Proceedings Are Begun Anew Against Spoerl and Frank.

ARRAIGNED IN POLICE COURT YESTERDAY

Waive Examination and Held to District Court-Saville Reinstates Frank-Statements Regarding Dismissal of Original Case.

John Spoerl, dog catcher, and Israel Frank, of obtaining money under false pretenses from the city. The case, which was dismissed a few days ago by Judge Scott because, when the case was called, the prosecution failed to have any witnesses present,

asked by the county attorney if the Board of pense of a trial, and he answered emphatmatter, Jenkins said that so many taxpayers had expressed their indignation to him re-garding the disposition of the case, that he had no hesitancy in guaranteeing that the ex-pense would be incurred by the county. He said that taxpayers had expressed the opinion that if the came were allowed to be dropped it would be placing a premium on rascallty

Spoerl and Frank were rearrested late Mon-

Mostyn, the principal witnesses against Frank and Spoerl, are now in the city and the case has once more been brought into the courts in order to allow their testimony to be taken. Spoorl was taken to the police station Mon-Frank's arrest followed and when he arrived upon the scene he had his own bondsman with him in the person of S. H. McDonald. The bonds, which were for \$700 each, were signed in both cases by Max Rels, an old dog catcher and former employe of Spoerl's. Speerl's bond was also signed by John Scheaffer.

Frank was Monday rainstated in his position as meat inspector by Dr Saville of the Board of Health, because Dr. Saville had reached the conclusion that as the case had been dismissed Frank had been exonerated. The board suspended Frank, pendice an investigation, and it appears to be probable that the board will have to do the act again

that the board will have to do the act against and overrule Dr. Saville.

The bulky meat inspector was very indignant yesterday and was not at all slow in saying what he was going to do. He stated that if he was not sent to the penitentiary on the charge standing against him he would certainly do something that would send him to the penitentiary. This, interpreted, is contact that the penitentiary. The penitentiary is a property of the penitentiary that would send him to the penitentiary. This, interpreted, is contact that the penitentiary is a property of the penitentiary that the penitentiary is a property of the penitentiary that the penitentiary is a property of the penitentiary that the penitentiary is a property of the penitentiary that the penitentiary is a property of the penitentiary that the penitentiary is a property of the penitentiary that the penitentiary is a property of the penitentiary that the penitentiary is a property of the penitentiary that the penitentiary is a property of the penitentiary is a property of the penitentiary is a penitentiary in the penitentiary in the penitentiary is a penitentiary in the penitentiary i for some one with a meat ax because he was not allowed to go free when Judge Scott had dismissed the case.

County Attorney Baldrige is rather warm under the collar because the account of the former case having been dismissed was given publicity. Some idea of the true inwardness of the affair was disclosed yesterday, however, in a few remarks that were dropped

by an employe of the county attorney's office. This employe, with some apparent authority, said that he did not believe that the witnesses against Frank and Spoert, McGuire and Bell, could give any important testimony against them anyway. He did not think that they counted the dogs that were drowned and did counted the dogs that were drowned and the net think that their testimony would go for much. When it was ment oned to him that County Attorney Baldrigs himself had said that he had a strong case against the two men and intended to take some pride in the proscution, this employe seemingly came to the conclusion that he had talked too much with his mouth and then said that he had no doubt but that the men were guilty.

Specil and Frank were up for preliminary hearing before Judge Berka at 2 p. m. yes-terday. Both men waived examination and were bound over to the district court, the bond in each case being fixed by the judge at \$700. County Attorney Baldrige, when asked when the case would be brought before Judge Scott, replied that he could not set a date positively, but that it would prob-ably be either Thursday of this week or Monday of next. He added that all the im-portant witnesses for the prosecution, with the exception of Jack Bell of Chicago, were now in the city, and that the trial of the dog catchers would be pushed to completion without further delay.

TELLING HOW JUDD VANCE DIED Commings Stands for Murder.

The Cummings murder trial is proceeding very slowly in the criminal court. So only three witnesses have been called to the stand. At this rate the case will occupy a considerable length of time, as the state has in the neighborhood of twenty-five witnesses. This slown as is due to the fact that the attorney for the defense has been examining each witness at great length.

The first witness was called to the stand Monday afternoon, and did not get through the state has in the neighborhood of twenty-Monday afternoon, and did not get through by a representative of the PHILLIPS ROCK giving his testimony until yesterday isLAND Exemption Co., and run via Colorado morning. RECENT FINANCIERING

Proceeds of Increased Levy Granted Not Used for Purpose Designated - Debt Keeps on Pilling Up.

At a meeting of the Board of Educatio Monday night a resolution, which provided for he submission of recommendations relative retrenchment in school affairs, was voted down and the introducer was not even al lowed to explain his position, nor the reasons which induced him to offer the documen or consideration. Members declared that the esolution was uncalled for, and that the poard would end the year in as good financial condition as at the close of last year. The most superficial examination of the present financial status of the Board of Education stablishes the falsity of this argument.

herited from the previous year, left the board about \$100,000 short. It is generally admitted that the shortage at the end of the present year will be approximately the sam as was inherited from the previous year. It is on this that a majority of the members base their statement that the board will come out in as good condition at the end of the year as they were at the beginning.

But there are several facts to be considered which entirely overwhelm this theory In the first place, up to 1895 the board was compelled to accept a tax levy of 3 mills. The valuation in 1893 was \$20,472,016, and the revenue accruing to the school fund from taxes was a little more than \$60,000. In 1891 the levy was \$19,926,780, and the proceeds of the 3-mill levy amounted to \$59,780.34. At the beginning of the present year it was represented that with the \$100,000 deficit it. sight, it was imperative that there should be a radical increase in the levy in order that the board might pay off the shortage I Bluffs and Missouri Valley. Berths reserved and full information given

and get on a sound financial basis. It was declared that if the levy was increased to mills, the board, through pirict economy could pay off the deficit and come out very nearly free from debt. On hose representations the additional levy granted by the city 1895 valuation was The 1895 valuation was \$19.654.46 he revenue obtaining from a 7-mill levy o this amount being \$137,581.26. Consequence he board was granted an increased revenu

of nearly \$78,000 over that of the previou year with which to pay off the indebtedness. NOTHING APPLIED ON DEFICIT. How have the promises of the Board of Ed

ation been kept? Not one dollar of the deficiency has been ald and the heavy additional tax has gone o pay the regular expenses of the schools. Therefore, instead of holding its own the oard will have spent \$78,000 more of taxes n 1895 than during the previous year. There is another feature to be considered. While the city council granted the reques of the board for a 7-mill levy last year i view of its serious financial condition, there is no reason to presume that it will be equally willing to pour money into a rat hole this year. In fact, it is ascertained that the coun il will refuse to grant more than the forme evy of 3 mills in 1896. This statement made on the authority of a member of th finance committee of the city council and h view is endorsed by several other member One of the members said: "It is an assure e: that the council will not grant the Board of Education more than 3 mills for next year. We gave it a heavy increase last year for a certain and specific purpose. That purpose was never accomplished, even in the slighted degree. While the city has been making every effort to cut down expenses the Bosr of Education has not lopped off a single dol lar. It has even increased the salary of the superintendent of buildings and other officers. If the members of the board believe that the members of the council are a lot of Reuben to be bunched for a second time the some they find out their mistake the better for thems lives. They will get exactly 3 mills nex-

ear and they can cut the'r garments to meet hat particular bals of cloth." No matter what members of the board may deciare, it is impossible for them to evade the gravity of the situation. According to figures, which they do not venture to dispute, they will end the year just as they began it, \$100,000 short. If the levy is cut down to 3 mills, as seems very probable, this shortage will be nearly doubled.

The 1896 valuation is slightly less than \$18,000,000. The 3 mill tax will yield \$54,000 on this amount if every dollar of it is collected. This amount is exactly \$83,581.26 less than the revenue afforded by a 7 mill levy on the valuation of 1894. Add this amount to the \$100,000 shortage already assured and the result indicates the situation which the board will be compelled to face.

LICENSES WILL FALL OFF. These figures do not take into considera-tion the failing off in tecesipts from licenses, which is to be anticipated. No one expects that there will be as many caloon licenses taken out this year as previously. Every salcon closed means another \$1,000 to be tacked on to the deficiency. At the present time no fines are being collected from the proprietors or inmales of disorderly houses and thus another source of revenue is cut off. The state apportionment is not likely to be a large as that which was received this year on account of the delay in the payment of state taxes. Take these facts into consideration and it is plain that at the present rate of ex pense the school district will find itself shor to the tune of \$200,000 at the end of 1806. How this emergency is to be met without a resort to the pruning knife is a secret that is only known to those members of the present majority of the Board of Education who refessed such politic indignation Monday nigh when the question of a reduction of salarier was suggested. It is claimed by all members of the board that with the exception of this reduction, every possible means of economy has been exhausted. Superintend at Pearse has carried the policy of consolidation farther his producessors. Nearly a score of room: his producessors. Nearly a score of room: have been consolidated and the sirve iees of a corresponding number of teachers dispens d with. The rule compell ing principals to teach has been extended and that economy can be carried much further along those lines is cut of the ques tion. The only remaining resource is the lopping off of fads and useless educations superfluities and a reduction of salaries cor responding to these which have been mad-by every business house in Omaha.

Queer Notions.

Some men buy a winter outfit, some buy spasmodically piece at a time where and when notion dictates.

Most of our trade-however, is of the former, although a good portion of it were converted after a good deal of pilgrimageing about for better and

Yet sell all things cheaper and for good reasons have no difficulty in doing so. Certainly small items save little, bigger ones bigger, but by buying all here a person is away ahead when the year rolls by. And the better goods and more satisfactory,

Buy a pair of woolen hose here for 15c and you save a dime. w

Buy a pair of patent ear muffs here for 10c you save 15c. A German muffler costs you here 25c and elsewhere 49c.

A satin muffler is here 75c and elsewhere \$1.25.

A pair of working gloves sold here at 40c same thing elsewhere 65c to 75c. We sell dogskin dress gloves at 75c that others get \$1.00 to \$1.25 for,

Warm caps at 25c, some get as high as 50c for nearly alike

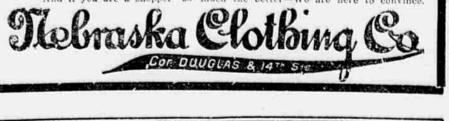

Stylish caps that sell at 75c are 45c here

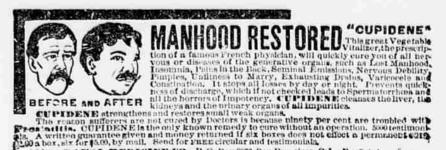

Pretty plush caps, \$2.00 grades-\$1.25 here,

And we might go on for an hour reading, showing positive savings-little

and more-depends upon the size of your purchase And there are other things for cold weather-heavy underwear-sweaters

-heavy lined and unlined gloves and taittens-wool shirts-overshoes-rubbers-all sorts of woolen hosiery-cardigan jackets and other things.

REMEMBER

The great fruit growing and vegetable raising district of the South. A soil that raises anything that grows and a location from which you reach the markets of the whole country. Your fruits and garden truck soid on the ground and placed in Chicago. St. Louis and New Orleans markets in 12 to 24 hours. In this garden spot of America.

NO PLACE ON EARTH

Offers greater advantages to the intelligent settler. One half the work you now do here will give four times the results in this wonderfully productive country. The people are friendly; schools, churches, newspapers are plenty; railroad facilities line, and a soil whose richness is unsurpassed.

Two and Three Crops Can be Successfully Grown the Same Year. Timber is abundant-Lumber is cheap-Fuel costs nothing-Cattle are easily raised and fattened-Grazing is fine all the year.

CLIMATE

Is healthy and delightful; land and sea breezes and cool nights. The mean temperature is 42 to 65 degrees. The average rainfall is 56 inches. No extreme of heat or cold; sufficient rain for all crops.

20 TO 40 ACRES properly worked makes you more money and makes it easier than the best 160-acre farm in the west. Garden products are a wonderful yield and all bring big prices. Strawberries, peaches, plums, apricots, grapes, pears, figs, early apples, in fact all small fruits, are sure and profitable crops.
