

THE OMAHA DAILY BEE.

E. ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION: Daily (Without Sunday), One Year, \$1.00...

STATEMENT OF CIRCULATION. George B. Tschick, secretary of the Pub. Co. has been appointed...

A \$100,000 sugar beet crop is something few states other than Nebraska can boast.

It is yet to be determined which is more dangerous to human life, a foot ball match, a prize fight or a Chicago primary election.

Generalissimo Peblees, with his 100 rifles and 5,000 rounds of ammunition, may now emigrate to Cuba and enlist with the revolutionists.

News of the whereabouts of the once flourishing presidential boom of ex-Congressman Joe Sibley would be a very interesting reminder of recent ancient history.

Governor Altgeld is said to be in active pursuit of a renomination. Mr. Altgeld apparently has a lingering desire to remain in public office longer than President Cleveland.

If that widely announced fistie contest should simmer down to an encounter between the great pugilists and a rock pile the public dissatisfaction would not be too noticeable.

All parties to the controversy over the Winnebago land leases have at all times professed eagerness to obey the law as interpreted by the courts.

Mr. Coe is the nominee of the Citizens' Reform League for clerk of the district court. He is not an office seeker, nor is he a partisan.

It is dreadfully hard on ex-Meat Inspector Frank to have his income chopped off on both ends. He might manage to get along without his salary or without his dog rake-off, but his mighty hard scraping trying to get along without both.

With the arrival of the time for moving the crops the regular annual death of cars has also arrived. We suppose it is expecting altogether too much to look to the railroads to anticipate these extraordinary movements of traffic and to be entirely prepared for their coming.

If, as is currently believed, the only hope of Tammany retaining control of New York City lies in the division of the opposition and constant quarrels among those who were formerly arrayed united against it, the prospects are very fair that that hope will not be realized.

If the Citizens' Reform League shall succeed in its aim to put up men for the city council who, when elected, cannot be voted like cattle by franchised corporations and public contractors, they will be elected by the largest pluralities that ever hoisted men into public office in Omaha.

France is pushing her dominion in Madagascar. There is nothing in the shape of new territory that the European powers would not take.

According to a Lincoln paper A. D. Beemer was seen walking about the corridors of the state house Monday.

South Dakota's State Board of Agriculture is being made the object of charges very similar to those brought against the members of the Nebraska State Board of Agriculture.

According to one of our contemporaries, the nomination of Mr. Frank B. Johnson as democratic candidate for clerk of the district court, when announced in the republican judicial convention, was greeted with enthusiastic cheers.

Some people must be easily pleased. The new superintendent of the State Institute for the Blind at Nebraska City has taken the decision of the supreme court declaring the appointment of trustees for that institution by the legislature unconstitutional and void to be authority for him to summarily dismiss every member of the teaching force and to institute in their places some school teachers from other parts of the state whom he has brought with him.

AN ENFRANCHISED PROCEEDING.

The new superintendent of the State Institute for the Blind at Nebraska City has taken the decision of the supreme court declaring the appointment of trustees for that institution by the legislature unconstitutional and void to be authority for him to summarily dismiss every member of the teaching force and to institute in their places some school teachers from other parts of the state whom he has brought with him.

The fact is the chances seem to be largely against any legislation by the next congress providing for more revenue, simply because it will be impossible for the house and the administration to come to an understanding or to "compose differences," as Senator Allison has suggested.

THE EASTERN WAR CLOUD.

The latest advices from Constantinople are more warlike, indicating that an outbreak of hostilities between Great Britain and Turkey is not merely possible, but imminent.

AN EX-MINISTER'S GRIEVANCE.

Perhaps Englishmen who do not like this country will derive some gratification from reading the philippic of Lord Saville, formerly Sir Saville West, who was for several years British minister to this country and was sent home because of his indiscreet meddling in politics.

MR. COE ENDORSED.

The withdrawal of Frank B. Johnson from the race for the district court clerkship and the practically unanimous endorsement of the candidacy of Charles A. Coe by the democratic county committee has harmonized all of the elements that oppose the policy of proscription and favor radical reform in the affairs of our local government.

REPUBLICAN INTENTIONS.

The reports that emanate from Washington regarding the intentions of the republican leaders in congress as to revenue legislation should be received with some grains of allowance.

THE PASSING SHOW.

The prospectives of Massachusetts are quite yellow from the effects of Hoar frost. Mr. Thomas C. Platt tips the beam at 139 1/2 pounds, yet might be few ambitious New Yorkers would class him as a light weight.

FLOURNOY FARMERS MUST GO

Expected that Agent Beck Will Proceed to Evict Them. MAY BE ALLOWED TO MAKE NEW LEASES

INDIAN OFFICE AT WASHINGTON SAYS THE SETTLERS ARE NOT ENTITLED TO SYMPATHY, AS THEY WERE WARNED IN TIME.

WASHINGTON, Oct. 9.—It is expected that the Indian office at Indian Agent Beck at the Omaha and Winnebago reservation in Nebraska will take steps at once to remove the men on the lands leased from the Flournoy company.

THIRTY CONTESTS TO DECIDE.

Next Congress Will Have Many Disputes to Settle for Its Members. WASHINGTON, Oct. 9.—Not one of the contests filed against the members of the new house of representatives is complete.

AGENT THAT DAMAGE SUIT.

Hear the colonel got damages from the Bugle for saying he was slow pay. "Certainly he did. He proved by twenty competent witnesses that he never paid at all."

RIGHT YOU ARE.

Iowa is a prohibition state, yet the open ones, who are not supposed to exist as openly on Sunday, a law which does not represent public opinion does not seem to be worth much.

SIGNIFICANT CENSUS FIGURES.

Makes his "best" completed a census which makes its population 2,025,900, or 123,000 more than in 1890. The increase is not if that larger cities, but in those having from 2,000 to 8,000 population.

WHY THE FARMERS ARE MAD.

The farmers are mad. They have a right to be. Oats are 12 cents a bushel, wheat is 40 cents and falling. Corn when ready to market will be correspondingly low.

LOCAL CAMPAIGN CHATTER.

Between Chaffee and Broatch, Johnny Macdonald feels like the man who stands between the devil and the deep sea. Chaffee has the backing of Johnny's friends in Council 125, while Broatch, who has been his patron saint for years, counts on the warm support of the Third Ward Piker club and the Down-town Divorcers association.

THE OILNEY ULTIMATUM.

Kansas City Times: The president can do no more just thing than to tell these hungry Europeans to keep their hands off South America. He will have the backing of the whole people also, which, to tell the truth, is a little weary of hearing stories of the how true or untrue, about the neglect of American interests abroad.

DETROIT TRIBUNE.

"Some of these days," muttered the cannibal, "some of these days they will be changing hands. The United States is the last power in the world which Great Britain could afford to offend, even supposing for a moment she has any desire to do so."

INDIANAPOLIS JOURNAL.

"Love the working-man," urged the walking delegate, as he ordered another "stroke." "Why, I fairly idolize him!"

CHICAGO TRIBUNE.

Customer—What kind of insect powder have you got that you recommend for cockroaches? Druggist—Well, I have a dozen kinds, but I hardly know which is best. My wife has tried them all, and she says the cockroaches at our house don't seem to have any preference.

A REQUEST.

"Just what you need a fan, Marie, a fan is what, try as I may, I cannot see. Said he. "You're always cold-to me! It's not the powder, have you got that you recommend for cockroaches?"

TRIFLES.

Somerville Journal. A kiss is but a little thing; But if you have a wife, And if she chances to see, that kiss I hardly know which is best. My wife has tried them all, and she says the cockroaches at our house don't seem to have any preference.

CONFIDENTIALLY.

E. E. Zimmerman claims to have a clutch upon the position of first deputy in the county treasurer's office in case of Heimrod's nomination. Zimmerman says all his anti-convention talk was not wasted.

CHARLEY UNFIT IS TRYING TO DO UP BEECH.

Highly for the nomination on the district ticket for city clerk. Unit wants some real good man slated for the place and if no one else can be found who is willing to go against Highy he'll make a try for the place himself.

F. B. BRYANT HAS WITHDRAWN FROM THE RACE FOR THE NOMINATION FOR CITY TREASURER.

He sized up the touching committees in the various wards and decided that he didn't want to part with the savings of a lifetime to get a nomination on a ticket doomed to defeat.

SEVERAL PARTIES READY TO SAIL FROM THE UNITED STATES TO CUBA.

WASHINGTON, Oct. 9.—The Treasury department has secured, through the secretary of state and the Spanish minister, the subscription of a telegram from the Spanish consul at Key West stating in effect that another filibustering expedition is fitting out at Pine Reef, one of the Florida keys. Leaders and a considerable number of men have left for there. The "Cinco" is said to be at Key West and the "Woodall" is about to start from New Orleans, conveying a party.

NILE OVERFLOW HIGHER THAN USUAL.

WASHINGTON, Oct. 9.—There is a great flood in the Nile valley and United States Consul General Washington reports to the State department that the situation has become sufficiently grave for the Egyptian government to apply for the provisions of the decree of 1887—under which all the inhabitants may be called upon to serve in guarding and watching the river banks. A circular to that effect has been issued to the governors of the provinces. This force will be in addition to the guards already on duty living in temporary reed huts built on the dykes at intervals of about fifty feet. At Cairo the river on September 11 registered the unusual height of fifty-three feet six inches and a further rise was expected.
