HOLDS THE BONDS ILLEGAL

Senator Peffer Says He Will Introduce a Resolution for Repeal.

LOOKS FOR ANOTHER ISSUE SOON

Thoughts the Syndicate Which Has an Option on Them Will Force It Before the Close of the Month When Their Option Expires.

TOPEKA, Kan., Sept. 13.—"If another bond issue is made without authority of congress I shall advise their repudiation." These are the words Senator Peffer used in speaking of the probability of another bond issue to an Associated press reporter today. Senator Peffer has kept his eye on the figure which he has made of the condition of the gold reserve. Some have watched it sliding down below the \$100,000,000 mark more anxiously than he. It was he who objected very emphatically in the United States senate when the first and subsequent bond issues were made. "I considered the bond issue fraudulent and I have not changed my position since then. I still think that the government has no authority to issue bonds without the concurrence of congress. I am satisfied that there will be another bond issue before October 1, because the syndicate has been given the privilege of taking all the bonds issued before the people will give anything which may prevent a bond issue and that is the fear that it will weaken the democratic strength. They are making heroic efforts to keep the principle of the gold issue in all the states and have to a considerable extent succeeded. Look how they squelched in Kentucky, Arkansas and Iowa, and how all the other states have been tested and have been made. They are compelling silver men to go outside the democratic party if they desire a grant of protection. They are compelling silver men to go outside the democratic party if they desire a grant of protection. They are compelling silver men to go outside the democratic party if they desire a grant of protection.

At the last session of congress I was called upon to introduce a bill to have the names of the bond purchasers made public. If there were another bond issue without authority of congress I intend to introduce a resolution advising the repudiation of the bonds. They were issued without authority and fraudulent and the people should not be compelled to pay them. This may not sound well, but there is no use of allowing the people to be imposed upon any longer. When the first bond issue was proposed Secretary of the Treasury, Charles D. Smith, of congress and asked legislative authority for the issue. He went so far as to prepare a bill for the purpose of having the names of the committee of both the senate and the house, Congress refusing to act, the secretary gave notice that if he were not authorized by special authority he would resign. I called attention to these facts at the time, charged that the bonds were issued illegally and also introduced a resolution for the repudiation of the bonds. The secretary had such authority under existing laws and the country is now suffering because they knew there is no such law."

Black, of York, president of the democratic committee, entered the hall and made a speech in which he spoke of the good effect of the clubs, and said the visitors were welcome to York. He paid a high tribute to ex-President Harrison as a true American and a great statesman. The convention adjourned at 10 o'clock. The following officers were elected by acclamation: President, Major Everett P. Warren of Scranton; vice presidents, H. Shindler, York; Wilson, York; William W. Moore, Philadelphia; Isaac Sobel, York; John McLaughlin, Allegheny; George L. Williams, Philadelphia; recording secretary, E. J. Jundt; treasurer, M. D. Young, Philadelphia. It is a platform of the party on the victories of last year, and reaffirms its adherence to the national platform of 1892, and the state platform of 1894. It endorses the report of the national platform at Harrisburg, and urges the formation of clubs in counties heretofore unorganized.

MADE ANOTHER DEMAND ON SPAIN. PROTECTION REQUIRED FOR AMERICAN MISSIONARIES IN CAROLINE ISLANDS. CHICAGO, Sept. 13.—A special to the Daily News from Washington says: Secretary Olney has made a new demand upon Spain. It is expected that a prompt compliance will follow, as Spain has done twice before in the last few months.
