HURRYING TO GET THROUGH. Commissioners to Complete the Moores Hearing at an Early Date.

The prosecution in the Moores investigation yesterday endeavored to introduce a large number of cases in which Moores is charged either with overcharging fees or altering the records, but which were not named in the specifications of the charges An objection was made by the attorneys for An objection was made by the attorneys for Moores to the introduction of the cases in evidence, the grounds being that they were not in a position to answer charges that were not in the specification, and that it would be manifest injustice and against court precedence and rules to compel them to do so. The same opinion was held by the board.

Friday afternoon an alleged overcharge of \$15 in a county case was explained. It was charged that Moores had collected from the county \$81, which was \$15 more than he was entitled to. The attorney in the case was called to the stand and testified that the was called to the stand and testified that the entire \$81 had been allowed by the county commissioners, that the money had been paid to Moores by the county, and that he had turn'd it over to the attorney. Moores testified that he did not know what the bill contained, and Ruan attempted to tell the hard.

contained, and Ruan attempted to tell the board. His explanation, however, was knocked flat by the explanation of the attorney, who gave the items in the bill which was presented to the county.

It is the intention of the board to bring the case to as speedy a determination as possible. Members intend to have it finished before November 15, on which date Commissioner Sutton's term expires. If the case extends beyond that date it will necessitate a retrial before the new board.

Taking the Examination.

The civil service examination of applicants for positions in the fire department was made in the council chumber yesterday. There were about twenty-five applicants on hand, most of them being men of fairly prepossessing appearance. The examination was conducted by Secretary Brownlee of the Board of Fire and Police Commissioners and Chief Redell of the fire department, while a couple of teachers from department, while a couple of teachers from department, while a couple of teachers from the Dodge school assisted in inspecting the papers. The examination was generally similar to the one to which the police applicants were recently subjected, and called for some general knowledge of arithmetic, spelling and geography. The candidates were interrogated as to their knowledge of the leasting and geography. the location and character of some of the large buildings of the city and were re-quired to write out a couple of the rules of the fire department as a sample of perman-

New Church Publication.

One of the features of a progressive church is a newspaper for the dissemination of local news and to advertise the church which it represents. One of the latest candidates for public favor is "The Outlook" of the Central united Presbyterian church. It is a very neat little sheet, the first number containing an excellent half-tone of the new pastor, Dr. Glichrist, and also one of the church building. The editor says in the greeting: "We hope to make this such a bright little paper that you will look fer its coming with interest and be interested in the church when it comes." And if subsequent numbers equal the first his ambition will be realized.

FOUND A NOTE IN A BOTTLE Word from the Only Survivor of Capsized Schooner.

PORT TOWNSEND, Wash., Nov. 2 .- In ased in a bottle on the shore of Prince of Wales island, Alaska, was found a note cast into the sea by the ill-fated crew of the British sealing schooner Walter Earl, which capsized last spring in Alaskan waters and smothered ten persons. It would appear from the note that was brought here by Cap-tain Patterson of the steamship Alki that two of the crew must have mounted the keel after the accident. The note read as follows:

"We have lost our vessel and do not pect to hang on much longer. Heary Buller, Charles Forest, schooner Walter Earle. Captain Patterson said the bottle was found by Indians and given him. The Earl car

JOHNSON HAS DISAPPEARED

Stockholder in Citizens' Bank Goes Away Leaving Debts.

HIMSELF AND FRIENDS HEAVY BORROWERS

Attachments of No Avail Because His Property Had Been Transferred - Explanations of His Friends.

Frank C. Johnson, the heaviest stocksolder in the defunct Citizens' bank, is said o bave absconded from the city and his whereabouts at the present time are unknown. Besides being the heaviest stockholder of the bank, he is also said to have been one of the heaviest borrowers, and it is on this account that the other officers of the property in this city, leaving nothing behind with which to satisfy his debts.

Friday afternoon two suits were against Johnson in the district court by the officers of the bank, aggregating \$2,095. One suit is on a check for \$750, drawn on the Randolph bank of Randolph, Ia., in which Johnson was formerly interested. The check is dated September 4, 1894, and has not yet been paid. The other suit is on a note for \$1,000 which Johnson guaranteed and on a check for \$500, also on the Randolph bank and which are unpaid.

On the suits attachments were issued Friday night against all of Johnson's property in this city, which consists of his residence at 216 North Twenty-second street. Not much satisfaction, however, is expected to accrue from these attachments, as last Saturday night another attachment against it on a suit of \$5,000 on a note brought by the bank against Johnson was issued. At that time it was found that there was a \$6,000 mortgage on the property, which constitutes a prior

Johnson is said to have borrowed in the reighborhood of \$16,000 from the bank and his friends have obtained some \$20,000 more. After the failure of the bank no proceedings were begun against Johnson until it was discovered that he was transferring his property. He had always posed as a wealthy man and the officers thought they could recover on the debts. When it was discovered, however, that he was transferring his property interests, the atatchments were at once issued. The officers were eapecially hurried in their action when it was found that Johnson had left the city, al-though it was said by his friends that he had gone away for his health and would re-

Johnson is very well known in this city. He was formerly a banker at Randolph Since coming to this city he has been prominent in church and banking circles. He was a director and stockholder of the Midland bank, but withdrew from that institution some time ago. Not long after he figured as the defendant in a \$50,000 damage suit, brought by Rev. Larrabee Campbell, a min-inter at Randolph, Ia. The preacher alleged that Johnson had stolen the affections of Mrs. Campbell and had broken up his home. The case was tried to a jury and a verdict rendered in favor of the defendant.

HORSELESS CARRIAGE CONTEST.

Four Vehicles Engage in a Race for

a Consolation Prize. CHICAGO, Nov. 2.—The motocycle or

horseless carriage contest, which has been

contemplated for several weeks and which

was promoted by Mr. H. H. Kohlsaat, pro-

prietor of the Chicago Times-Herald and

Evening Post, was started this morning, but

will not be finished until a late hour this evening, owing to the extreme length of the

course. The route provided is an ideal one,

extending from this city to Waukegan, Ill., and return, a total distance of ninety-eight

miles. Today's race is not the big event for

\$5,000 prize, as was originally contemplated,

but is simply a supplementary or consolation race for a prize of \$500. Owing to the fact that so many requests for a postponement of

the big race came to the judges yesterday from the manufacturers and inventors, who

did not have their machines quite ready for

competition, they concluded the interests of science and of the motocycle would be best subserved by a postponement of the

big event to Thanksgiving day, November 28.
Thousands of people gathered this morning at the starting place on Garfield boulevard and Halstead street, and along the route to

witness the unusual sight, and a dozen

mounted policemen were necessary to keep the coast clear.

at the time set for starting, viz.: The H. Mueller Manufacturing company of Decatur,
