## COMMERCIAL AND FINANCIAL

Another Cent and a Quarter Was Knocked from the Price of Wheat.

SLOWLY DECLINED ALL DAY

Lowest Prices Were Not Reached Until the Last Few Minutes of the Session-Provisions Were Wenk and Scored Losses.

CHICAGO, Sept. 11.-Gold shipments, big Borthwestern deliveries and heavy liquida-tion knocked another 1%c off the value of wheat today, December closing that much lower. May corn lost %c, May cats %c and

provisions finished at declines. Wheat was again dull, and the bearish conditions which have ruled for some time still prevailed. The northwestern deliveries are will the principal factors; while not quite so large as yesterday, being 1,203 cars, they were still more than double what they were a year ago, and nearly double what they were the same day during the banner crop year of 1891. The primary receipts were also larger than a year ago by over 190,000 bu. The cables came weak and lower and discouraged longs were selling out freely, while there was also active selling for the short account. The market was helped a lit-tle by a message from New York which said that 192,000 bu, had been taken there for export. December sold early at from 58%c to 58%c, with a few sales at 58%c-these

said that 132,000 bu, had been taken there for export. December sold early at from \$5%c to \$5%c, with a few sales at \$5%c—these being practically the closing figures last night—but under free seiling there was a steady break to 58c, reacted to 55%c, but at noon was 58%c. May sold off to 62c, and September to 55%c.

The market got into a rather panicky condition during the last hour on large gold shipments, the break in corn and big liquidation. December sold off to 57c, and closed at 57%c. Although the government crop report reduced the condition of corn from 102.5 to 96.4, that was expected, and had no sustaining influence upon prices. The weather was all that could be desired for ripening the crop. The frost, which has so frequently threatened to hip a portion of it along the northern edge of the belt, has not made good its threat, and an assured monster crop is now favorably believed in. The weakness of wheat increased the heavy feeling. May, which closed yesterday with sellers at 25%c, opened at 25%c and worked down gradually to 28c. The lowest prices were not reached until the last few minutes of the session, when May sold at 25% and Beptember at 30%c. Closing prices were 29c. sellers, and 20%c respectively.

Oats were quiet. May kept at 20%c and at from 21c to 21%c split during the forenoon. The later weakness in wheat and corn extended to oats, and May sold off to 20%c, closing at 29%c.

Provisions opened weak at some reduction from yesterday's closing prices. There were buyers enough at the opening decline to prevent a further fall, and, although the weakness in corn and wheat caused an occasional subsequent dip, buying enough to cause a quick rally followed every such decline. The prices, however, did not at any time get back to the level of yesterday's closing rates, and in the end September and January lard had lost 24c, and September and January lard had lost 24c, and September and January lard had lost 24c, and The leading futures ranged as follows:

Condition of Trade and Quotations on Staple and Fancy Produce.

The erg market continues to be the most interesting feature of the produce trade. There are some dealers who profess to believe that

the Chiesgo market during September. Should the present extremely hot weather continue any length of time there must be a railing off in the demand, which has been very good during the demand, which has been very good during the past week.

For a year and a half now the manufacture of oleomargarine has been on the decline. September of the demand of the first of the demand of the first of the derease in miles was a grant probably the industry had received it was the probably the industry had received it will be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning. But it appears that oleomargarine would be further decrease in the year flust now beginning to the proportionate decrease of the would be further than the would be further th demand, which has been very good during the past week.

For a year and a half now the manufacture of oleomargarine has been on the decline, says folicago, Produce. It was thought, however, last year that probably the industry had received its severest blow. The decrease in mike was so marked during the fiscal year ending last July that it was not thought possible that there would be further decrease in the year just now beginning. But it appears that oleomargarine is falling more and more into disfavor. The make for the month of August just closed shows the greatest falling off in percentage yet exhibited by the makers of oleomargarine. Where they made last year 6,055 fffty-pound tubs, they made this year in August but \$5,268 tubs, a decrease of nearly 20,000 tubs, or 45 per cent. It means that at least 30,000 tubs more of pure butter have gone into consumption during the month of August this year than were consumed last year during the same month. It means, too, that in the winter months we may expect a still larger proportionate decrease, because we have enough pure butter in the refrigerators of good quality to supply the consumptive demand at a very moderate cost, in which case the oleomargarine people will not be "In it" to any great extent. As a rule October is the banner month for oleomargarine. This is the month, as a rule, when the price of butter is advanced sharply, and the trade turns to butterine. But it will not be the case this October. There will be so much storage goods to come out when the price of some out when the price of some out when the price goes up a cent or two that the market will stand little chance of getting out of the reach of consumers of butter. Quotations:

STOCKS AND BONDS.

Volume of Business Showed an Increase of Eighty Per Cent. say that the price at this point is so high that there is no shipping outlet and that with anything like liberal receipts a slump in the market would be inevitable. On the other hand it is claimed that this is the season of the year when the market here usually and the prices for the previous day. The claimed that this is the season of the year when the market here usually and the process of the year when the market here usually and the process of the year when the market here usually and the prices for the year when the market here usually and the prices for the year when the market here usually and the prices for the year when the market here usually and the prices for the year when the market here usually and the prices for the year when the market here usually and the prices for the year when the market here usually and the prices for the year when the market here usually and the prices for the year when NEW YORK, Sept. 11.—The stock market today displayed marked irregularity, radically conthing like liberal receipts a slump in the market, would be inevitable. On the other hand it is claimed that this is the season of the year when the market here usually advances and that it is nothing unusual for eggs to sell right up to the Chleago market during September. Should the present extremely hot weather continue any length of time there must be a falling off in the gold shipments.

8 CATTLE-The receipts of cattle today were liberal for the middle of the week, but

at the same time they were the lightest of

any day since Saturday.

There was a reasonably good demand for beef cattle, but the offerings were light and for the most part on the commonish order. Salesmen were generally reporting the market as about steady, though buyers claimed that anything desirable would sell 5@10c higher. The market as a whole did not show any marked change from yesterday. The market on cows and heifers was in about the same condition as the market on fat steers—the buyers claimed they were paying higher prices, while salesmen could see no more than a steady market. The market on that class of cattle could safely be quoted steady to strong. The trade was active and the twenty-five to thirty loads on sale changed hands early.

Quite a good many stockers and feeders were offered on today's market, but there were also a good many buyers wanting that kind of cattle. The buyers were early at work and the general market was active and a little higher again today. Good cattle of all weights could safely be quoted 10c higher than Monday. Representative sales:

STEERS.

HOGS-It was an uneventful day in the hog division. The receipts were not equal to yester-day's run, but aside from that they were the heaviest in some days.

The demand on the part of local packers was good, and the market opened at about steady prices. The trade was active and the offerings were son all taken. The close was a little

were soon all taken. The close was a little stronger. The best hogs sold at \$4.25, the same as yesterday. Representative sales: 

SKIPS AND CULLS.

PIGS.

SHEEP-The receipts were liberal and the mar-ket strong and active. Everything offered met with ready sale. Representative sales:

Active at Firm Prices. CHICAGO, Sept. 11.—A large share of the cattle now coming forward are from the ranges of the far nothwest and out of 15,000 cattle that the far nothwest and out of 15,000 cattle that arrived here today \$,000 were western rangers. Sales of choice native shipping and dressed beef cattle were at from \$3.50 to \$5.75, exporters being fair buyers, and common to good droves found purchasers at from \$3.50 to \$5.70, the bulk of the sales occurring at from \$4.75 to \$5.60. The stocker and feeder trade was again active at firm prices, sales ranging at from \$2.55 to \$3.55, with some sales of very choice extra feeders at from \$3.90 to \$4.25. Milkers and springers were wanted at from \$25 to \$55 per head, and a few choice cows brought \$40. Hutchers' and canners' stuff displayed fair animation at ruling prices, bulls selling freely at from \$1.75 to \$3.50, while cows and heifers sold at from \$1.75 to \$3.75, principally at from \$2.55 to \$3. few getting above \$3.55. Yeal colves were not any better, sales ranging at from \$3 to \$6.50. The few Texas cattle on rale were steady at from \$3 to \$2.50, there being a ready demand. Western rangers were in the usual good demand and prices were stady. In hogs there was a fairly active demand from local packers and seastern shippers at the sharp reduction in prices that took place yesterday, good light and medium weight hogs selling decidedly more freely than their heavier commades. The bulk of the droves in the pens changed hands before noon, sales being largely at from \$4.00 for shipping lots. Sales were at an extreme range of from \$2.50 to \$4.20 for shipping lots. Sales were at an extreme range of from \$2.50 to \$4.20 for shipping lots. Sales were at an extreme range of from \$2.50 to \$4.20 for shipping lots. Sales being largely at from \$4.00 for medium weights for common to choice assorted light weights.

Sheep receip's today were not excessively large and prices ruled firm at yesterday's advance. There was an active demand, native sheep selling on the basis of from \$2.50 to \$4.50 for mixed lots, and at from \$2.50 to \$4.50 for mixed lots, and at from \$2.50 to \$4.50 head; calves, 600 head; hogs, 15,000 head; sheep, 15,000 head arrived here today 9,000 were western rangers.

WEEKLY PACKING HOUSE OUTPUT. Slight Increase in the Movement of Hogs Reported. CINCINNATI, Sept. 11.—(Special Telegram.)-

'omorrow's Price Current will say: Western ackers have handled 150,000 hogs for the week, compared with 145,000 the preceding week, and 175,000 last year, making a total of 6,300,000 since March, against 7,130,000 a year ago. Prominent places compare as follows:

Court Order in Morse Case. Judge Ambrose has made an order in the natter of the failure of the Morse Dry Goods company. He allows Receiver Koch \$500 compensation for his services in winding up the affairs of the company. The collection of assets still remains to be made on outstanding accounts. Everything has thus far been done by agreement of parties. Bills for taxes were allowed, but some controversy arose over items of expense and the dispute was adjourned until the convening of court.

Little Haste in Paying Taxes. The county treasurer reports that taxes are coming in at a very slow rate. Last year at this time numerous lists were being filed by tax purchasers who were anxious to keep alive their priority of tax liens. For some unaccountable reason these purchasers are slow in coming to the front and paying delinquent taxes for the last year.

and expected to begin active operations on the enlargement of their system within a week.

Figures which have been submitted to the mayor and members of the city council by the city engineer indicate that some of the city of the city engineer indicate that some of the city council by the city engineer indicate that some of the politicians who have been roasting certain city officials on the ground that they were delaying the expenditure of \$85,000 TRADE, 227 Traders Building, Chicago.

Treasury Officials State that the Present Movement is Only Temporary and that Losses Will Be Made Good.

NEW YORK, Sept. 11 .- Nesslage & Fuller Stocker and Feeder Trade Was Again \$1,000,000 at the subtreasury for shipment tomorrow.

> WASHINGTON, Sept. 11 .- Despite the news of heavy withdrawals of gold from the subtreasury at New York today for shipment tomorrow, the treasury officials keep up a cheerful front. Only \$150,000 in gold was withdrawn from the New York subtreasury today, which leaves the true amount of the gold reserve \$97,544,666. Treasury officials show no uneasiness on account of the depletion of the reserve. They argue that the situation is brought about solely by speculation and that there is no legitimate reason for gold going abroad now. The movement of the cotton crop is now under way, and this added to the grain shipments of the northwest, which must soon set in, it is said, is sure to overcome any speculative tendency toward further shipmen treasury has made several exchanges of this character, with a prospect of many more in the near future.

Today's statement of the condition of the treasury shows: Available cash balance, \$181,717,146; gold reserve, \$97,620,003. The government bond syndicate this after-noon deposited \$3,000,000 go'd at the subtreasury to the credit of the government.

MARY WELCH'S STRANGE MANIA City Physician Too Busy to Administer to an Insane Woman. One week ago last Monday morning Mary

Welch, a refined and educated woman 25

years of age, called at police headquarters

and told Police Matron Cummings that she was sent there by a physician to be examined as to her mental condition. She told the matron that her family and friends were incessantly accusing her of being crazy, and that the reproaches had so worried her that she had called on a doctor, who referred her to the police. Dr. Saville, the city physician, was notified by telephone that his presence was notified by telephone that his presence at the station was wanted to examine a demented woman. He was busy, so he said, and did not heed the urgent appeals that were made. He did not visit the city jall until afternoon. When he did reach the place he made a burried examination of the unfortunate young woman and pronounced her suffering from melancholis, but not of the acute kind. He found that her mind was the acute kind. He found that her mind was badly diseased and that she imagined that voices were always talking to her, calling her crazy, and that the ever-present fiends put drugs in her food. The city physician then told her to go to her room and visit him the following day. In the meantime her sister, Mrs. J. H. Heron, at Lexington, Neb. was notified and she replied that the girl had better be sent to an insane asylum. Dr. Saville "was very busy for two days and gave the matter no attention." Thursday night last the occupants of the house where the woman roomed were aroused from their sleep by hysterical cries from Mary Welch's apartment. They found her almost unconscious, but she managed to say that she had taken laudanum to drive away the voices that were abusing her. The city physician was notified of the precarious condition of the voman at 9:30, but did not arrive to give assistance until 12:10 a. m.
It was with great difficulty that she was

resuscitated, and then the patrol wagon was called and the demented woman was taken to the Presbyterian hospital at 1 o'clock Friday morning. The matron was not told of the mental condition of the patient, and while the nurse was attending to her duties early Friday morning. early Friday morning, the girl escaped. The hospital authorities are very indignant that a person with an acute mania should be placed in their institution, and without even the fact being made known to them. The authorities were at once notified of the woman's escape, but took no steps to locate her until Saturday morning at 10 o'clock, when she called at her stopping

o'clock, when she called at her stopping place. They were told that she had gone out in search of work, and late in the afternoon Saturday an officer found her at her lodgings and took her into custody. She was taken before Dr. Saville, who accompanied her to Dr. Tilden of the insantly board, who made a thorough examination of the woman, and pronounced her case to be one of suicidal mania. She was taken to the county fail, and will be detained there until the necessary forms are gone through until the necessary forms are gone through with, and then sent to the asylum at Lin-Dr. Saville was seen by a reporter for The Bee, and said: "I was called to the city jail a week ago last Monday and examined Mary Welch, who had come there of her own

free will, to have determined whether or not she was insane. I found that she imagined that voices were ringing in her ears, and I pronounced her mind unbalanced. I told her to go home and call at my office the next day. Meanwhile I called on Chief of Police White and had him telegraph the girl's sister at Lexington, Neb., asking what disposition we should make of the girl. The reply was to place her in an insane asylum. I was very busy and gave the matter no attention for few days. Thursday night I was summoned to see her at her rooms, saying that she had attempted suicide by taking poison. I re-moved her in the police patrol to the Presbyterian hospital, after administering the usual remedies in such cases. I told an attendant that she had attempted suicide and also that she had hallucinations, but not of the acute order. Friday I was notified that she had escaped from the hospital, and found that the escaped from the hospital, and found that the poor creature had gone about the city looking for employment. I did not think she would do herself any bodily harm, and Saturday I had her brought to me by an officer, after which I took her before Dr. Tilden, who said she was suffering from suicidal mania. I had her sent to the county jail for detention unti the proper papers arrive to convey her to

"It is a shame," continued the physician, "that we have no proper place to keep cases of this kind."

of this kind."

Mary Welch is an expert bookbinder by occupation and for the past four years has been employed in binderies in Kansas City, St. Louis, Cincinnati, Chicago and other cities. The reason for her leaving her positions and traveling from one place to au-other was that her mind has been unbalanced from the hallucination that persons were always following her, abusing her and threat-ening to do her bodily harm, and the anxiety and worry so preyed on her reason that the hallucination took the form of suicidal mania. WORK TO BEGIN AT ONCE.

Receivers to Enlarge Water Mains, Now that They Have the Money. Early yesterday Receiver Bierbower of the American Water Works company appeared at the office of the city treasurer and presented two warrants on the fire and water fund on account of hydrant rental. They were for \$30,000 and \$42,833.55, respectively. They were promptly paid and the greater part of the amount that has been in controversy for so long was thus

paid over. The balance, which amounts to about \$13,000, has been cut up into small warrants and they will be paid from time to time as the condition of the fund may warrant.

At the office of the water works company the receivers spent the forenoon with the agent of the company which is expected to furnish the pipe for the prospective im-provements. The agent stated that his company had a large amount of pipe on hand, and both Mr. Bierbower and Mr. Hunt

difficulty in securing the pipe as rapidly as they wanted to use it. They were getting their plans in shape with all possible haste The county treasurer reports that taxes are coming in at a very slow rate. Last year at this time numerous lists were being filed Figures which have been submitted to

among the laboring men of the city were decidedly mixed as to the facts. Engineer Rosewater states that in such work as is contemplated only 10 or at the most 15 per cent of the amount expended goes for labor. cent of the amount expended goes for labor. The big item is the material, and the money that is paid for labor is comparatively insignificant. It is estimated that instead of \$85,000 barely \$10,000 will be distributed among the employes even if the entire amount appropriated by the council is expended by the water works company.

OBJECT TO THE APPRAISEMENTS. Complaint Against Special Master Commissioners' Sales of Property.

The usual batch of attacks on appraisals was filed yesterday in the district clerk's office. Ojections were made in the case of Georgette Johnson against D. Gilmin and will ship \$100,000 gold by tomorrow's others and in the case of J. A. Horbach steamer. Crossman & Bro. have engaged against Henry Lehman. Some complain that the special master commissioners appointed do not have the statutory requirements of being freeholders, or are interested in one side or the other by reason of business connections. In the Johnson suit it is objected that the plaintiff proposes to sell two lots as one. Defendants claim better prices will be obtained by selling separately. In the Horbach-Lehman case it is claimed that the appraisement is made at too high a figure and was not disinterestedly made.
