POWERS PRODDING THE TURK

Porte Promises to Answer the Latest Note in a Few Days.

SYMPTOMS OF A REVOLUTION APPARENT

Trouble Brewing in Every Direction, While the Imperial Finances Are as Vacuous as a Campaign Fund After Election.

CONSTANTINOPLE, Nov. 6 .- (Via Sofia, Bulgaria, Nov. 7.)-The Turkish minister for foreign affairs, Said Pasha, has promised to give the ambassadors of the powers a definite reply, within two days, as to what steps the porte intends to take for the restoration of stration against England, although Klamil order in Armenia and to provide for the pro-Pasha, the outgoing grand vizier, was the tection of Christians in that part of the most pro-English of the pashas." Turkish empire.

This was the point especially alluded to by compelled, acting in concert, to take their own steps in the maiter. No combined action of such grave importance upon the part of the powers has been taken for years past, and the fact that the Porte was reminded of the intervention of the powers in Syria at the time of the massacre of 1880, is considered as a direct warning to the sultan that Europe will intervene to restore order in Armenia unless the Turkish government acts promptly.

As each day passes, however, the situation becomes more and more alarming and adds to the difficulty of the task before the porte, and possibly, before the European powers.

making ill-advised and mischievous demonstrations in Constantinople. "It will take years," the correspondent continues, "to revive the confidence and trade and commerce lost through the present condition of anarchic through the present condition of anarchic through the present condition of the government."

As an instance of this the correspondent clies that Hen. A. W. Herrill, United States minister, has been trying for two months to obtain permission for United States Consul Poche at Aleppo to see an American citizen of the difficulty of the task before the porte, and possibly, before the European powers.

on fac's is shown by the mobilization of twenty battalions of reliefs out of the sixty available, and the steps being taken to dispatch them as promptly as possible to that portion of Asiatic Turkey. This lends color to the report that the Armenians are receiving support from unexpected sources and that the Turkish government may soon be face to face with an open and widespread revolt against the rule of the sultan.

ARRESTS CONTINUE.

Arrests of Armenian and Turkish suspects to constantly being made here and elsewhere, but owing to the press consorship few of the facts in this connection are obtainable. Possibly the most grave turn in recent events lies in the fact, established beyond any doubt, that the dissatisfaction against the rule of the sultan has extended to the Turkish army and navy and that the palace officials are well aware of this fact and are in a state of the greatest alarm. Nobody here would be astonished to hear at any moment of an outbreak in the palace itself; in fact people who are well yersed in the Turkish affairs assert that this is among the immediate possibilities and that only a prompt show of force upon the part of the European fleets can avent it

Trustworthy reports which have been re-ceived here from Erzeroum state that it has been established beyond dispute that the Turkish troops took part in the recent mas-sacre and pillage of Armenians there, and, it d, clear evidence of this fact will be before the representatives of the

Private accounts represent the condition of the Asiatic provinces of Turkey as being deplorable in the extreme. A veritable reign of terror is said to exist and bloodshed and robbery are of daily occurrence.

The police of this city are kept busy nigh and day watching everybody and everything To such an extent is this system of polici-surveillance carried that two servants in the employ of English merchants here have bee arrested while returning from the postoffic with letters and newspapers. The latter were seized by the police, in spite of the protests of the servants, and were carried away to the police depot for examination. The English merchants promptly complained to the British d'affaires, Hon. Michael pert, and the latter has made strong represen tations to the porte on the subject. Of cours such a state of affairs cannot be allowed to exist much longer, as the lives of all Chris tians in Armenia are in danger, and there is hourly expectation of the most serious trouble in almost every part of the Turkish empire. The mere calling out of the army reserves will have little or no effect upon the situation, as the troops cannot be relied upon in such an emergency, and the wretched condition of Turkish finances bars anything like wholesale and energetic action upon the part of the Turkish government, unless a holy war inflaming the religious fanaticism of the Turk against the Christians. This, it is be-lieved, the porte would not hesitate to do in the case of an invasion of the Turkish domin ions, but such a step would not be calculated to suppress interior disorders, the basis of

which should be the protection of the Christian population of Armenia. Hali Rifat Pasha, the Turkish minister for the interior, has been appointed grand vizier in succession to Klamii Pasha, resigned.

Advices from Aleppo say that the Kurds
belonging to the Hamidieh cavalry regiment have attacked and plundered a caravan near that place. It is further stated that the Kurds in the eastern provinces have joined in an anti-Armenian movement, and that the American missionaries have been advised not to expose themselves to dangers While the present excitement lasts.

Tewfik Pasha, minister for foreign affairs Hassan Pasha minister of marine, R'sa Pasha, minister of war, Memduh Pasha, minister of the interior.

Riza Pasha was minister of war in the last cabinet. Hassan Pasha was minister of ma-rine in the late ministry; Hall Rifat Pasha the ex-minister of the interior, and Tew fik Pasha has just come here from Berlin, where he was Turkish ambassador to Ger-many. Finally, Said Pasha was minister for

foreign affairs in the late cabinet and pre-viously grand vizier. The result of the conference of vesterday between the ministers and Sir Edgar Vincent, governor of the Imperial Ottoman bank, at which means were canvassed for the better ment of the financial situation in Turkey, i seen in an official announcement, issued to day, that the Ottoman bank will suspend for a month the payment of gold for bank rotes, in order to give time for the conversion into pounds of Turkish gold, which is coming to the bank from its branches. Meantime the public offices accept the bank notes instead

of gold. The action of the government in prolonging the concession to the Ottoman bank for twelve years has had a reassuring effect on the public and the run on the bank, which threatened to upset the financial situation in the whole empire and to spread with disastrous effect beyond, has abated. It is hoped the worst of the panic is now over. Kiamii Pasha, the retiring grand vizier, has been appointed walt at Aleppo.

The Constantinople correspondent of the Standard sends an interview with Said Pasha, in which he said he could not claim the In which he said he could not claim the Turkish administration was snow white, but it was certainly not as black as it was painted. The ministers, he said, were working hard to carry out the scheme of reform and counted upon England's generosity not to increase the difficulties by encouraging the revolutionary Armenians, who, instead of being grateful for the concessions that had been made, were in open revolt throughout Asia.

"This is more remarkable," the helly News correspondent observes, "because Mr. Terril has considerable personal influence at the porte. Yet, now, after demanding the dis-missal of the vall at Aleppo or that the porte itself should assume the responsibility of re-fusal, he has only succeeded in getting an order for the prisoner to be brought here."

ONE HOPEFUL SIGN. As noted elsewhere in the dispatches to the Associated press, Kiamil Pasha, the retiring grand vizier, has been appointed vali of Aleppo to succeed the official who has held that place during Mr. Terril's efforts to secure an interview with the prisoner. The only hopeful agn in the outlook, according to the opinion of the Daily News correspondent, is the report that the troops at Erzeroum, under Shakir Pasha, high commissioner to enforce the Armenian reforms, have attacked a Moslem mob which had formed with a purpose of doing mischief to the Armenians. "If 'his is confirmed," the correspondent thinks, "it will show that Turkey really desires that the massacres shall

NO DESIGNS ON THE ARMENIANS WASHINGTON, Nov. 7 .- The Turkish I he sublime porte, under yesterday's date "All news concerning plots, threatening let-ters and a supposed dissatisfaction in the ranks of the army and navy are entirely propagated by well known newspaper cor-respondents, affillated with the Armenian comrespondents, amiliated with the Armenian com-mittee, to alarm public opinion. As for the off-repeated assertion of the intended exter-mination of the Armenians, it is too absurd to be contradicted. The efforts of the imperial government tend, on the contrary, to quell the revolt of the Armenians and to re-

cress their criminal and bloody agitatio on the point of subsiding when the Armen ans began again their attacks on the Mussulmans by throwing bombs at them and by firing at the Muszzins at the very time when the latter were calling the faithful to prayers. BERLIN, Nov. 7.-Emperer William today reviewed the recruits of the regiments of the guard. His majesty made a short speech to the young soldiers, reminding them that they now belonged to his army and bidding then especially to be mindful of the honor which was theirs in being attached to the guard. He added: "Refore all things you shall trust to God to preserve your honor, and be faithful to your emperor and country, whether gainst a foreign or an internal foe.

General von Winterfeldt then called for cheers for the emperor, which were heartily given by all present and the ceremony of ad-ministering the oath of allegiance to the young soldiers just joining the colors was luded with a march past of all the troops assembled.

Experts Say the Water Was Low, but the Engineer Says It Was Not-Standing Portion of the Building Damaged.

DETROIT, Nov. 7 .- The work of rescuing the bodies of the victims of Wednesday's explosion in the Journal building went steadily on all day and tenight. The list of missing decreases about correspondingly with the number of dead bodies taken out. Over thirty dead bodies have now been recovered and identified, but the number changes frequently on account of new and ghastly discoveries brought to light in the ruins. The number killed will approximate forty. Today's developments demonstrate conclusively that negligent care of the boilers was the cause of the accident. Official inspectors and competent engineers examined portions of the wrecked boilers today and pronounced the cause as low water, causing a superheated condition of the flues. which was followed by the dangerous injection of cold water. Engineer Thompson's carelessness is strongly condemned.

The engineer of the Free Press builded states that he has warned Thompson against leaving his boilers without having any assistant to watch them. Some occupants of the building give similar testimony. Thomp-son insists that he saw both bollers ten minutes before the explosion and that they contained plenty of water and sixty-five pounds pressure of steam.

The portion of the building still standing was officially examined today and found to be out of plumb, wrenched by the shock and otherwise defective. It will doubtless be condemned. In addition to the list sent in these lispatches last night, the following have

CHICAGO, Nov. 7.—The money order de-partment of the Chicago postoffice paid more money in cashing money orders than was ever before paid out by any similar was ever before paid out by any similar office on any one day. The total payments for the day aggregated over \$105.000, the exact amount not being obtainable until late tonight. This is the first time in the history of the money order department that the daily payments at one office have reached a sum over \$100.000. In addition to the \$105.000, which represents the amount that went through the clearing house, there was about \$15.000 paid out by the clerks at the window in the postoffice building.

When they left this city it was their intention to fight with bare fists. But when the place of meeting was reached Foretta drew a revolver and fired three shots at Morello. Two of the builets took effect in Morello's abdomen and the third in the groin. The wounded man was taken to the city hospital in a dying condition, while Foretta fied and Wisconsin have arrived in Oneyville tal in a dying condition, while Foretta fled to take the places of strikers dropped in the to this city, where he was arrested by detectives.

CARLISE DECLINES TO TALK. HAVE JUGGLED THE RETURNS

CHICAGO v. 7.—The Daily News Washington specifitured from the control of the cont promptly gav orders to his acting private secretary to say to newspaper correspondents sult in Kentucky. Mr. Carlisle believes that the result speaks for itself, and carries a political meral with It.

Official returns from Nebraska are being made up very slowly, but as far as received they indicate the re-election of Chief Justice Norval by a plurality of somewhere in the neighborhood of 6,000. The returns so far as received as received are tabulated below:

| Delitical meral with it. Colonel Sam Gaines, chief of mails in the Treasury department, who went home to vote and returned, with the secretary, says: "Colonel Bradley is a good man. I was clerk of the court of appeals of Kentucky for many years and Colonel Bradley is a good man. I was clerk of the court. His ability and popularity have not been overestimated. But with these points in his favor he would have been 30,000 votes short of election had Hardin and Blackburn not sought to override the expressed will of the democrate party. "The Kentucky democrates were with Secretary Carlisle in his opposition to free sli-

retary Carlisle in his opposition to free silver and made their position clear in the plat-form, and when Hardin and Blackburn went out into the campsign and deliberately led a revelt against the party platform they met a defeat they deserved. Prominent democrats told me that the time had come to get rid of Blackburn and Hardin, and these two irritating features were promptly brushed aside

LOUISVILLE, Nov. 7.—The returns sent in up to this morning give Brailey a plurality of over 17,000, and the few counties not yet heard from, some seven or eight, including takers. Broatch's defeat was practically con-

Bradley for vice president. The Leader says: "The overwhelming victory in Ohio, under the brilliant leadership of McKinley, Foraker and Bushnell, gives a new impetus to the presidential candidacy of William McKinley, and the election of William O. Bradley as and the election of William O. Bradley as the discuss the discrepancies that appeared on the first republican governor Kentucky has ever had makes him a vice presidential possibility. McKinley is the embodiment of the it became evident that the dervishes had protective tariff principle, and Bradley's elec-tion is a triumph for sound money.

"In Ohlo both parties were in substantial agreement on finances, and, outside of local questions, the Wilson-Brice tariff bill was the issue of the campaign. In Kentucky both parties in convention endorsed sound money. On the stump Bradley was even more out-rpoken for a gold standard than his party platform, while Hardin openly repudiated the utterances of his party and proclaimed the gospel of free and unlimited coinage of silver in every speech. McKinley and Bradley stand for protection and honest money, the issues upon which next year's national cam-paign must be won. McKinley and Bradley as candidates for president and vice president would obliterate Mason and Dixon's line from the political map and mark the complete reconciliation of the north and south, and thus nationalise our politics."

BOTH PARTIES ARE PLEASED.

Majority Against Female Suffrage s Not Discourage Its Advocates. NEW YORK, Nov. 7 .- A special from Bos ton to the Evening Post says: "The majority given Tuesday against municipal suffrage for women in Massachusetts was 77,000. The suffragists, represented by Dr. Henry B Blackwell, say they are much encouraged by this result, considering the small amount of money which they could use and the short time for work. The 'yer' vote of 107,000 revesis tens of thousands of new friends, they say, and they will begin at once the organization of the new clubs to carry on the agi-tation and to secure municipal suffrage from

he legislature. "On the other hand, the managers of the Woman Suffrage association are particularly pleased with the majority of 77,000. They estimate that at least 15,000 votes were cas by women for the suffrage. This would leav an adverse masculine majority of over 90 000, beside the demonstration that about ? per cent of the women, taking the through, do not care for the vote at all. "It is recalled that the prohibitory coust tutional amendment was defeated in 1889 at special election by about 40,000, and the effect has been to prevent any further agi-tation on that line."

Size of the Republican Victory in Utah Will Not Be Known Until Then. SALT LAKE, Nov. 7 .- Political excitemen is dying out and normal conditions again prevail. Very little interest is taken in election returns today, the result having been s far determined that there is no further question, excepting for some of the minor offices. In the Third judicial district, including Salt Lake City, the democrats have elected two of the three judges, with chances about even on the third. VanCott, democrat, for superintendent of schools in Salt Lake county, wa elected by a majority of 100. The three su preme court judges on the republican ticke received about the same plurality as the governor. The vote, as far as counted, shows Wells, for governor, about 2,300 ahead, and Allen, for congress, about 1,400 ahead. The final count will not vary much from these figures. No further returns have been received today from the legislative ticker ceived today from the legislative ticket. Nothing more definite will be known as to the state ticket until the final count is made. There is no law in existence saying just when

Stopping the Silver Agitation. BIRMINGHAM, Ala., Nov. 7 .- A conference will be held here tomorrow night be ween United States Senators Morgan and Pugh and the free silver members of the Aia bama congressional delegation to determine whether or not they will continue the prese-cution of the free silver campaign inau-gurated inside the democratic party in this state. Leading democrats are seriously sidering the advisability of stopping all dis cussion inside the party of currency and turn ing their attention to reuniting the democratiparty for the contest. It is feared that fur-ther agitation of silver inside the party might bring on a pronounced split and the less of the state to the democracy.

DERVISHES SHAPE THE VOTE TO SUIT

Unmistakable Evidence at Hand of Fraud Committed by the Election Officers by Which Men Not Elected Were Counted In.

When the election returns from Omaha and Douglas county were published Wednesday morning every one was simply dazed. This was true not only of the defeated candidates and the friends of the non-partisan movement in the city and county, but the most ardent supporters of the candidates on the dervish ticket had not dared hope for the complete sweep that the returns showed had been made and they did not know how to account for the results.

All of the sentiment as expressed on the streets and in business circles had been very largely in favor of the Citizens' league candimen on the ticket had been conceded by the dervish contingent. No one claimed that heard from, some seven or eight, including those from which incomplete returns have been received, are expected to swell the figures above 17,000. The result of the legislature is still doubtful, with chances in favor of the republicans on joint ballot. The prospects of Blackburn's return to the senate do not look very good at present.

CINCINNATI, Nov. 7.—A special to the Times-Star from Lexington, Ky., says that General Hardin, the defeated democratic candidate for governor, left his home in Harrods. compared with the men named by the Citizens' league and the democrats. With these facts conceded it is not strange that the re-General Hardin, the defeated democratic candidate for governor, left his home in Harrodsburg this morning for Louisville, where he will go into the practice of law. He declined to discuss the causes of his defeat.

LEXINGTON, Nov. 7.—The Leader, the leading republican newspaper in Kentucky, always a stalwart supporter of Governor Mc-Kinley for the prasidency, today declares for McKinley for president and Governor-elect Bradley for vice president. The Leader says:

After the recovery from the surprise came the speculation as to how the result could have possibly been accomplished. There had been dissension among the democrats that would lead to such an uphenval as returns indicated and the people began to it became evident that the dervishes had their plans well laid when they insisted through the efforts of the council combine and the support of the Board of County Commissioners upon making up the election officials to suit themselves. It is known that in many of the election booths of the city none but members of the A. P. A. were on guard, and in those districts it is shown that the returns are just what the dervish gang wanted and in many instances just what the people did not want. It is known that in one district in the Third ward all of the election officials except one judge and one clerk were asleep during most of the count, and these two officials, both members of the A. P. A., counted the votes and entered them to suit themselves. The records from the precinct in question show discrepancies that cannot be explained in any other way. It is known that the count was in the hands of men who wanted the election to result just as it did, and it is known that many of the men in the booth would not hesitate but members of the A. P. A. were on guard, of the men in the booth would not hesitate to make the books show the desired result,

whatever the ballots might show. eturns corroborates the charge that the returns do not indicate the real vote of the people, and show a state of affairs that can not well be explained. For instance, the two democratic candidates for judge of the su-preme court, and the populist candidate, polled a total of 10,216 votes in Douglas county, It is undoubtedly true that all who voted for Mahoney and Phelps and Maxwell voted for the nonpartisan judiciary ticket. None of them would have occasion to vote otherwise. In addition to the 10,216 votes colled for the candidates for supreme on the democrat and populist tickets, there were hundreds of republicans who voted for Hopewell. Duffle and other candidates on the nonparition judiciary ticket. If the vote had been fairly counted Judges Hopewell, Duffle, Perguson and other randidates on the non-partisan judicial ticket could have received as many ballots at the ery least as the candidates for the supreme ench on the populist and democratic tickets Yet the the figures show that Ferguson re-ceived 457, Duffie 518 and Hopeweil 908 votes ess than the number cast for Mahoney, belps and Maxwell. There can be no other explanation of this shortage than that the ote cast for the non-partisan judiciary ticket was not properly counted.

TOO WIDE APART. Then on the other hand take the vote cast for Judge Norval and that registered for Ben Baker on the judicial ticket. Under the most favorable circumstances, which did not exist, Baker could not hope to poil more votes than the head of the straight republican ticket, and yet he heat Judge Norval in this county by nearly 1,000 votes. It would be conceded by any honest republican that every vote east for Baker would also be east for Norval, and the discrepancy can be controlled to the property of the proper most favorable circumstances, which did not not be accounted for except in the manipula-tion by the dervish contingent that had

tion by the dervish contingent that had charge of the election machinery. If anything further were wanting to show the manipulation of figures for the benefit of the dervish candidates, it is furnished from the reports made on the vote for councilmen. In the first precinct of the Secondward, for instance, City Clerk Highy's tables show that Cahn received 64 votes, Lemly 98 and Christie 142. The correct figures, as shown by the tally sheet at the completion of the count, are: Cahn 140, Lemly 139 and Christie 81. In a number of other precincts in the city the vote on councilmen seemed in the city the vote on councilmen scemed to have been determined by the election officials on an estimate of what the dervish andidates would need to make their elec-

A recount will doubtless be demanded on the council tickets, and probably on the ju-

dicial tickets. IN THE FOURTH JUDICIAL DISTRICT. Judges Keysor and Duffle of the

Citizens' Ticket Elected. There seems to be considerable confusion n just what has been the result of the recent election, so far as the judicial ticket is oncerned. From the best information which The Bee can obtain the judges elected are Baker, Dickinson, Duffle, Fawcett, Keyor, Scott and Slabaugh. This is in spite of the fact that the face of the returns apparently shows the election of Powell, repub-lican, instead of Duffle. The total vote of the district on judges as received so far is Baker, 13,060; Dickinson, 12,772; Duffle 12,415; Fawcett, 12,749; Ferguson, 12,412 Hopewell, 12,191; Keysor, 19,338; Magney, 11,843; Powell, '2,494; Redick, 19,976; Scott, 3,236; Slabaugh, 12,498; Wakeley, 11,823,

Vote in Ohio Very Heavy. COLUMBUS, O., Nov. 7.-The republicanstate committee tonight figured the repubican plurality for governor in Ohio at 95,348, The democrats carried only twenty alx of the eighty-eight counties in the state. No effort has been made to figure the total vote cast, but it is believed to be one of the largest in majority for state officers in Mississippi is will not materially change the net results.
