-If today news from Barbadoes be confirmed, a new chapter has been opened in the Venezuelan controversy. Two New York papers, the Herald and Sun, print letters from that island, both dated October 20, and both obviously drawn from similar sources. The account in the Herald gives many particulars not to be found in the Sun, but the substance of both stories is the same, and even the language is in parts identical. They agree that a British schooner, the Miosotis, was fired on by a Venezuelan guarda costa, the owner killed, the schooner seized, taken to Carupano, searched vainly for contraband, and released. What is wanting is some specific authority for this incident and the date has befallen that ministry. of its occurrence. The administration at Trinidad is said to be in possession of the facts and to have sent a report by mail to London. The latest steamer from Venezuela, the Caracas, left La Guayra October 22, when nothing seems to have been known of the Miosotis' seizure. On the contrary, passengers reported all quiet. It is difficult in the absence of dates to speak positively, but if the Miosotis was taken to Carupano after the killing of her owner on her deck the fact ought to have been known at La Guayra as soon as at Barbadoes. The Venezuelan authorities, on the other hand, might not have been eager to make public the news of the event, which promised to bring British thunders about their cars. They would be aware that the case is one to which even Senator Chandler might not be able to invoke the Monroe doctrine.

LATEST DIPLOMATIC PHASE. The text of Mr. Bayard's statement about Venezuela to the representative of the Daily Chronials (London) is considerably more explicit than the summary of it which came by cable, and is worth quoting. Mr. Bayard said: "The threat of Lord Salisbury reported in the papers, to demand an apology and reparation for the insult to the British fing at Yuruan, lay quite outside anything the United States ambassador had been instructed to present to the prime minister."

When the duke of York married his brother's flancee Austin sant the same journal an epithalamium. The editor this time failed to send a check, and was reminded of the fact by the poet. LONDON, Nov. 2 .- No improvement is oticeable this afternoon in the political lituation in Europe or in the far east Nearly all the English newspapers refer seriously to the political crisis, the apparent solation of Great Britain, and the policy pursued by Russia in the far east, as well as the future steps which France may take. Even the most sober-minded of the London newspapers have become alarmed, and people here are gradually becoming convinced that British diplomacy has been outmaneuverad by Russia, and that in spite of any denials the latter country has obtained important oncessions from China and is prepared to stop at nothing in order to compel the

Copyrighted, 1895, by Press Publishing Company.) BERLIN, Nov. 2 .- The reports of the joint rial of the editors of the Vorwaerts and Volksblatt on the charge of lese majeste, have proved sensational reading in some respects. It has been shown, for instance, that Baron von Mirbach, a high court official, actually visited Herr Singer to request him to cease his attacks in the Vorwaerts on the memory of Emperor William 1 and in order to induce him to stop his opposition to the Emperor William memorial church. It has likewise transpired that Herr Swechten, the architect of the church, is himself guilty of placing the scurrilous inscription on the building which has attracted so much attention. These unpleasant revelations have led even conservative papers like the Deutsche Tales Zeitung to reproach the court with want of tact.

Another feature of the case was the reasoning by which the presiding judge, who displayed throughout hostility to the prisoners, arrived at the charge of lese majeste, his interpretation being quite opposed to many decisions of the imperial supreme court. He laid down that it was doubtless in view of the inviolability of the emperor that nobody had a right to say anything against the person of his majesty. This new rendering of lese majeste has been denounced by the whole of the liberal and radical press as fallacious and illegal. The case will be appealed to the supreme court, so far as the Vorwaerts is ncerned.

CONVICTED, BUT NOT SUBDUED.

These prosecutions have had the effect of provoking still more stinging reforts, and in a scathing editorial on the trial the Vorwaerts asked the emperor to define whom he referred to in his recent address as a "gang" unworthy to bear the name of Germans, and added ironically: "It is only just to know." The Vorwaerts will be prosecuted for publishing this article and the government is issuing new orders to the police to continue to make untiring warfare upon the socialists and their press.

The order for two new Atlantic placed by the North German Lloyd Steamship company with the Vulcan yard, at Stettin,

8 000 words said nothing about Yuruan or about Lord Salisbury's alleged ultimatum. Mr. Bayard himself knew nothing about these matters, except what he had seen in the English papers. So much for Yuruan. As to the boundary line between Venezuela and British Guiana, Mr. Bayard said that "his latest mission was to bring about, if possible, in a friendly spirit and with all good intentions of the United States, a resumption of those negotiations on frontiers so abruptly stayed last year. He had brought this before Lord Salisbury, and the latter had listened to his arguments in the best spirit." That is the final nail in the coffin wherein lie embalmed the amazing reports of last week There is also to be noted a discrepancy between Mr. Bayard's account and the account published in this country of the tenor of Mr Olney's dispatch, yet Mr. Bayard has certainly seen that dispatch and knows what h is talking about. If he be correctly reported, a disappointment is in store for the jingoes when the Olney note is published.

ANOTHER SENSATION SPOILED. Last week's report of a treaty between Russia and China, by which Russia acquired Port Arthur and railway connections with it, is denied officially and semi-officially by both English and Russian foreign offices. The denial is accepted in a rather more confiding spirit than such denials usually are. It is probably true that no such treaty yet exists as a treaty. It is probably true, nevertheless, that there is a bargain between Russia and China, the full terms of which remain unknown. It is certain that Russia has not been financing China for nothing, It is certain that the situation in the East is one in which a collision may occur at any moment. Japan is uneasy, if England is not... The story of a coming alliance between Russia and Japan was set affoat as a counter- ator Berthelot as minister of foreign affairs polse of the Russo-Chinese treaty story, M. Hanotaux refused to retain the portfolio. when the latter was denied the former was despite repeated offers, because he was undropped. Japan knows very well that while her interests and those of Russia are antagonistic, her interests and those of England run on parallel lines. So, it may be said, do those of the United States. Our jingoes by M. Hanotaux's decision. Several generals will not listen, or some of them will not, to threaten to resign on account of the appointthe idea of an alliance between England and ment of Cavaignac, who is disliked by milithe United States for any purpose. They would sacrifice the interests of their own country to their jealous hatred of Great Britain. Our jingoes, however, who had a had time of it with Senator Lodge last week, have had a worse this week with Senator Chandler of New Hampshire. Senator Lodge declaring war against England from Paris provoked ridicule. Senator Chandler declaring war in his evening paper at Concord excites nothing but derision. Not a jingo paper has defended him. More than one has rebuked him, and the rest of the country

has laughed. GLADSTONE CAUSES REGRET. There remains, nevertheless, plenty of serious questions. They are so serious in England that Mr. Gladstone has written a letter to Mme. Novikoff, a lady who answers to whatever most resembles a stormy perrel in Russia. That, at any rate, is the character in which she commonly turns up in England, and her influence over Mr. Gladstone has led him to do and say curlous things before, and what he says now is a mortification to his friends. He talks of the surrender of Russia, France and England to Turkey. Their surronder consists in having forced the sultan to concede rather less reform in Armenia than they first demanded, and much less than Mr. Gladstone himself demanded in his very violent Chester speech | mission to coin half dollars of .835 fineness. of last August. What distresses his friends still more is Mr. Gladstone's renewed expression of his desire for the humiliation of England, and his prayer that her full portion of shame may fall upon her. Almost at the same time Lord Salisbury makes a the law of 1892 prohibits the importing or a peer. The reports occupy many two have any political reputation. M. Cavaigcolumns daily in the newspapers, and no nac is known as the son of his father, the general who put down the June riots of 1848 and was afterward beaten for president by Louis Napoleon, M. Lockroy attained celebrity as the son-in-law of Victor Hugo, as a writer, a wit, a man of the world and a naval critic. It is probably this last fact which now makes

him minister of marine. M. Berthelot, the new foreign minister, is an eminent chemist, who at the age of 70 has to serve an ap prenticeship to diplomacy, and that at a noment when the international relations of France are in a delicate if not critical con-M. Bourgeois begins his task ill. He bids

for the jingo support by proposing to repudi ate the treaty with the Hovas, and substitute annexation for a protectorate over Madagas car. If that is to be the note of his foreign policy he will soon have trouble enough. He bids for socialist support by offering to arbitrate in the Carmaux strike, and by de-

claring for an income tax. France may be Chauvinist, but socialist she is not, and the chances are that M. Bourgeois will soon be supplied with a convincing proof that she is not, and that she does not care to be governed by a radical who surrenders to the socialists. GEORGE W. SMALLEY.

BOURGEOIS READY FOR BUSINESS

Has His Cabinet Formed and Will Face Parliament Soon.

(Copyrighted, 1895, by Press Publis PARIS, Nov. 2 .- (New York World Cablegram-Special Telegram.)-The Bourgeois cabinet is now definitely constituted. The

great surprise was the appointment of Senwilling to accept a modification of the Madagascar treaty, which he originally framed. The personal antipathy to Deputy Cavaignac, the new minister of war, is strengthenes tary men because of his recent outspoken criticism of the army and of the projects of military reform.

The first act of the new ministry will b to secure the repeal of the anti-anarchist law passed during the panic that followed the assassination of President Carnot. This measure has produced uniformly unsatisfactory results. Its chief effect was to providthe socialists with a pretext for the campaign which brought about the downfall of Presi-

dent Casimir-Perler. The appointment of M. Ricard to be minister of justice is extremely popular. Mr.

Ricard originated the inquiry into the Panama scandals, and it is hoped he will adopt a similar policy in regard to the southern the Ribot cabinet. Premier Bourgeols' position is embarrass-

ng, but the formation of a homeogeneous radical cabinet is hailed with satisfaction by all parties as a clearing of the political atmosphere.

Not only is the examining magistrate practically a prosecuting officer, but so is the judge who is trying the accused. The judge

in the present case has several times stigmatized the accused as an assassin, and when the marquis declared he had not given information to the police of the death of the boy because he did not wish thus to make

public his wife's dishonor, the judge replied that the mother seemed to have been more careless of her own honor. INNOCENCE NOT PROTECTED.

shed more blood in defense of personal liberty than any other nation, it is certainly remarkable that the legal process and tyranny which led to the demolition of the Bastile and to the revolution still survive unimpaired. Virtual lettres de cachet are now issued by republican magistrates instead of by monarchs or monarchs' favorites.

The other case is the fact of intense excite ment throughout England over the effort of pretty school teacher, daughter of parents in the middle class, to live openly with a young laborer without the previous ceremony of
