prominent Omaha citizens. In reply to the letter of Governor Holcomb transmitting to the attorney general and commissioner of public lands the petition of Omaha citizens, requesting the board to delay action under the new Churchill-Russell act until the supreme court shall have decided upon an agreed case. Attorney General Churchill has sent the governor another let-ter composed in the same insulting language and teeming with the same abuse as the let-ter which he made public yesterday. In this etter he impugns the motives of the men who have signed the petition in behalf of a peaceful settlement of the controversy by he courts and their advice is haughtily purned.

In this letter, too, the attorney general efers to the Hay-Abbott case, but unately gets mixed in his facts. In that case overnor Holcomb, acting strictly within constitutional authority, appointed L. J. Ab bott superintendent of the asylum for the insame at Lincoln and the senate, also acting n its constitutional authority, confirmed th nomination. The old superintendent, Hay refused, however, to recognize the new super intendent and retained possession of the asy lum by force. Attorney General Churchill and Commissioner of Public Lands Russell, as members of the different state boards, entinued to recognize Hay and to pass upo his vouchers long after Abbott had made formal demand for his place. The que war ranto proceedings were instituted on behal of the rightful appointee, who was exclude from his right and against the unlawful pos-sessor, who was holding the fort.
