Owing to additional disquieting news just received here from Sivas, Mr. Terrell has re-newed his demand that the Porte protect the missionaries, and he is holding the Turkish government responsible for their lives. Abdulah Pasha, formerly president of the

Sassoun bureau of inquiry, and Saibden Pasha, have been sent to Erzeroum and Bitlis, respectively, to take command of the Turkish troops in those places. This lends color to the report that Shakir Pasha is coming back to Constantinople and that he is to be appointed grand vizier.

There is no improvement in the financial ispect of affairs. In fact, if anything, this aspect of affairs. In fact, if anything, this side of the question is darker than ever, for vote of expulsion. there are ugly rumors affoat to the effect that certain palace officials have made large sums of money recently by buying and sell-ing Turkish securities at the right moment upon information received from high sources. committee.

There are rumors in Russian circles here of great activity being displayed in connection with the Black sea fleet of Russia, and for some time past important movements of troops are known to have been taking place on the frontiers of Russia nearest to the disturbed districts of Asiatic Turkey.

Official dispatches published here today from the disturbed district show the Ar-menians, in every case, have been the ag-gressors and attacked the Mussulmans, who were obliged to defend themselves against the Armenians. At Arabekir on October 26 and 27, the official reports add, the Armenians set fire to a mosque, school and bazas with bombs, and massacred a number of Mo-hammedans. The authorities, it is claimed he deserved. afterward discovered forty bombs which the Armenians intended to explode in the local barracks and government offices. According week without bail. to the official announcements, the Armenian to the official announcements, the Armenians of Erzinghia attacked the government office, burned it and other buildings, but were dis-persed by the military. Over 5,000 revolu-tionists are said to be assembled at Tchouknerzen and Adana prepared to fight the Turkish troops.

## BENT ON EXTERMINATION

CHICAGO, Nov. 14 .-- The Associated press has today received the following from Dr. M. M. Mangawarian, leader of the Society of Ethical Culture in this city, and one of the most eminent and best known Armenians in the United States:

The very recent massacres of Arme reported from Trebizond, Erzeroum, Moush and Diarkir fully confirm the words spoken to me by the Turkish commissioner general to the World's Columbian exposition, Hakki worth's examination was mostly confined to questionings in regard to the insurance Harry Hyams had induced Wells to take out on his Bey: 'If we (the Turks) cannot have the country we shall see that you (the Armenians) don't get it.' There is very little doubt that the Turks believe their days are numbered and are therefore determined to exterminate th Armenians, root and branch, before they themselves have been finally and forever driven out of the civilized world. If Europe is to act at all it must act at once, for soon will be too late to undertake the salvatio of Armenia, as there will be no Armenia left to save.

ject of the Monroe doctrine. into the history of the case in detail, Mr. Lodge said: "Nobody in America ever pretended that the Monroe doctrine as a proposition of international law. It is a declara ion of policy, and one which people in Amertca have always sustained, and in my opinion always will sustain, as of vital importance to the people of the United States. It earing upon the subject matter of the Vene-uelan dispute is very simple. Each country is entitled to what its predecessor held, and no more, for no new rights have been ac-quired in the interval by either people. Th: muestion is what was the true boundary ween the Dutch and Spanish possessions. efuse arbitration and to seize and hold h force disputed territory would open the loors, if England pursued such a course, to any other European power that desired to acquire additional territory in Central and South America. It would fatally infringe on

the Monroe doctrine. The people of the United States cannot regard it as otherwise han a movement hostile to them. "The Monroe doctrine, it should be re embered, is quite distinct from any ques tion of reparation for injuries received b the subjects of foreign powers at the hands of the governments or people of Central or South American republics. With such quez-tions we have nothing to do, but cannot per-mit, under cover of a demand for reparation

ar in any other way, new territory to be acquired by any European power. "Thus far the Monroe doctrine has re

mained a mere statement, found only in President Monroe's message, but it is my be lief that in the next congress both house and senate will, by formal resolution, declare it to be an integral part of the policy of the United States, to be maintained at all haz-ards. American opinion is practically unanimous as to the absolute necessity of uphold ing the doctrine for the welfare of the coun-try. Moreover, I believe that Europe recogizes our attitude as reasonable and proper. William T. Stead, editor of the Review of Reviews, having seen the interview with Ser ator Lodge, replied at length to the state-ments made. England, he said, would never

consent to any veto being placed on the free-est possible expansion of the Pacific ocean trade and settlement and the colonizing of the western world. He insisted that it would he absurd to submit the Venezuelan question arbitration, especially with the example of the termination of the Alabama claims as an object lesson. In conclusion, he said he recognized the fact that Americans were quite in a frame of mind to invent new doc-trines if they found the Monroe doctrine did

Editorially discussing the interview with Henry Cabot Lodge on the Monroe doctrine, the Chronicle this morning says: "Mr Chamberlain, secretary of state for the colonies, is not likely to play the role of Napoleon in Venezuela.
