A Mystery of Heroism. A DETAIL OF AN AMERICAN BATTLE. BY STEPHEN CRANE. Copyright, 1895, by Tring Publishing Co. Collins appeared as a man dreaming. In the middle of the quietude, the advice, the wayward all the excited talk of his company mates, he maintained a curious silence.

He strode sullenly away from them. He was swinging five or six canteens by his cords. It seemed that his cap would not remain firmly on his head, and often he lay down to rest upon his brow. There was a general movement in the compact column. The long animal-like eyes were turned upon him.

It seemed to him superlatively strange that he had allowed his mind to maneuver his body into such a position. He had not intended that he should be called dramatically great. However, he had no full appreciation of anything so grand as this.

He was then a hero. He suffered that dis-appointment which we all have if we are called a hero. He remembered borrowing \$10 from a friend and promising to pay it back the next day, and then avoiding it for weeks and months.

He was now about thirty paces from his comrades. The regiment had just turned its many faces toward him. The men were pressed into his ears. He could see nothing but flying arrows, flaming red. He lurched from the shock of this explosion, but he made a mad rush for the house, which he viewed as a man submerged to the neck in a boiling surf might view the shore.

After some discussion it was decided to allow the resignation of Mr. O'Dell the same to take effect September 1, of the present year. Next Monday Mr. O'Dell will start on his way to decide when he will preach his farewell sermon in this city.

At the weekly meeting of the members of the Beth-Eden Baptist church, held Wednesday night, those in attendance were given a painful surprise. After the routine business had been disposed of, the pastor, Rev. D. J. Edlen, called to his feet a man who had an announcement to make.

UNION PACIFIC TO BE READY. Law Regarding Air Brakes and Automatic Coupling Will Be Obeyed. PREPARING FOR IT IN THE SHOPS. Will Take Millions of Dollars to Equip All Roads in the Country.

Joseph H. McCollum, superintendent of motive power and machinery of the Union Pacific, is not only an expert car and locomotive builder, but he loves to revel in figures that would startle most men. His office at the shops is crisscrossed with a mine of information, and his scheme for saving cost in his department since his assumed charge has been adopted by many of the railroads of the country.

Mr. McCollum, since his tour of inspection, has been seriously considering the air brake and automatic coupler act, effective January 1, 1895, and yesterday said to a Bee man that the next two and a half years the railroad companies of the United States, in order to comply with the law requiring all freight cars to be equipped with air brakes and automatic couplers, will be required to expend a vast amount of money.

The application of the automatic coupler costs about 22 per cent, and the air brake \$45 for each car, while it costs about \$200 to apply the driver brake to a locomotive. Effort will probably be made to have the time extended beyond January 1, 1895. It is generally expected that no extension will be granted as the trunk roads of the country are so far behind in their equipment.

Some Union Pacific Changes. Crews Laid Off Between Ogden and Salt Lake. Effective yesterday, a number of changes were made on the Union Pacific by the division office, as a result of the recent tour of investigation on the part of officials.

Charges Against the Officers. Did Not Make a Square Deal on the Coliseum Loan. One of the suits growing out of the debts hanging over the Coliseum building, and brought by the trustees of the Coliseum building against various Omaha parties to recover for money loaned on notes made by the Coliseum Building company, has taken on some new features.

Plumbing Inspectors' Idea. Watering Troughs Lent to Please Certain Parties. Plumbing Inspector Duncan expressed himself forcibly yesterday relative to the resolution which was introduced by Councilman Saunders, by which the inspector was directed to keep all watering troughs and drinking fountains clean without expense to the city.

Will Laugh at Train Robbers. Polish Church Won One Round. The Polish church controversy is over until it is revived again in criminal court next fall. The church was won by Judge Haxter's court yesterday. A jury had been summoned to try the issues over an appeal bond given by the Kowalewski faction in order to appeal from a judgment of master rendered by Justice Haxter.

Narrow Gauge Equipment to Be Sold. Special Master in Chancery Cornish of the Union Pacific returned last night from Denver, where he was through to St. Paul at once. In the matter of the petition of the receivers of the Union Pacific asking for power to sell a number of narrow gauge engines belonging to the Kansas Central, bought when that was a narrow gauge road, Judge Cornish in a report filed yesterday recommended to the court that the prayer of the petitioners be granted.

Marriage Licenses. The following marriage licenses were granted by the county judge yesterday: James H. Borer, Malvern, Ia. Agnes Louise C. Carlson, Malvern, Ia. Walter R. Nilsson, Logan, Ia. John W. Wakefield, Calhoun, Ia.
