Developed that Teachers Have Been Engaged Without Examination-Resignations Accepted and Vacancies Filled.

The regular meeting of the Board of Education last night was one of the longest and most tedious sessions of the year. A vast amount of time was consumed in adjusting differences over trifling matters, and it required a couple of hours to get the business of the session fairly under way.

Secretary Gillan submitted the following financial report for the year ending June 30,

J. E. Wigman of the manual training de-partment asked permission to take charge of the Omaha school exhibit at the state estimated the necessary expenditure at from \$25 to \$30. The matter was referred to the High school committee, with power to act.

ELECTED WITHOUT EXAMINATION. A resolution by Edwards provided for an amendment to the rules by which the North-western university of Evanston, Ill., the Mas-convention to be held at Lincoln September 5, western university of Evanston, Ill., the Massachusetts Institute of Technology and the Polytechnic Institute of Troy, N. Y., be added to the list of colleges whose gramates are eligible to teachers' certificates without exmittee. amination. Cramblett registered a vigorous objection, on the ground that the resolution was for the purpose of helping out certain graduates of these schools who had been elected as teachers, but who had deliberately refused to take the examinations.

It then leaked out that the High school ers for election who had never taken an examination or received a certificate. The teachers were elected by the board on their recommendations. After they had been elected the teachers had simply laughed at the committee when they were requested to take the examinations. As the teachers were already under contract the board was compelled to pass the resolution to help the com mittee out of its predicament.

CHANGES IN SALARIES. The salary of the superintenfent of buildings was raised from \$1,500 to \$1,800 a year. The salaries of the secretary, custodian and clerks were fixed at the same figure as last

serious Accident to Willis M. Yates Last Evening. Willis M. Yates, brother of Henry W.

Yates of the Nebraska National bank, met with an accident last evening that may prove fatal. Mr. Yates is an employe of the Equitable

Trust company, which has offices on the third floor of the Nebraska National bank building. He had been at work during the afternoon and upon finishing his labors for the day he discovered that the elevator was not running, owing to the fact that it was Labor day. The elevator is of the Hale pattern and is one of the old style, with cables running through the front of the car and from the top to the bottom of the building. The car was at the bottom of the whalf of the car the door at the third land. shaft. Opening the door at the third land-ing, Mr. Yates reached around and pulled on one of the cables in order to bring up the car that he might ride down. The car came up and was passing him when he threw his body upon the platform, but was unable to get upon his feet. Realizing that in a moment more he would be crushed between the floor of the car and the floor above, Mr. Yales threw himself off the platform, intending evidently to strike upon the floor below. Missing his footing, he slipped and fell down elevator shaft, a distance of fifty feet and was found in an unconscious condition few moments later by the janitor of the

He was placed in a carriage and taken to the residence of Dr. Peabody, where he now is. No hones were broken, but he was bruised and frightfully cut. The main injury is a concussion of the spine. His condition is extremely critical. In the night Mr. Yates recovered consciousness, but was too weak to talk.

Further Complaint Against Chaffee According to information that the police have received Henry G. Chaffee, who is now under arrest in this city for forgery, did not confine his operations to Omaha. Chief White yesterday received a letter from the agent of the Fremont, Eikhorn & Missouri Valley railroad at Fremont, stating that Chaffee passed a forged check of \$12.50 on him. The check was given in exchange for a ticket, a friend of the agent vouching for Chaffee, although he did not endorse the check.

Consumption is a disease caused by mpurity of the blood, and the first thing to be done in its treatment is to make the blood pure, rich and wholesome. That is half the battle. The other half s the impregnation of the blood with cleansing, healing, invigorating medi-cines. The "Golden Medical Discovery" does both. It first puts the whole digestive system into perfect order, rids it of all impurities and from the vantage ground so gained, reaches out to every fiber of the body and restores all to perfect vigor. It cures many diseases, simply because many diseases spring from a set of common causes. The same disorder may lead to different symptoms in different people. What might be only a little indigestion in one person, may combine with a slight cold in another and result in consumption. A treatment that tones up the whole system is always the safest. A medicine that is good for the general health is pretty sure to cure ordinary diseases. Six cents in stamps with this notice, sent to World's Dispensary Medical Association, Buffalo, N. Y., will bring a large 160 page book. It contains photographs and letters from hundreds who have been cured by Dr. Pierce's Golden Medical Discovery.
