"A few years ago," said the speaker, "we had a very good city clerk at \$1,200 a year and an assistant at \$1000 a year, who did all the work of the city clerk's office, the work of the comptroller and of the excise board. Now we have a city clerk at \$2,500 and a corps of assistants large enough to manage the corps of assistants large enough to manage the affairs of the Liggest private enterprise in the city, and all at handsome salaries. One of the assistants in the city clerk's office was taken from an elevator, where he was getting \$10 a week, and after a few lessons in writing at a night school was given a place at \$1,200 a year. But he was a good place at \$1,200 a year. But he was a good member of the order and so it was all right. And so it goes all through the city. Men who would be glad to get \$40 a month are drawing from \$1,000 to \$1,800 a year in rosi-tions where they have little work to do for the city and much to do for the order which put them in the paces."

BELIEVE IT IS HONEST. BELIEVE IT IS HONEST. BALTIMORE, Sept. 23.—Manager Han-lon today said that he was confident his team would win the pennant. He expects to capture three games from the Phillies and to lose net more than two, if any, to New York. He does not believe the west-ern clubs are throwing games to Cleveland, but thinks Pittsburg might have used some other pitcher on Saturday besides Moran, who had pitched on the Thursday before. Manager Irvin said: "I do not think the western clubs are purposely losing games to Cleveland. All the western clubs except the Clevelands showed weak on their last eastern trip, and now that the clubs has returned home they are not any stronger. Cleveland, as the best club, must win from them. I kluck it probable that the Louis-villes will take a game from the Cleve-lands. Base ball is an aonest sport and I am sorry to hear that many persons think-that the western clubs are holping Cleveland win the menant. The game is played on its the western clubs are holping Cleveland win the pennant. The game is played on its merits at all times."

Secretary Furnas, when asked if the fair held this year at Omaha would clear ex-penses and leave a balance, said: "Yes, I think we will come out a little ahead, although our expenses in connection with mov-ing from Lincoln to this city made the out-

lay unusually heavy. We will not be able for some time to make public the amount that it has cost us to carry on the fair, as all the bills cannot be audited by the board until the latter part of this month. Lincoln left us considerably behind, and in a fact left us in the same shape nearly every year that the fair was held there. Taking into consideration the high wind that pre-valled Thursday, which kept an enormous number of visitors away, and the inad-quate street car and railroad transportation facilitier, that went back on us just when we needed them the most, I think this year's showing of the fair is exceedingly good. One thing is sure, we have had the greatest fair ever held in Nebraska and next year's attendance will undoubtedly prove a greater success in point of numbers than even this success in point of numbers than even this one has.
