The State department has received from

Minister Tillman at Quito a dispatch dated

July 20, which shows what the situation was

at that time. In it Minister Tiliman says

that there are no indications of an early

settlement of the complicated political condi-

tions of that country. Alfaro, who reached

Guayaquil on the 18th or 19th of June, was

still there with an armed force amounting, as

it is claimed by his friends, to 4,000 or 5,000

men. The government force at Quito was

estimated at 2,000, which, it was thought,

The plateau between the eastern and west-ern ranges of mountains was controlled at the

time of Mr. Tillman's writing by the small army of the conservatives. General Srasts,

with 1,000 men, was at Guaranda, 100 miles

northwest of Quito, near the main road to Guayaquil from Quito. The government forces had captured fifty or sixty men from

the north of Quite, who, in company with 200 others, were trying to pass to the south.

Bishop Shumacher, with 350 men, was ex-pected to arrive at Quito July 20. There

was to be a procession in his honor and he was to be crowned by the archbishop with laurels and wreaths of flowers. It seems

laureis and wreaths of flowers. It seems that he had defeated a few hundred of the followers of Alfaro. Alfaro's plans and his strength were not definitely known at Quito when Mr. Tillman wrote, but he says that it was admitted on all sides that his advance to the capital a few weeks before would have

been easy.
Mr. Tillman adds that the strangest feature

Mr. Tillman adds that the strangest feature of the revolution is that, with the exception of a few officers or leaders, the armies are composed of the poorest of the population, and that well dressed men take their daily walks and throng the plazas unmolested and seemingly wholly disinterested as to the result.

with guns and revolvers and placed them

guard. This did not prevent a large crowd from assembling at the Jall, and they re-mained there all night. It is well under-

Will Put Out Homeseckers' Excursion Tickets for Points in the West. Now that the attempt to reach an agreement on the question of homeseckers' excur- Revolution in Ecuador Appears to Be Gainsions has fallen through the roads which are most interested in the development of the western country are beginning to take the matter into their own hands. The Burlington is already announcing that a series of homeseekers' excursions will be run, with a rate of one fare for the round trip. Tickets will be issued on August 29. September 10 and 24 and October 8 from eastern points to points west of the Missouri river, good, prob-ably, for twenty days, the exact conditions of the return trip to be determined later. This is in accordance with the intention of the Burlington road announced some time ago. The dates are exactly the same as suggested at the meeting of passenger agents in Chicago a day or two ago. The certificate plan there proposed will not be adopted and the additional \$2 for the return journey will not be charged. There is every probability that within a short time other roads will meet the rate announced by the Burlington

General Passenger Agent Buchanan of the Elkhorn, who attended the Chicago meeting on behalf of his road, says that everything was very harmonious, and the reason that no agreement could be reached was owing to differences of opinion as as to methods. The reference of the question of the formation of an association, or at least a working agreement as to rates to points in the west he thinks is certain to bear fruit.

It was in accordance with the general ex-pectations that the passenger agents would pectations that the passenger agents would fail to reach any results, and now railroad men are saying that they did not want to agree on the matter of homeseekers' rates. It is suggested also that there is very little possibility of any general agreement as to passenger rates until the pending excursions of the Knights Templar conclave and other events are over. Such a matter as that cannot help but tend toward an unsettled condition, and it is now showing its effects very clearly.

Whether the homspekers' excursions which are likely to be announced by all the roads entering the western states will have any such effect as this remains to be seen. Com-peting roads will, of course, be compelled to neet each other's rates, but the Burlington is first in the field with a single fare rate, and none of the others are likely to go below SETTLEMENT FINALLY REACHED.

CHICAGO, Aug. 16 .- The western roads having failed to reach an agreement on the question of harvest excursions while convened in a meeting, are now in a fair way to reach such an agreement without holding a meeting at all. The I liness Central amounced today that it would accept the restrictions on the sale of its harvest excursion tekets which were recommended by the committee to the general meeting of the western roads earlier in the week. It will sell tickets in the manner suggested for the first three excursions, and if the test is satisfactory will continue them for the remainder. As soon as this was an-nounced to Chairman Caldwell he reported the matter to the Burlington, and that road agreed to hold its excursions in abeyance while. This was also agreed to by all the interested lines with the exception of two from whom no word was received today. It is probable that both of them will vote in the affirmative. The plan on which the Illi-nots Central will sell its tickets is that no round trip tickets shall be soid, but that the agent at the point of destination shall, upon the payment of \$2, issue a certificate that the no der is the original purchaser, and the original ticket with the attached certificate will be good for the return trips.

Some of the eastern lines were much dis quieted today over the report that one of the roads running east of Chicago had thrown down the barriers on the Knights Templar ticket to the extent of allowing wholesale stopovers on the return tickets up to and in-cluding the final return limit of October 3. This would be virtually making the return portion of the tickets good for passage west from Boston at any time between the date of arrival in that city and October 3. It could not be definitely ascertained that any line had taken any such action, however, and the rumor probably arose from the fact that some of the eastern roads have said that they will allow stopovers as late as October 3, provided that the ticket is deposited in Bostor vided that the ticket is deposited in Boston and shall then be used for continuous passage only between Boston and the point at any intermediate point.
