If they can get water from the Ni-obrara river and get it on the tablelands of Keya Paha county, farmers can irrigate 400,000 acres of land at a cost of \$400,000. The people here think the ditch can be built this winter and water put on the ground for next years' crop. If it can it will be worth millions to the farmers of this county.

An irrigation ditch south of this town, covering about 500 acres of land, is turning up forty bushels of wheat to the acre and up forty business of which an Irishman's eyes turn green with envy. All kinds of garden truck on this irrigated land is immense, and corn will make 100 bushels to the acre. The parties who went to the Sioux reser-

vation after the mortgaged cattle last week returned with \$1,785 in money. The offend-ing parties had to pay up and will have to pay about \$2,500 more before the matter settled. The cattle consisted of 160 head of big steers, mortgaged to the Reliance Trust company of Sioux City, by one "Doc" Lewis.

"Pellets" are superior in a great many ways to all mineral waters, sedlitz powders, saits, castor oil, fruit syrups, laxative teas, sails, castor oil, full syrups, laxative teas, and other purgative compounds. Made of concentrated vegetable ingredients, they act in a mild, natural way. Their second-ary effect is to keep the liver active and the bowels regular, not to further constipate, as is the case with other pills. They don't interfere in the least with the dist hebits interfere in the least with the diet, habits or occupation, and produce no pain, grip-ing or shock to the system.

ing or shock to the system. Dr. Pierce's Pleasant Pellets cure bil-iousness, sick and bilioms headache, diz-ziness, costiveness, or constipation, sour stomach, loss of appathe, coaled tongue, indigestion, or dyspepsia, windy belch-ings, "heart-burn," pain and distress after eating, and kindred-derangements of the liver, stomach and bowels. These "Pel-lets" are easily dissolved in the stomach and absorbed into the blood, stimulating a flow of bile from the tiver, and aronsing to activity all the glandular secretions. Thus they act in nature's onen way. In proof of their superior excellence, it can be truth-fully said, that they are always adopted as a household remedy after the first trial. Put up in glass vials, therefore always fresh and reliable. One little "Pellet" is a laxative, two are
