Broadway. After a Virago. Mrs. Wilson called at the office of Justice

Cook yesterday afternoon and asked that some sort of pressure be brought to bear upon Mrs. Minnie Peters, landlady of the Mergen hotel on lower Main street, to compel her to give up a trunk which Mrs. Wil-son claims. Mrs. Wilson has been stopping at the hotel for some little time, and says she has sewed for Mrs. Peters until she has paid her entire board bill and \$5 over. Peters, on the other hand, says that Mrs. Wilson owes her \$8 for board, and told her she could not have the trunk or its con-tents until she liquidated. Mrs. Wilson had heard that Mrs. Peters was something of a scrapper, and had fired her own husband out of the hotel the day before, using her revolver as a persuader. Hence she was not at all slow about taking Mrs. Peters' suggestio

that she had better get out, and she got. The difficulty was finally straightened up so that she got her trunk, and no criminal proceedings were instituted.

Following the reading of the letter there was a general handshaking and congratulations. Some time ago a committee, repre-senting the trustees, proposed a visit to Mr. Rockefeller for the purpose of conferring with him regarding the needs of the university. Mr. Rockefeller replied that a trin to the east would be unnecessary, and ounced that he would send Mr. Gates to Chicago to represent him. To the latter gentleman the trustees said they needed about \$4,500,000 to place the university in a position to do the work that had originally been outlined for it. Mr. Gates left the city to confer with Mr. Rockefeller and the announcement made today was the first word that had been received in Chicago

Everybody knows some-thing of the nastiness and misery of the disease and of its deeply injurious effects upon the system. In my case the com-plet stoppage of the nose caused a steady drip of vile matter into the throat, thus occasioning that incessant nervous hawk-ing and spitting that makes the burden of symptoms told by victims and which almost wore the life out of me. "Then somehow or other the poisons seemed to work their way into the stomach and tubes in the liver, bringing on billious spells. Council Bluffs, 12: Woodbine, 6. The members of the Council Bluffs High

school foot ball team, accompanied by quite a number of their friends, started yesterday morning for Missouri Valley, where they met the Woodbine team on the gridiron. The game was a hotly contested one, and some excellent playing was done. Two touchdowns were made, the first by Pardey and the second Flammant, who also distinguished himself his end runs. He was too small to attract much attention at the outset, but later on he turned out to be too small to catch. He wound himself in and cut among the opposing eleven in a wonderful way. The game was played in twenty-five minute halves. Council Bluffs won the toss and took the east goal. Woodbine kicked off, Mather made a return punt, and the Woodbines lost the ball on towns. Pardey made an end run, carried the ball through center over the line and kicked goal in nine minutes from the time of com

mencement. The ball then went to center for kick off. Flammant next came on deck with his end runs, and after a series of gains carried the ball over the line, sixteen minutes from commencement.

No particularly brilliant playing was done in the second half, the time being taken up with hard but not very effective work. The Council Bluffs boys had the ball within ten feet of their opponents' goal, however, when time was called. The Woodbine fellows had all the advantage of weight, their average being 16\$ pounds, while the Bluffs boys were but 135. The latter, however, played with much more science, and it was to that fact The latter, however, played with

its equivalent between this time and the beginning of the year 1900. The additional money is to be exclusive of any that may be pledged at this time. The trustees say that they have not the least fear of being unable to raise the full amount, and assert that the entire \$3,000,000 is already as good that the entire \$3,000,000 is already as good as theirs. But should they be unable to raise the \$2,000,000. Mr. Rockfeller's offer would be operative for the reason that he offers to offset gifts as fast as they are made up to the \$3,000,000 limit. It is made up to the strong of limit. It is the purpose of the authorities to acquire more land for campus, and also to erect all buildings originally planned. Mr. Rockefeller's generosity to the univer-

sity in past years is well known. Not only was he its principal founder, but his in was he its principal tounder, out his in-terest in its welfare has been constantly on the increase. He has already given the institution \$4,600,000, and the additional en-dowment announced today will swell the total amount to \$7,600,000.

to make themselves important in national matters. They count upon the support of their government, but it is pretty well understood by the government men that the government of Japan does not care about making these islands a Japanese colony. There continues to be many wild rumors of filibustering expeditions from the Pacific coast. The government takes no stock in them, because it cannot see how it can be made profitable for any one to invest any money in such undertakings. The natives continue to hear these rumors of outside interference and bilieve them, as do some of the ignorant whites. In spite of the harmonious relations existing between the government and Minister Willis, and the undisputed fact that the Washington govern-

ment will not tolerate any filisbustering here out of the ports of the Pacific coast, the natives still continue to believe and will believe that any hostile movement from the coast will be at the instance of the federal government.
