

THE OMAHA SUNDAY BEE. E. ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION: Daily (Without Sunday), One Year, \$1.00...

THE NEGRO AS AN A. P. A. For more than forty centuries the negro has been the victim of oppression and proscription. Whether in the jungles and deserts of Africa, in the tropics of South America...

THE GREAT YACHT RACE. The victory of the American yacht Defender in the first of the races for the America's cup will intensify interest in this event, though it is by no means to be regarded as establishing the superiority of the winning boat.

INSANITY HERE AND ABROAD. The increase of insanity among medical men is a fruitful topic of discussion among medical men and it is a subject of general interest. Nearly all the reports of specialists and directors of institutions devoted to the care and treatment of persons afflicted with mental maladies show that the number of such patients is growing.

ANOTHER SLOW BURNER BURNED. The destruction of the Masonic temple at Boston by fire in broad daylight and in the face of the fact that the structure was presumed to be fire-proof demonstrates again that imitation fire-proof buildings are not really fire-proof.

EXTRADITION TREATIES. The case of Chester W. Rowe, the defaulting Iowa county treasurer, who fled to Mexico and whose extradition the Mexican government refused to order, has called attention to the fact that there is need not only of a new treaty with that country, but that with many other countries a readjustment of extradition relations is most desirable.

THE LAW WORKING WELL. According to the Berlin correspondent of the New York Evening Post the enforcement of our immigration law is being perceptibly felt in Europe. He states that a short time ago a band of fifty Russians arrived in Magdeburg enroute to the Russian frontier, where they were to be turned over to the czar's officials.

THE DEATH OF E. M. CORRELL OF HEbron removes a prominent figure in Nebraska politics. Mr. Correll was a member of two legislatures and was a promising candidate for the nomination for lieutenant governor in the last republican state convention.

THE POSTAL AUTHORITIES are getting after some more fraudulent concerns which use the mails to get money from gullibles under false pretenses. The list of newly defrauded persons and companies has been published, but it fails to contain the name of the general of the Industrial Legion, who has been exploiting the postal facilities for the purpose of obtaining 5-cent buttons and 2-cent certificates upon ignorant victims for the price of \$1.

WEALTH AND IMMIGRATION. The inventor of soap was a friend of the gospel. It doesn't take much money to make a good man rich. No prayer ever hurts a prayer meeting by being too short and engage publicly in devotion.

SECULAR SHOTS AT THE PULPIT. Chicago Tribune: Bishop Newman's faith must be of the kind that moves mountains. Judging from his avowed belief that "the time is rapidly approaching when Christianity will be the accepted religion of all the world."

DOMESTIC IDYLS. Chicago Inter Ocean: "Why don't you marry that girl?" "She is a real pearl." "Ah, yes; but I don't like the mother of pearl."

THE PASSING SHOW. For the Lord's Sake Harrison is the name of a colored ruler in Texas. John Wanamaker of Philadelphia carries \$2,000,000 in his life. He has several more subject to check.

SUFFRAGE IN UTAH. Philadelphia Press: The decision of the Utah supreme court that women cannot vote at the coming election and on the adoption of the constitution is in accord with law and common sense. How the lower court could have reached another conclusion will puzzle the serious student.

CORN'S SWEET COMPANION. Harvesting an enormous sugar beet crop in Nebraska. Unless some untoward event occurs to change the crop prospect the largest job of beet marketing ever done in Nebraska will be entered upon this week.

There is no longer any question as to the adaptability of Nebraska soil to sugar beet culture. Beet raising has progressed beyond the experimental stage. What Nebraska needs is the investment of more capital in beet sugar factories, and with the increased demand the increased production will come of its own accord.

A Surplus All Round. Springfield (Mass.) Republican. Justice Brewer in his address before the American Bar association lamented over the superabundance of lawyers in the country and particularly of poorly educated ones.

It is not our funeral. Nebraska is to have the big crop of sugar beets reported there will be no decrease in the price for immediate export because the Cuban insurgents propose to destroy the sugar cane now maturing on their island.

The Utah Question Settled. It is worthy of notice that the republicans of Utah have nominated as their candidate for governor Heber Wells, the son of one of the prominent Mormon pioneers. His Mormon connection seems not to have been considered as affecting his candidacy in any way.

A Prosperous Breeze. Philadelphia Record. The September breezes continue to blow items of good cheer from the industrial front. The window glass was scale for the week signed at a popular price on Saturday insured 20,000 men an advance of 7 1/2 per cent on last year's scale.

Where the Interest Lies. A Woman in the Atlanta Monthly. I am an old woman and must have my say, and I tell you when you all come into the fullest intelligence you will find that the three real interesting things of life are: that children are born, marry and die; that we grow up; families, have friends, lovers, husbands, children; that the real bliss of existence, the stimulating charm, the religious contentment, the moral and spiritual elementary facts; that they occasion the talk, the wit, the fun, the absurdities, the follies, the heartaches, which make life worth living.

Philadelphia Press: The decision of the Utah supreme court that women cannot vote at the coming election and on the adoption of the constitution is in accord with law and common sense. How the lower court could have reached another conclusion will puzzle the serious student.

Unless some untoward event occurs to change the crop prospect the largest job of beet marketing ever done in Nebraska will be entered upon this week. There are two immense factories for the manufacture of beet sugar in Nebraska, at Grand Island and Norfolk, both of which have been in operation for several years, but the amount of beets that will be raised by the state is unequalled the present outlook. The managers of the factory at Grand Island estimate that they will have at least 35,000 tons of beets ready for beginning operations.

There are other cities in Nebraska that desire the establishment of the beet sugar industry in their vicinity. There was an effort made to get a factory at Chadron, in the extreme western part of the state, and one is hoped for at Randolph, Lincoln and other places. It has been demonstrated that good sugar beets can be grown in almost any part of the state, and with this fact in view it is reasonable to suppose that other factories will be built in the state and in adjoining states.

It would not do for the farmers of Nebraska to go too far with their beet sugar farming. There is always danger of losses in any country devoted to one kind of farming, and it would be as unwise for Nebraska farmers to become exclusively sugar beet growers as it was unwise for the North Dakota farmers to stick to wheat as the exclusive of everything else. Nebraska is a good stock and dairy state, especially in some parts, and it has splendid corn fields and wheat fields and good crops of all kinds are to be found there. Beet raising should be simply one of the things making up the wealth of Nebraska, and the present prospect encourages the hope that the factories to be built in the state and in adjoining states.

It is not our funeral. Nebraska is to have the big crop of sugar beets reported there will be no decrease in the price for immediate export because the Cuban insurgents propose to destroy the sugar cane now maturing on their island.

The Utah Question Settled. It is worthy of notice that the republicans of Utah have nominated as their candidate for governor Heber Wells, the son of one of the prominent Mormon pioneers. His Mormon connection seems not to have been considered as affecting his candidacy in any way.
