anti-Prohibitionists in Iowa Look Forward to a Bitter Struggle.

DES MOINES, Nov. 15 .- (Special.)-All the peculation as to the probable action of the egislature on the questions of resubmission and manufacturing has been based on the roplies received from letters of inquiry sent to members of the body, by a local newspaper man, who is compiling a history of the members of the body. The individual re-plies are not divulged, but the result is tabulated as follows: Resubmission House, Senat

umber reporting. for amendment. Against amendment. oncommittal Manufacturing-

or manufacturing. gainst manufacturing. There are 100 members of the house an fifty of the senate. The above_estimate assumes, as is probably correct, that the nine teen democrats in the house and the seven in the senate will vote for manufacturing

and against resubmission. To reach the re sults it has been assumed that eleven repub lican members of the senate who voted fo resubmission two years ago as part of th agreement, but who are anti-prohibitionist at heart, will this time oppose resubmission and that among the noncommittal members of the senate, who are republicans, seven are from anti-prohibition districts, and therefore will vote against resubmission. This would give the anti-commissioners in the senate twenty-nine votes. By a like course of reasoning the opponents have figured out fifty two votes on their side in the house, a bare

majority of the body. anti-prohibitionists have figured out The similar vote in the house on the proposition to pass a manufacturing law, except that they make a majority in the senate in favor

of such a law, two less than are opposed to resubmission—that is, they show twenty-five votes in the senate for manufacturing and

SPECIALIST. Having fully demonstrated by years of successful practice and experience that he is able to cure multitudes of diseases which baffle the skill of ordinary physicians, he feels it his duty to make known to suffering humanity that he devotes his whole time and energy to this particular branch of the profession, and will prepare and furnish medicine at his office or visit those cases which may require personal examination. Pa-tients at a distance may consult Dr. Mosher by letter, giving a carefully written history of their cases, describing their symptoms minutely as possible, which will enable him to make correct diagnosis, and judge very accurately of the curability of the disease, and to apply proper remedies. Medicine forwarded either by mail or express, and all medicine prescribed by Dr. Mosher is prepared under his own personal supervision. He treats all diseases without morecury or other poisons, which create disease of themselves. The doctor by his new RESTORATIVE TREATMENT cures all curable diseases, and treats with success all affections of the Liver. Throat and Lungs, Catarrh. Epilepsy overwork, the indiscretion of youth, or the excess of riper years, and whatever may tend to lower the latent force or the tone of life's vitality, causing physical debility, nervous exhaustion, insanity, and premature decay. Consult personally, or by Letter, free and strictly confidential. Address,
