PLATTSMOUTH, Neb., Nov. 2 .- (Special.) Cass county and the Second judicial district from Omaha to Kansas City. Here it seems are experiencing one of the most remarkable to have dawned on Vining that it would be political campaigns on record. Up to the the best thing for him to return to Wathe best thing for him to return to Waverly with the girls. He accordingly informed some Lincoln parties that he would
do so. It is said that Dr. McCandless will
leal victory this fall were acknowledged to go on to Arizona, as he intended. Both be extraordinarily slim. But a most astonmen seemed well provided with money when ishing change has come over things politthey left Lincoln. Dr. McCandless, it is ical, and the wild assertion of democrats said, exhibited \$1,000, and, it is asserted, had now include the whole county ticket and the as much more on his person. Neither of the district judgeship. The change has been occanow include the whole county ticket and the sioned by the unprecedented bolting of former foremost republicans and defeated candidates. It is sweepingly asserted that not one of the defeated candidates before the republican convention is standing squarely up for ticket, and that all the rest are fighting their successful competitors. That state of affairs has caused the democrats to crawl out

of their holes and howl with delight. The fiercest fight, however, is being made upon the judicial candidate of the repubicans, Judge Samuel M. Chapman. emocrats bought off a few of the leading opulists, and worked a scheme to get the endorsement of that party for their candi-date, Basil S. Ramsey. They got the enlorsement, but the rank and file and other conorable populists have repudiated the action of a doubtfully appointed committee. The fight waxes fast and furious in Otoe county, search for \$1,600 worth of diamonds, and the skirmishing line in Cass county rapidly concentrating upon this city. Sheriff Eikenbary, who was defeated in the convention, only getting six votes out of the 196, has bolted the ticket, and has come out believes he lost them out of his cost, al-though they may have been stolen. | strong against Chapman. Eikenbary's nephew, a banker at Union, and a first-class treasurer, and the friends of Judge Chapman Strathbury, with a record of are threatening retaliation on that member of the bikenbary family. The republican county attorney, the owner of the News, and

spending time and money making fight against the whole ticket, with the single exception of the county judgeship, while the paper gives a perfunctory support to the republican nominees. The Tribune is the only paper making a square heel and toe for Judge Chapman and the balance of the today that overtures had been made to Editor man, but that he refused to entertain the Church Howe, the Nemaba statesman,

Ed Wooley, a former attorney of Weeping Water, were requisitioned by Chapman's enemies to try their hands upon the susceptible voters of Cass and Otoe counties in an effort to turn them from the republican ticket The fight is a regular cross fire.

Judge Scott, Ben Baker and Judge Fawcett's records were exposed

FULLERTON, Neb., Nov. 2.—(Special.)—A fire broke out last night in Rolph's restaurant and grocery store, and did great damage to and grocery store, and did great damage to the building and stock. The fire department extinguished the fire before it extended to other buildings. The loss will amount to \$10 per day. The rockers would of themselves cost but little, but to make any impression on this body an army of \$1,500 or \$2,000.

Rumors of Rich Deposits Around Milford Said to Be Verified.

LATEST REPORT OF A STATE EXPERT Prof. Bartlett Declares the Groun

in that Locality Conceals Fabu-

lous Wealth, Which Can Be Se-

cured on Small Investment.

LINCOLN, Nov. 2 .- (Special.) -There is nother installment of gold mining excitement in the capital city. For the past ten days Prof. Herbert Bartlett of the ochre plant at Indianola, Red Willow county, has been investigating the fields in the vicinity of Milford. Heretofore fragments of Prof. Bartlett's conversation have been exceedingly conservative, indicating that he was inclined to proceed cautiously and not commit himself too far. Today he made the following re-

"Gentlemen: Some time since I came here n accordance with an agreement made with Mr. Taylor to assume temporary control of your gravel deposits and inspect and test the same. This I have now completed, and

am therefore rendering this report: "Upon my arrival here I found that the information received of these vast treasure vaults had been erroneous. Instead of a ledge deposit, as one expert had put it, I found a gravel gold-bearing claim miles in extent, and much of it fabulously rich, and, taking it altogether, it is equal in extent, vaster in depth and richer in value than any similar deposit in the world. Indeed, there have been but two similar ones known—one the great middle field of Australia, from which the owner cleared \$2,000,000 and over; the one in Honduras, which I equipped for he late Thomas Parrott, was the other, and n regard to deposit was similar to this This Honduras mine added millions to the already princely fortune of its owner Neither of these mines named was in point of value anything like this one. The Australian gave from \$3.25 to \$2.90 per ton. Th Honduras was worth about 10 cents per cubic yard, equal to a ton. This latter was washed very cheaply by using from three to six glants. The dump was the ocean shore, and the outgoing the left the dump entirely

"The vast number of tests made from been made by me, but are the results o many hands, some of them truly eminent ones. There have been results running as press high as \$200 and as low as \$3. My own the segintary of the segintary from the surface.

FABULOUSLY RICH. "These tests have been carefully made and conservatively judged, and viewing this deposit from a lifetime of experience, I pronounce it of fabulous value. Shafts and test holes have been sunk and value established, and nothing now remains to do but

There has been some talk of mills, rockers, etc., but if either of these was adopted the day of judgment would be here before the last of this body would be treated. In the light of experience, both of my own and others, equally varied, water is the only means of reclaiming this enormous value. "In considering the two systems, the cost of installing the plants would be fully \$10,000 for the mill, its capacity fifteen tons per day,

acre to an acre per day.
"How shall we get this water? The Blue river is near, but the water is so low n the channel that to get it is an impossibility, and if a pump were resorted to the mill interests along the river would demand all the water, and so this puts it out

WILL USE ARTESIAN WATER. 'So we come back to the only recours left—artesian wells. With two wells located just across the water shed apex sloping toward the Blue. Two eight-inch wells would reach this entire gold producing deposit, and after this was out would be a first-class commercial investment, as this will solve the problem for the Nebraska farmers. Artesian wells are no longer an experiment. mesozoic rock, no matter where it is found, always gives water in abundance. A water tion of the Union Pacific railroad this rock at 700 to 800 feet below the surface. The boring to this depth will be of but little excense as compared with any other means f providing the same, and will be as nothing

work gravel mines.
"It is a fair test to measure ourselves by others, and from this standpoint we are fairly sure of success. At Beaver Crossing are fifty wells, all flowing and doing good work. This is less than fifteen miles from Milford. At Niobrara City is one eight-inch well that is 650 feet deep, has a natural flow under ninety-five pounds, is eighty feet high and is used to run a roller mill by day and an electric light by night. New York, Ohio, Illinois, Canada and the Dakotas are all in line in artesian wells, and the pros-perity of this semi-arid section, as well as he gold output of this locality, depends upon these wells. Finally, permit me to con-gratulate the owners of this property upon their rare good fortune in securing this

compared to what water usually costs to

Prof. Bartlett has been connected for ome time with the federal geological survey in Colorado and has had considerable expe rience in gold mining in South Africa, Hon-duras and other noted fields. At the request of A. O. Taylor he came to Lincoln. Taylor recently purchased an option on 160 acres of and in the alleged gold district, for which he agreed to pay \$12,000. He is said to have closed the deal today, on the strength of Prof. Bartlett's report, and paid up for the land at the rate of \$75 an acre.

AMONG CASS COUNTY FARMERS. Busy Harvesting a Fine Corn Crop PLATTSMOUTH, Neb., Nov. 2.-(Special.)

-The farmers of Cass county are engaged in

shucking corn, which is reported as being very fine. The small grain yielded from 10 to 25 ent better than the owners expected. J. C. Summins, ex-county treasurer of this county who is located on a farm near this city, this year had in about forty acres of small grain, from which he expected to get about fifteen bushels of wheat and twenty bushels of oats, but when he threshed last week

his wheat made twenty-one and a half

fraction over thirty-two. The farmers throughout this country have hit upon a plan in the last few years that has proven a great benefit in many ways.
As a representative agriculturist said today
in answer to the question: "Why do so
many farmers do their fall ploughing as
soon as the crop is off, sow it to fall wheat and then plow it up and put in corn in the spring?"

"Well, you see there are a good many reasone for this. In the first place, seed wheat is cheap, and if thus used answers as more or less of a fertilizer, and when we do our fall plowing these dry falls and have no snow during the winter this wheat holds the soil from being carried off by the winter winds, but should we have plenty of snow, which fall wheat requires to keep it from what we call 'winter kill,' then we are sure of a good stand of wheat, which we can let other hand, should our fall wheat 'winter kill,' and we need some wheat, we go ahead and put in spring wheat. To illustrate the different circumstances: There was one year that I had in nearly seventy-five acres in

but I had an overstock of small grain in my bins and was compelled to plow it up. The very next fall, of course, I was short small grain and sowed something like fifty acres. But we were cut short on snow and I had not over one-fourth of a stand of wheat, and I was compelled to put in spring wheat. In both cases the seed wheat was heap, and I lost it, but my ground was

The apple business here has taken a peculiar turn in the last two weeks. Two or three weeks ago apples could be had on any terms and in any quantities at almost any price. But now it is almost an impossibility o get them at any price. They are selling at the rate of about \$1.25 per bushel, but there seems to be none to be gotten, as they were all shipped out. There was over 100 shipped from this county east and about ixty cars shipped west.

The death of Mrs. Eliza Allis occurred in this city this morning, after an illness of eight days. The funeral will take place from the Methodist Episcopal church in this city tomorrow afternoon at 2 o'clock. The Adams and Pacific Express companies.

who have heretofore maintained an agent in this city jointly, yesterday separated, the Adams office going to the B. & M. local agent and the Pacific going to the like official on the Missouri Pacific.

Replevia proceedings were commenced in the county court here today by Rector, Wil-helmy & Co. of Omaha against Claus Breckenfeld et al to obtain possession of certain goods sold to Breckinfeld by plaintiff. riff Eikenbary served the writ of repleving and is laboring now to identify the goods, as store who was sent to this city to identify the goods.

There are to be two games of foot ball played in this city next week, one between two local teams on Monday, and one on Saturday between Plattsmouth High school and Glenwood. The High school at a meeting Friday, elected a captain, manager and and the team is being conditioned as fast as possible.

Bellevue News Matter.

BELLEVUE, Neb., Nov. 2 .- (Special.) Of the four speakers, Messra, Fawcett, Sinbaugh, Dickinson and Scott, billed to speak here this week, Judge Scott was the only one to appear. He spent the evening trying to convince his audience that he was a model judge, most cruelly slandered by his and that the welfare of the district depended upon his re-election.

A Hallowe'en party was given by Dr. Mrs. Kerr to the students of Bellevue college Friday evening an entertainment, consisting of songs, recitations, essays, etc., was given by the pupils of the public school. At the loss of the program a collection was take

for beginning a school library. The attendance was very good. M. R. Wilcox, Omaha, spent Friday here. Sheriff Startzer and County Attorney Leffe. were in town on business this week.

Smaller Farms and Larger Crops. NORTH LOUP, Neb., Nov. 2 .- (Special.) J. L. Pope of South Edmeston, N. Y., who has extensive landed interests in this locality, has just taken initiatory steps in a movement which will doubtless become quite gen-eral throughout the district watered by the North Loup Irrigation and Improvement com-pany's ditch in the near future. In view of the immense yields and generally satisfactory and certain returns which may be depended

as fine a stand of fall wheat as I ever saw, with the judicious use of water, be has just divided one of his farms into ten-acre tracts, which will be sold only in single tracts, as furnishing all the land needed for one man for profitable farming. His course in this matter will no doubt soon be followed by others, and is destined to result, not only n a greatly increased population, but also in an improvement in farming methods.

IN CONTROL OF THE WOMEN.

Morning Hours of the Baptist Convention at York in Their Charge. YORK, Neb., Nov. 2 .- (Special.)-In the state Baptist convention, now in session at this place, the ladies had charge this morning, the time being devoted to the Women's Baptist Foreign Missionary society. At 9:30 a. m., devotional meeting was held, led by Mrs. F. C. Bingham. The report of the state secretary was read by Mrs. F. M. Wil-liams, which was followed by a report ... "Junior Work," made by Mrs. F. E. Hudson. Following these were the reports of the associational secretaries. Mrs. E. M. S. Grimwood read an historical sketch, and Mrs. A. H. Law delivered an address on Shall We Win Loving Service, and secrated Money From Our Sisters." dress was made by E. H. Griffith. The forencen session ended with a closing discussion, and consecration service. The afternoon exercises opened with de-votional and praise service. After this was

votional and praise service. After this was an address, "A Junior Society, Why?" by Rev. W. L. Blanchard. Following this came the president's address, and appointment of committees. Rev. A. W. Clark made an address on "Culture of Service," and Rev. George Southerland followed with "Trained Leaders Wanted." At 4:45 p. m. the meet-ing adjourned for the evening service. Tonight the election of officers resulted: President, C. E. Morgan, Omaha; vice presi-

dent, Lena Spears, Hastings; treasurer, Wil-liam Cochrane, Beatrice; corresponding secre-tary, Tell White, Tekamah. Rev. Rairden made an address on "Ownership or Steward-ship, Which?" Rev. J. E. R. Folsom spoke on "The Bible and Soul Winning."

La Platte Brevities. LA PLATTE, Neb., Nov. 2 .- (Special.) --Observers Friday evening noticed a peculiar atmospheric phenomenon here. For several hours in the early evening the upper strata of air were filled with light clouds of a snowy nature. The refracted light from the oon, falling upon the lurid atmosphere, reflected a perfect moon just above the moon itself. The display continued for sev-E. W. Blines and family are in attendance at the quarterly meeting of the Omaha and La Platte circuit of the Free Methodist church, which is being held in Omaha.

Jasper Blines is home from a visit of six veeks in Antelope and Pierce counties. Next Saturday and Sunday the Free Methodist people will hold a special meeting at this Conference of N. P.'s Interests.

ST. PAUL, Nov. 2.-Roswell G. Rolston, president of the Farmers Loan and Trust empany of New York, which controls or handles the junior securities of the Northern Pacific, together with Herbert A. Turner of New York and Receiver F. Bigelow of Mil-waukee, arrived in this city today and spent most of the time in the legal department of the Northern Pacific. It is stated they are here in the interest of bringing about the appointment of one set of receivers for the whole line of road, but Mr. Roiston said noth ing of interest could be given out,

Distributing Fish in Nebruska. SIDNEY, Neb., Nov. 2.—(Special Telegram.)—The Nebraska fish car, in charge of Fish Commissioner Oberfelder and Assistant Superintendent O'Brien, arrived here this evening. They distributed 1,000 fish be-tween North Platte and Sidney.

Hastings Woman Severely Hurt. HASTINGS, Nov. 2 .- (Special Telegram.)-While Mrs. E. B. Robinson was out riding this afternoon the horse ran away and upset the carriage. Mrs. Robinson struck the ground with succh force as to break he and otherwise injure herself quite badly.

One Minute Cough Cure is harmless, pro-
