In the party are Edward C. Bald of Buffato, W. F. Sims of Philadelphia, J. P. Bliss of Chicago, Tom Cooper of Detroit, Charles M. Murphy of Brooklyn, Earl Kiser of Dayton, L. C. Johnson and E. C. Johnson of Cleveland, and C. S. Wells and W. A. Terrill of San Francisco.

done better than it promised. In each race there will be from two to five more prizes given than were advertised. And they will be needed, for the number of entries in these races outnumbers the highest expectations of the Ganymedes. Trial races will have to be ridden each day in order to determine who shall ride in the races in which the number of entries is too large to make racing with the full number convenient. The trial races will come off in the morning, when an ad-mission fee of 25 cents will be charged.

The track is in fine shape, having been harrowed and rolled until it is as smooth and hard as a floor. If the weather is good and hard as a floor. If the weather is good there is no reason why some records should not be broken, for among the riders who are expected there are plenty who are made of record breaking stuff. If everything comes out as is now expected the races will be a financial success, for enough money is now in sight, allowing \$500 for gate receipts, to pay all expenses, without calling upon the guarantors.

Sentence Imposed. Richard F. Hall, the Red Oak postmaster who is charged with breaking open a letter and padding the receipts of his office for the purpose of increasing his pay, admitted his guilt of both offenses yesterday afternoon in the federal court. Judge Woolson set Friday is the day on which sentence will be imposed Hall is a man 35 years of age, and has wife and two small children. He is said to stand very high in Red Oak circles, and the arrest was a great shock to the people of the community where he lived. The letter which he opened was written by D. D. Jeffries and contained a bid for carrying the mails from the postoffice to the depots. Hall had a friend who was also a

bidder for the job, one Stevens. The latter wanted to find out what Jeffries was going to bid, and so, to accommodate him, Hall tore open the letter and showed it to him. The pay for the job is so small that Hall could not possibly have received any rake off sufficiently large to pay him for running the risk. The theory of those acquainted with the facts is that he tried to help his friend Stevens. Now Stevens goe before the grand jury and admits that he stood by and saw Hall open the letter. The testimony, however, it is said, was only secured by a promise of immunity to
