GEORGE B. TZSCHUCK. Sworn to before me and subscribed in my presence this 2nd day of September, 1893. (Seal.) N. P. FEIL, Notary Public.

How many different democracles of Nebraska are there, anyway?

Parliament has adjourned, but it will reconvene before congress assembles.

The firm of Mahoney & Smyth seems to be hopelessly divided on the silver question.

It is to be noted that the prices of brooms have just been advanced, and that before election, too!

Secretary Carlisle will be forgiven anyway for not attending the powwow of Nebraska administration democrats.

Chauncey Depew has sailed for home. Let New York interviewers sharpen up | American steamships for ocean comtheir pencils and be on the lookout for his landing.

It looks as if General Campos had come to the conclusion that the banquet route is the shortest route to victory over the Cuban revolutionists.

While about it, Beemer might just as easily have gotten 50 cents a day for the support of each convict in the penitentiary as 40 cents a day.

The secretary of the treasury is having about as hard a time to keep a \$100,000,000 gold reserve as some unfortunate housewives have in keeping servants.

If boilers worth only their price as old iron were valued at \$4,000 in the penitentiary appraisement, who can tell what other property was similarly overvalued?

American agriculture is certainly in a orse state of depression than the English dustry. The case is cited of the recent industry. The case is cited of the recent sale of 639 acres of land in England, with farm house, stabler, homestrad, and seven cottages, for \$28,500. This property a dozen years or more ago was valued at \$100,000, and only four years ago was mortgaged for \$70,000. We have had a good many bad cases of this sort, particularly in New England, but none representing so violent a shrinkage as this.

Of the twenty-five democratic committeemen who have said their say, thirteen are for a short campaign, seven are against it and five are non-committal Thus it appears that the republicans are more decidedly in favor of the new departure than the democrats, but that it is not un-likely that a majority of the latter will de-cide for a short commander. cide for a short campaign.

Chicago Times: The short campaign idea has fairly taken hold of the people of beat judgment everywhere throughout the coun-try, and some of the most influential papers try, and some of the most influential papers have come out in its favor. Whatever preshave come out in its rayor. Whatever pres-sure, therefore, can be brought upon the poli-ticians who more or less direct the affairs of party to hold late conventions will be brought. The only argument offered against it is that time may not be afforded the new participations of the participation of the participation. brought. The only not be afforded the new it is that time may not be afforded the new national committees to perfect their party organization, but this is more in seeming than in reality. As a matter of fact the same men, whether on the committees or off, direct the campaign year after year, or at least are open to consultation, and their advice and experience can be had for the asking. Of the remaining 4 per cent there are 209,702 persons earning from 3,000 to 6,000 marks, 39,556 earning between 6,000 and 8,000, and more than that last number only 72,038, including in this last number only 72,038, including in this last category all banks, stock companies and other corporations and bodies of mon considered an entity in the juridical sense. There are 143 persons or corporations en-joying an annual income of 1,000,000 marks r over, and of these there are ten single mul-i-millionaires with incomes of from 6.000,000 to 7,200,000, and two corporations with 8,240, 000 marks income. On the whole, therefore it will be seen that Prussia is still, despite her annexation of fertile and wealthy countries during the past thirty years, a very poor country. And this, notwithstanding the fact that this January 1, 1895, there were

3,759,251,523 marks of deposit in the 1,471 savings banks of Prussia.

The completion of her port at Bizerta, or the coast of Tunis, gives France a valuable naval station upon the south side of the Mediterranean. A canal, not quite a mile long, very wide and deep enough for her heavy armorclads, has been cut through to a lake of great area, which serves as a landlocked haven and port of supply and repair. Although a fresh water basin might have a still greater value, no better shelter could be asked, and it is evident that the protection of the port, the lake and the canal by fortifications can easily be secured. The work on the canal and its surroundings has been going on for three years, and that of fortifying and of constructing additional establishments of a naval station will doubt-
