Reasons Why Reasons Why

A MAN SHOULD LOCATE IN

ORCHARD HOMES.

Because There Is There-

An abundant and regular rainfall for crops, cool breezes from the gulf during the summer, a climate that will permit raising all kinds of fruit and vegetables, a very rich soil, a good dairy-farming country, the best climate, an abundance of lumber, houses built at a very low cost, free fuel, a very hospital and kindly population, good public schools. A section in which severe frost and long winters are lacking. Summer nights are always cool. Winter nights rarely cold. A thorough, invigorating, healthy and pleasant climate. The great markets are within a few hours distance of you. The temperature ranges from 30 to 90 degrees. No extremes. The water is good. The people are friendly and prosperous. Garden farming and fruit growing pay and pay you well. Common sense will tell every man to investigate this. The immigration is to the South. It is inevitable. You cannot afford to let this chance pass. It is a duty you owe yourself and your family to look over this fertile region and see what it will do for you. The tide is turned that way. Nothing will stop it. Nature aids your efforts. Success is sure to follow honest labor and no risk of failure of crop, hot winds or drouth are staring you in the face. Organize into clubs of three to five families. Select your home and you will never regret it. Come and see what the country is. Address or see us at any time. All information cheerfully given. It is time now,
