ON THE WRONG SIDE.

There is a steady growth of the international merchandise account against the United States. There have just been issued by the State department advance sheets showing, from reports of consuls, the value of importations from France, Germany and several other countries for the first quarter of the current year.

SALISBURY IS REASSURING.

The speech of Premier Salisbury in the House of Lords, so far as it related to the Armenian question, was reassuring. The conservative and diplomatic head of the British government spoke with more directness than is usual with him and what he said may be expected to make a decided impression upon the Turkish government.

It was a cruel piece of sarcasm for Mr. E. J. Cornish to declare in his address before the Grand View Republican club that Isaac S. Hascall was a walking encyclopedia on republicanism.

great deal of significance in this declaration of the British prime minister.

represented the finest offered not only to themselves, but to her majesty, the queen. Plentifully supplied with money they stubbornly refused to pay the fines assessed and were put to work on the streets with the chain gang.

Surprise Wouldn't Express It.

If Cleveland should see the Indiana democrats' advice and appoint Harrison to the supreme bench, it would be an act that would surprise the country, but it would reward greatly to the credit of the president.

Kansas Stateism.

Senator Peffer has discarded free silver and has come out for a currency based upon land values alone. He is opposed to unlimited coinage of the white metal, and has even turned his back on the government pawnshop scheme.

Watered Street Railway Stock.

The Street Railway Journal states that the great railroads of the United States are capitalized for a total of \$5,000,000,000. The average capitalization of the steam railways is \$63,000 a mile, while that of street railways is only \$1,500 a mile.

Endowments and Economies.

It cannot be demonstrated, but it looks as if Prof. Bemis of Chicago university has been dismissed because his teaching regarded monopolies are not pleasing to that arch-monopolist, John D. Rockefeller.

Shooting for Courage Sake.

The silver democrats are holding a conference in Washington. If holding conferences and mass meetings did the business, the silver party would have been successful long ago.

Cold Truths in a Rumor.

The rumor that General Campos has resigned the captain generalship of Cuba and that he is returning to his native land is a hard-headed, brave old soldier, who has seen much hard fighting in his day.

Too Heavy for Politics.

It is an incontestable fact that many persons have become too elegant to soil their hands with anything so vulgar as practical politics. Because his teaching regarded monopolies are not pleasing to that arch-monopolist, John D. Rockefeller.

Caring Street-Sweeping.

The evils of the sweep shops are being corrected in two ways, by the efforts of the workers in them who organized in labor unions, and by the efforts of the city government to clean up the streets.

Selected a Poor Subject.

If Judge Scott of Omaha is going now to reach out for public approbation he should make his selection on a much safer one. He has shown himself a judicial tyrant of the Jefferson school, though fortunately of narrow range.

IOWA PRESS COMMENT.

Sloux City Journal: Senator Vest doesn't want to criticize the Iowa democratic platform, but he has looked out some way and could be kept secret no longer.

Carroll County: When we hear populists complaining because the democratic party did not adopt a free silver platform to make our money, they are not satisfied with their own party. They have a full set of nominees for state officers, a free and unfettered press, and a free and unfettered press.

LOCAL CAMPAIGN CHATTER.

And now it appears that Colonel Foster is a bold, bad man. The failure of the new police board to appoint a chief of police and to force and precipitate a double-header system on the city is charged up to him.

OTHER LANDS THAN OURS.

The usual eruption of feeling against Germany has been breaking out in Paris lately. Politicians and journalists work upon the feelings of the people, knowing that they will always find eager listeners to any proposition for revenge on Germany.

THE BICYCLE RACE.

I've a "bicycle race," which I will not let you see. With a face that is not of that kind; And if you are one, I will give you my mind.
