## EMPIRE STATE REPUBLICAN

Tammany Gets Back Into Control of Affairs in the City.

Voting Was Unattended by Any Exciting Scenes-Republican Majority in the State Placed at 40,000.

NEW YORK, Nov. 5 .- New York state has been carried by the republicans by pluralities ranging from 48,000 to 52,000, compared with a plurality of 24,484 for the head of the ticket two years ago. Returns from more than one-half of the election districts outside of the cities of New York and Brooklyn or "above the Harlem," show a net republican gain of 12,-803, compared with the vote of two years Maintaining the same average, the gains will reach 23,000 outside of Greater New York. In the two cities below the Har-

the total state vote. This year Palmer (republican), for secretary of state, has carried the state above the Harlem, based upon returns from 1,795 election districts out of a total of 3.383, or more than one-half of the ontside election districts, by probably 100,000 plurality. King (democrat) has carried New York and Kings county by a plurality of nearly 50,000, giving the head of the repub-lican ticket a safe plurality of 50,000 in the

The two branches of the legislature remain as before, under the direction of the republicans. The election throughout the stats was orderly and rapidly conducted, and the results were quickly compiled. All the talk about the difficulty of handling the blanket ballot went for naught. So far as the success or failure of the blanket ballot was concerned the advices from all over the state show that there was little or no trouble and that the ballot was so much of a suc-cess that the vote was polled quicker than

Returns received by the Associated press Returns received by the Associated press from all but 497 of the 3.383 election districts north of the Harlem river in New York state give Palmer, republican, for secretary of state, 344,709; King, democrat, 224,715; a re-publican plurality of 119,994 outside of New York and Kings county, showing a repub-lican gain of 26,333 compared with 1893. the state at large will be in excess of 70,000. The figures from New York City in the early evening showed there was little or no chance for the democratic state ticket, for the meagre majorities given in the various districts indicated so small a plurality that it would not offset the normal plurality which the republicans bring down to Harlem bridge. The total vote of the state shows a falling off compared with the vote of 1893, the decrease being confined, however, to the districts north of Harlem river. The city vote is fully equal to that of two years

The New York Mail and Express says: "The republican state ticket will have from 30,000 to 35,000 majority, the returns indi-cating the higher figures. Eric county will give 5,000 republican majority. The secretary of state (democrat) concedes 40,000 plurality for the republicans."

John C. Sheehan concedes New York state At 6:36 o'clock tonight Commissioner Roose the democratic county ticket is successful. It is too had that the goo-gooers ran a ticket for themselves, thus compelling the fusion ticket to go it alone."

The election of Amos J. Cummings, demo crat, to congress from the Tenth district i ceded by the republicans. Last year that trict went republican by a small margin Cummings' plurality is estimated at 4,000. There has been a hard fight in the Fif-teenth senatorial district over the candidacy of Frank D. Pavey, who as a republican in the last assembly acted independently of party mandates. Pavey was supported by republicans and independents, and returns from forty-nine of the 111 districts give him 4,696 against 2,875 for Birn, Tammany. A World bulletin says both branches of

the New York legislature will be heavily republican. •
At midnight returns from 2,220 election districts out of 3,383 above Harlem, or twothirds of the state outside of New York and Kings counties, give Palmer, republican, for secretary of state, 285,892; King, democrat, 182,786, showing a republican plurality of 103,106, a republican gain of 19,332 compared

"The reactionary result in this city was pro voked by the pigheaded folly of the prest-dent of the police board. But for the exas-perating effect of Mr. Roosevelt's uncalled perating effect of Mr. Roosevelt's uncalled for, unjust, harsh and oppressive execution of the Sunday excise law a union of all the anti-Tammany forces would have been as easy and as triumphant as it was last year. The present reaction has come. Tammany triumphs in the first election after its tre-mendous overthrow. The result is discourag-ing. It impeaches the capacity of the people for self-government. It shows that the for self-government. It shows that the voters are more susceptible to wrongs than intelligent as to remedy. Every consideration of decent politics, good government and the liberalizing of sumptuary laws required the success of the reform ticket. One man's obstinate folly and the unreasoning anger the people have defeated it. The large Tan many majority will stand a monument to thi sort of virtue that exploits itself in regulat-ing the morals of other people. The wider political consequences are grave. It means the strongest possible nomination by the democrats for president and the hardest struggle in years as the basis of a hopeful campaign next year."

The scarly complete city returns, with only twenty districts out of 1,392 missing, give for court of appeals. Martin, republican, 26,553; Teller, democrat, 136,865; scattering, 10,807.

BROOKLYN, N. Y., Nov. 5 .- The election in Kings county passed off very quietly. There were but a few arrests, and no election in years has been characterized by fewer clashes between the contending parties. As far as has been ascertained at this hour, the new hallot law has worked well, the votes were quickly polled and there appears to be general satisfaction with the new system of voting. Many voters made mistakes in placing the crosses where they went outa de of their party column, but on the whole the vote as cast represents fairly well the intent of the voter.

Chairman William Reynolds of the re-publican campaign committee claims Wurter's election as mayor by over 10,000.

John L. Shea, chairman of the regular emecratic campaign committee, says Grout is probably elected by a small majority.

The populist vote of over 60,000 for Coxey for governor hurt us. The hard times were too fresh in the minds of the people to be forgotten and this tended to our defeat. KANSAS CITY, Nov. 5 .- Returns from Kansas up to midnight indicate that the republicans have carried a majority of the ounty tickets in their entirety by majoritles of rom 200 to 800, and that David Martin, republican candidate for chief justice of the supreme court, is re-elected by a rafe olurality. In many instances Martin ran thead of his ticket. Charles K. Holliday. ir. Martin's majority over Holliday for chief justice will probably reach 19,000, a decided record on the resubmission question, which the latter candidate repre-sented. Holliday also stood for free silver It is estimated that 250,000 votes were polled

Chairman Breidenthal of the populist state central committee asserts that his party held its own, and in fact elected about thirty county offices now held by republicans. He claims further that populist judges were elected in the Sixth, Eighth and Eighteenth districts, and that the result in the Seventh, Ninth and Twentieth districts is in doubt. The others are admittedly republican. The democratic and republican chairmen have not made any statements publicly, but it is generally conceded that the democrats got practically no office, and that the republicans, with few exceptions, carried everything. The fusion tickets detracted to some extent from the republican support, and the A. P. A contingent aided the republicans.

# RICHMOND, Va., Nov. 5.-The election

oday closed one of the most apathetic can

paigns known in Virginia for many years. For several days past the democratic managers have feared some of the senatorial, as well as a number of house, districts were in danger of being lost by this lack of activity of the canvass. The returns justify the fears. The election was for half of the senate (twenty) and the whole membership of the house of delegates (100). In many counties the republicans combined with the populists and other anti-democrat elements and made the inner an expectation. serted this issue and at a conference held in Petersburg last May there was adopted a so-called election bill, which it was proposed should be made the issue in the campaign. The indications are that in most of the sections of the state a small vote was polled. ### TARMANY GOES BACK IN POWER Plurality Over the Fusion Ticket

About 20,000, NEW YORK, Nov. 5.—The election in New York City was fought upon entirely different lines from that in the state. The fight was between the straight Tanimany ticket on the one side and the fusion of republicans and independents on the other. On eccount of the various officers voted for, the returns were late coming in, but Tammany's victory was never in doubt, and its piurality will probably be between 18,000 and 22,000. The city complete, with the exception of 163 districts, give Hamilton, fusion, 103,547; Purry, Tammany, 119,976, on the vote for curly clerk. The Tammany candidates for he leading positions were: Justices of the upreme court, Charles H. Trux, Frederick H. D. Purry; register, William Lapmer; budges of general sensions, M. P. McMahon and Joseph Newberger; justices of city court, Robert A. Wick, John P. Schuchman and

H. F. O. Dwyer. The vote of the independent county cratic organization was considerably below 10,000, and the good government ticket vote will scarcely reach 10,000. The socialists polled more than 9,000, which makes them the third party in this city. Dr. Parkhurst says he is not discouraged at the re sult; that a leason has been learned, and that the committee of fifty should never have gone into a fusion movement, although

est course. The republican chairman, Lanterbach, says the leason of today is that there will be no more fusion. "Fusion is dead forever," he said, and politicians of every faction echo his declaration.

It will be 2 o'clock before any definite figures can be given on the result of the election in the city or state. The scattering returns received up to midelight do not differ materially from those received last year when the republicans carried the state by 22.000. The democrats claim the election of Representatives, DeFrance, 47; Evans, 148; Roberts to congress, with even a chance on governor, but give no figures to support their claim. The precincts heard from outside of Sait Lake and Ogdon, give Caine, democrat for governor, 2533; Wells, republican, 2,440. It is estimated that the republicans have carried Sait Lake by 800 to 1,000 majority and chected Glendenning mayor. Ogdon elects a clause for governor, 2,532; which is the said of the clected Glandenning mayor. Ogdan elects a House, 48; Lawrence, 5. democratic mayor and five cut of ten council. Returns on the state ticket are coming in so slowly that nothing like an accurate estimate of the majority of Norval, the republican candidate for judge of the supreme County commissioner to fill vacancy: Breen. court, can be made. Chairman Hainer of the republican state central committee claims that Norval's plurality will reach 15,000. Chairman Edgerton of the populist committee, will not concede Nerval's election, claiming that the counties most favorable to Maxwell have not yet been heard from.

The following recapitulation shows the vote on the head of the respective state tickets, the figure valued in the counties and the counties are tickets.

NO RUSH AT THE CLOSE Probably at no election ever held in the city was there so little semblance of a rush during the closing hour at the polls. In most of the districts the vote had been registered early in the day, and in many of the precincts all the voters who could be frummed up had visited the booths before o'clock, and when the closing hour arrived the booths were empty. It was expected that there would be a crush at the booths in the Third yard near the closing hour, as the workmen at the smelter got out at 5:30, but the voting between 5:15 and 6 o'clock did not run into double figures in any of the Third ward districts.

In the uptown wards there was still less f a rush, and at many of the booths less than a dozen votes were cast during the last ward there was a marked falling off in the vote from the registration list, and no one seemed able to account for it except on the ground that republicans could not swallow the ticket named by their party and declined to vote any other ticket.

An incident occurred at the corner of Fifteenth and Harney shortly after I o'clock that afforded considerable amusement to the men awaiting their turns at the booth. An ex-sergeant of police, who is well known as being in favor of the Citizens' league, stood on the corner conversing with a couple of friends. He merely stopped to pass the good word along and had paid no attention to the voters passing into the booth. The special officer in charge of the precinct no sconer espied him than he immediately sent in a report to Messrs. Broatch, Vandervoort and Albyn Frank that a man was there injuring their prospects for election. These three gentlemen dropped their business forthwith and hurried to the spot. They shook their heads threateningly at the ex-police-man, but he quietly continued his conversation with his friends until he had finished and then casually mentioning the fact that he was a special deputy sheriff walked off.
