of the Indians killed two weeks ago by deputy constables. These were words of Indian Agent Teter, who returned early this morning, unharmed and without a hard trip. The Jackson's Hole country is a hotbed of Indian trouble. He left the agency last Thursday, going to Market Lake. From there he came overland to the agency at Fremont county, where he arrived yesterday morning. He reported that the Indians were on the move, and that they were armed with guns and knives. He said that the Indians were on the move, and that they were armed with guns and knives. He said that the Indians were on the move, and that they were armed with guns and knives.

Speaking further to The Bee correspondent of present conditions in the valley, Teter said: "The settlers are thoroughly alarmed, and they are sure to be killed. The Indians look upon the killing of the Indians as nothing short of murder, and are now undoubtedly preparing to avenge their deaths. There are now about 200 Indians at present in Jackson's Hole proper, but I am reliably informed that there are from 250 to 300 camped in the Fall River valley, thirty-five miles from the agency. They are, however, scattered all through the country, and it is not safe for white men to go out alone."

The Indians shoot from ambush at every white man who makes his appearance, and the whites have adopted the same tactics toward the Indians. The Indians are now gathered at several points to protect themselves. I urged them to prepare for an attack, but not to assume the aggressive toward the whites. **DEPUTIES LEAVING THE COUNTRY.**

They, he says, are responsible for all this trouble, and some of them are already slipping the country. The government will not investigate by Uncle Sam may result in their being arrested. Teter also says that the Indians are not the only ones who break the game laws, but that the white tourists and eastern hunters are much worse than the red men. Robert J Gets Within Half a Second of His Best Performance.

Coleridge Paced Three Heats Under 2:07 in the 210 Feet—Eight Heats Made the 214 Trot.

Detroit, July 24.—Fortune still smiles on the Detroit Driving club, weather, attendance, good racing and all that goes to make a successful meeting prevailing again today. Robert J. was the favorite on the day, and although he did not lower his record, nearly everybody was satisfied when they learned that they had witnessed the second fastest mile ever paced. It was 4:25 when the gelding got away, with Geers holding the lines and the runner, Chee, lapping his sulky. The bay beauty was as steady as a clock from wire to wire, as the sectional time shows, and the ordinary spectator it appeared that he could easily have broken his record had he been urged. The sectional time was 1:04, 1:04, 1:04, 1:04. An hour later he was sent another mile, with the runner leading the way, in 1:04. Starter Loper announced, however, that Geers was merely working the champion to the wire, and that he was not to be in shape for his race next week.

The unfinished 210 pace was easily won by Coleridge in straight heats. He also made the best race of the meeting thus far. The 214 trot was a mixup, and required eight heats to decide. Geneva sold favorite in the auctions, but only took fourth place in the race. The 214 trot was a mixup, and required eight heats to decide.
