The passengers who were on the train were not molested. They were simply diwere not moiested. They were simply of rected to stay where they were, and as this order was backed up by a liberal exhibition of Winchesters, they did not dispute the right of the intruders to be obeyed.

Major T. S. Clarkson of this city was returning from North Platte on the train. He said that soon after the train stopped two or three men appeared on the front platform and began discharging their firsarms. They and began discharging their arrangements, did not shoot at anything in particular, but simply seemed to desire to impress the passengers with the fact that they were perfectly willing to shoot some one if they had to. None of the passengers tried to leave the car and beyond hearing the explosion of the dynamite in the express car, they know but fittle about what was guing on. When the robbers Cullingham entered the court at 2 o'clock found the fireman had gotten away with

A special train was at once made up in this city and Superintendent Park, Master Mechanic Barnum, Sheriff Miller and Deputy Keliher, with a posse of citizens left for the agenc of the robbers. The wrenking craw was also taken, as the ex-plosion of the dynamite blew the express car all to pieces and knocked two other cars off the track. The robber's took a northern direction through the sand hills and sparsely settled country and at 7 o'clock the sheriff sent back for four additional men. He was on a hot trail and had captured one of the horses. From blood marks to be seen it is thought one of the robbers was badly wounded, and he will probably be captured before night. Everybody is elated over the quick work done by Fireman Duke, and henceforth he will be one of this city's

NORTH PLATTE, Neb., Aug. 21 .- (Special) Telegram.)-The latest news from the posse in pursuit of the train robbers is that the horses belonging to the bandits have been captured, both badly cut by barbed wire fences. It is thought the rdbbers are now cornered and being held by the officers. Posses have left Gandy, Callaway, Gothen-burg and Brady Island, and there is no doubt that they are now on a hot trail. Master Mechanic Barnum returned from Brady Island this evening and he freely expressed the belief that every one of the robbers would be captured before tomorrow after-noon. It is thought that the rabber who thought that the robber who blew open the small safe was hadly burned by the dynamite and unable to travel, and that he is now hiding in the hills north of the scene of the robbery. That part of the country is now being scoured, and if a threatened storm does not interfere he will have no charce of escape. Reports from men in pursuit are scarce.

INTERSTATE TOURNEY PROGRESSES FINELY

Singles Given a Good Start Yesterday and Doubles Worked Down to the Semi-Finals-Scores for the Day.

All the preliminary matches in the Omaha Interstate Lawn Tennia Tournament have ow been worked off, and nothing remains but first-class contests. Yesterday was a day of good hard work. Only sixteen ties ere now left out of an original fifty-two. Twenty-one were settled yesterday, three going by default.

Considering what is in store for the rest of the week, yesterday's games were as a rule of only secondary interest. One ended in a surprise which is likely to be the most memorable incident of the tournament. C S. Cullingham went down to J. B. Farquhar

of Lemars, and, moreover, was only able to save three games in the two sets. this there was as fine tennis exhibited, by the winner, as was ever seen in this city. But apart from this the matches were for NORTH PLATTE, Neb., Aug. 21.—(Special the most part either between two men of Telegram.)—Deputy Sheriff Keliher returned from Vroman at 10 o'clock this morning and sided as to give the loser no show at all.

In the morning only singles were put into ourt. Mr. Waldner was about the first to begin, and he was given a good deal of runing about by H. E. Gibbs. Gibbs. bowever. has not given much time to tennis this sum-mer, and he only placed four games to his credit. Haverstick was entirely outclassed by that he did a year ago, and Austin's well placed drives were too much for blin. M. Colpetzer and R. Young played a stubborn

with Crapo, and had no difficulty in disposing the of him. He seemed to be playing his game and well enough, and no one had any suspicion of what was coming. A short time later. had stood up against him for a few exhibition games the previous afternoon, and gave no indication of being able to make even a close fight. The natural presumption in creased by the form that had been shown since the tournament opened to almost certainty that he would win hands down. CULLINGHAM BADLY BEATEN.

They started out. Game after game went o the visitor, and the spectators became interested. For a time, however, those who knew the two men thought little of it. Cullingham's habit of winning when defeat is staring him in the face was taken into con-sideration, and also the fact that Farquhar ppeared to be playing a stronger game than se was considered capable of, indicating apparently that he was likely to fall down at any moment. But never for an instant did he let up. The first set was a love set probably the first time that Cullingham has st a love set in a tournament match i Omaha. They changed ends, and still the balls continued to fly from Farquhar's racket, always played in exactly the right manner to most discommode the Omaha man. Hardly a chance was given him to kill a ball. Everything was almost out reach, or was too fast for accurate placing Farquhar's lobs were wonderfully accurate and the high wind not only made them very difficult to return, but made the fact that they nearly always fell but a few inches inside the base line all the more re-markable. Cullingham took three games in he second set, but he never gave any indica tion of starting in to win. The close of the match was just as the start. Cullingham was severely outplayed. Farquhar pu up one of the most skillful games ever see: in Omaha. His head work was superb Every ball was played just as it should hav been. When a lob was needed a good to any persons answering the de-f the robbers. From the scene bery the train pulled to a vacant superbly. Haskell was outclassed, but he succeeded in duplicating Cullingham's score Percy Young and Crape, Young and Cald-well did almost as they pleased with R. Young and Bannister, Waldner and Slocum out of the car and fied. There is no doubt but what the robbers were experts in the use of dynamite. One of the horses, with bridle and saddle, was found four miles but one game, and Austin and Cumng ham had an easy win from the Wilber pair. Doane and Davis, who only scored four games. Farquhar and Haskell showed an improvement in their team work, and should provement in their team work, and should stand well against Young and Cadlwell this afternoon. The state champions had little need to exert themselves, winning fifty-four points out of eighty-seven, but they showed some pretty team work and considerable mastery of the doubles game, which they have now been practicing together for sev-eral weeks, although they did not put in so much time at practice as they should have done after the Grand Island meeting if they wished to carry off first honors here also. From the showing made up to the present in the courts there is little to choose bet them and Cullingham and Austin. E pair may give the Chicagoans a hustle, and it is being freely said now that although up to the present Waidner and Slocum have had a very easy time of it, they will cer-tainly not go home without the loss of a set

plays.

NATIONAL TENNIS TOURNAMENT.

Second Day at Newport Sees Smaller Attendance. NEWPORT, R. I., Aug. 21.-The second ay's play in the national-tennis tournament was not as well attended as the oper ing. Fredrickson won, but by the veriest scratch, as Jimmy Mack pushed him for all he was worth and would have undoubtedly won had it not been that Schrader, who was ridden out of the race but maintained the pole around to the finish This made it necessary for Mack to go around him, and in doing so he lost the lead to the hig German and was beaten across the tare by a hair. the police station at 9 o'clock last night, the clothes were almost torn off her back. This condition of her wearing apparel had been caused by the well directed efforts of one James Keefe, according to her statement. She said that she had gone into a saloon on a corner opposite her residence to get a can of beer, and there Keefe met her. She further stated that Keefe had first raised a chair to brain her, and had then set it down again and set upon her with his Officer Sullivan was sent out to look for Kerfe, and in a short time placed him

This he refused to pay, and Mrs. Brainiff threatened to garnishee his wages. The matter was finally settled and then Keefe wanted to board with Mrs. Brainiff again, but Mrs. Brainiff refused to take him. The trouble finally culminated in the incident of last night.
