Free Silver Men Have Complete Control of the Convention.

CAPTURE THE STATE ORGANIZATION

Sound Money Men Were so Scarce that They Did Not Even Make a Pretense of Putting Up a Fight.

PERTLE SPRINGS, Mo., Aug. 6.-Free Aliver has conquered in Missouri, as it did in Illinols, and the fears expressed late last night and early this morning that there would be strife and turmoil in today's convention were not borne out. The so-called gold or "sound money" adherents were so overwhelmed by the superior generalship and numerical strength of the free silver leaders and forcer that they made but a very faint effort to stay the onslaught of the white metal adherents. Bland said in opening the -convention that the democrats of Missouri had assembled to adopt resolutions for the free coinage of silver and to select a state committee which would be in sympathy with the popular will, and how well his prophecy was carried out the result of today's convention tells. The report of the committee on permanent organization, which practically snows under the old committee, was adopted with but one or two dissenting voices; that of the resolutions for free and unlimited coinage at 16 to 1, regardless of any foreign nation, was carried with a hurrah and expedition seldom seen in any convention, and, furthermore, men were selected to nominate gates favorable to silver to the national demcratic convention in 1896.

The Missouri democratic monetary was formally called to order by John H. Carroll, After b. Rev. Dr. Berry Mr. order prayer by Rev. Dr. Berry Mr. Carroll made a few remarks which had a tendency to harmonize the contending factions, and then introudced Hon. R. P. Bland as temporary chairman, Mr. Bland con-gratulated the democratic party upon the auspicious gathering of democratic hosts for action upon the free silver question. He said the democrats of Missouri had met to renew their pledges for bimetallism. The democrats of Missouri, he said, send greetings to the democrats of Illinois with regard declarations already made on that 'We have met," he said, "to declare for

ALL FOR FREE SILVER. After the usual committees had been se lected, the "free silver jubilee singers" of Warreneburg entertained the convention with several free rilver songs. Colonel W. F. Switzler of Bosneville, representing the free allyer democrat editors of Missouri, who met at Sedsia recently, then addressed the convention, pledging the support of the editors in the fight for the white metal. After Colonel Switzler had concluded his remarks the convention adjourned until 2 o'clock without the contention as to the state cen tral committee having made its appearance. After the convention adjourned the committee on permanent organization met and decided to make the temporary organization Then the wedge which may end In dividing the party in Missouri was inserted in the way of a resolution providing for an increase in the number of state committee-The resolution adds one member from congressional district and four at large. The chairman is hereafter to be elected by the regular state nominating convention. The resolution was unanimously adopted in committee. Nothing was done by the committee

not being ready to report the convention took a short recess. At 4:40 the committee on resolutions reported the platform as follows REPORTED BLAND'S WAY.

REPORTED BLAND'S WAY.

The democrats of Misseuri, in convention assembled, make the following declaration on the monetary question, which has been forced into the leading place among the issues of the day. The federal constitution names silver and gold as money metals of the United States. The first coinage law passed by congress under the constitution made the silver dollar the unit of values and admitted them to free coinage at a ratio measured by the silver dollar unit. From the beginning of the government, following a policy formulated by Thomas Jefferson and firmly established by Jackson, the democratic party has been the party of bimetallism, favoring the free coinage of both silver and gold at national mints, and opposed to farming out to banking corporations the government's sovereign power of issuing and controlling the money of the people.

mints, and opposed to farming out to banking corporations the government's sovereign power of issuing and controlling the money of the people.

The act of 1873 demonetizing silver was surreptitiously passed, without the approval or knowledge of the American people, and from the time the effect of this act in fastening upon the country the single gold standard was understood the democratic party has consistently and persistently urged that the grievous wrong be righted. A failure to accomplish this object has regulted in the steady appreciation of gold and corresponding fail in the price of commodifies produced by the people; a heavy increase in the burden of all debts, public and private, the enrichment of the money lending class, paralysis of industry and impoverishment of the people and unexampled distress in all gold standard countries. Experience has shown that while, under the single gold standard, there may be an occasional revival of business activity, accumpanied by enhanced prices of a limited number of commodities, such revival is due to artificial and temporary causes and cannot permanently alleviate the sufferings due to the falling of prices brought about by the appreciation of gold and an inadequate supply of primary or redemption money. Duty to the people requires that the party of the people continue the battle for bimetallism until its efforts are crowned with success; therefore, be it

Resolved. That we, the democratic party of Missouri, in convention assembled, demand the free and unlimited collage of silver and gold into primary or redemption money at the ratio of 16 to 1, without waiting for the action or approval of any other nation on earth; and, second,

Resolved, That we are irrevocably opposed to the substitution for metalifemoney of a panic-breeling, carporation-credit currency, based on a single metal, the supply of which is so limited that it can be cornered at any time by a few banking institutions in Europe and America. Third,

That we are opposed to the issuing of interest-bearing bonds of the United States in time of peace, and especially are we opposed to placing the treasury of the government under the control of any syndicate of bankers, and the issuance of bonds to be sold by them at an enormous profit for the purpose of supplying the federal treasury with gold to maintain the policy of gold monometallism.

Gardner had been found alive in Norwich, Conn. there was great rejoicing in this city. But few have for a moment entertained the idea that Mrs. Gardner had willingly left her home and children, and while all sorts of rumors have been circulated, they have not been generally believed. The reputation of Mrs. Gardner, she having resided in this city for the past nine years, coupled with her exemplary Christian life, has made it impossible to believe wrong of her. Mrs. Gardner's health has been very poor for the past year, and especially the last six months, and the long journey to Boston, to-gether with convention work, sending writ-ten reports to the local Christian Endeavor ciety, overtaxed her brain, resulting is

temporary derangement. This was no great surprise to the people of Arcadia, for before leaving it was gathered from her remarks that, owing to her ill health, she considered herself more of burden to her husband and family than help. Mr. Gardner did all in his power eradicate this opinion from her mind, sen ing her to Boston to the convention in the belief that a change of scene and the in-spiration she would draw from the assembly of Christian workers would do much

all you can raise and paying the highest prices for it. There is no end to the season or crops. You can have a crop to market every month in the twelve if you wish to do so. You are the architect of your own fortune in this garden spot of the world. Now is the time to go south. It has been estimated that more people can be accommodated comfortably in the south and lay the foundation for prosperity than now live in the United States.

in that marvelous region with its perfect climate and rich soil if properly worked will make you more money and make it faster and easier than the best 160 acre farm in the west. Garden products are an immense yield and bring big prices all the year round. Strawberries, apricots, plums, peaches, pears, early apples, figs, oranges-all small fruits-are an early and very profitable crop.

Timber of the higfhest quality is abundant. FUEL is abundant and costs you nothing. Cattle run out all the year. They are easily raised and fattened. Grazing is good all the year. Native grasses are luxurious and nutritious.
