Wheat Opened Firm and Olcsed at an Advance.

MARKET WAS A SHADE FIRMER

Provisions Were Firm and the Speculative Rusiness a Shade More Active-Stocks and Honds.

CHICAGO, Nov. 25 .- Wheat opened firm and closed at an advance for the day of he per bu. The strength came from the news of California shipments of considerable amounts of wheat to Australia, damage to and poor prospects for the Argen-tine wheat crop, a good demand for found lots of red wheat, for shipment from here and an increase of from the to be per but, in the premium bid for it. The sales of round lots were variously reported at from 75,000 but, of No. 2 red to 125,000 but, and the price paid was 3%c, in one instance 4c, over the December price. Corn was firm and the December price. Corn was the December for near months. Provisions also improved a little. The Berlin market was up from 1 mark to 1½ marks. Paris about steady and Liverpool closed 1¼4 lower for

wheat than on Saturday.

The demand here for winter wheat for shipment was again in evidence, and alto-gether the late news was of a character to worroy the shorts. May wheat, from 60190 at the opening, rose to 61%c, and was bringing 61% within a minute or two of the

Corn was a shade firmer, parely because

of the damp weather, out perhaps more largely on account of improvement in of the damp weather, but perhaps nore largely on account of improvement in wheat. November closed from \$4c\$ to \$5c\$ advance for the day, and December gained \$4c\$, while May is up from \$4c\$ to \$5c\$ advance for the day, and December gained \$4c\$, while May is up from \$4c\$ to \$1c\$. Last trading prices were: November from \$75c\$ to \$25c\$, becember from \$75c\$ to \$25c\$, for \$1c\$ to \$25c\$, and \$4c\$ to \$25c\$, and \$4c\$ to \$25c\$, and the market was quiet from beginning to end. Fluctuations were narrow. December ranged from \$175c\$ to \$15c\$, closing \$3c\$ higher at the latter price. May opened at \$205c\$, sold to \$205c\$ and was offered at the latter price at the close, an advance of from \$5c\$ to \$4c\$ since Saturday.

The provision market was firm and the speculative business a shade more active, or rather, it should be called less duil. Some buying of May ribs by Logan & \$Co\$, and of pork by Norton & Worthington early in the day, although not on an extensive scale, imparted some steadiness to the trade and the good send off it got in that way was add to by the firmness of the grain market. The \$5c\$ lower for the more steadiness for the trade and the good send off it got in that way was add to by the firmness of the grain market. The \$5c\$ lower for the more steadiness for the trade and the \$1c\$ to \$5c\$, and ribs, from \$5c\$ to \$75c\$. Estimates for tomorrow. Wheat, \$5c\$ cars; corn, \$68\$ cars; oats, \$200\$ cars; hogs, \$5c\$,000\$ head.

Industrials Led in the Security Maron that larger receipts would materialize today. het Vesterday. NEW YORK, Nov. 25.—The stock market to tions footing up 155,000 shares, out of a total of 203,300 recorded. The industrials also scored the only important losses in prices. The railroad list did not respond to the weakness in the market, being favored by moderate purchases of the international shares for foreign account and by reassuring advices as to the progress of the etitlement upon the London Stock exchange. There items on the railway list include on increased supply of cotton bills and encouraging exhibits. The strength of the rates of sterning exchange continued unabated, however, and the best informed circles it is confidently excited that sulpments of gold will be made on and the best informed circles it is confidently excited that sulpments of gold will be made on educaday.

With hardly an exception all of the railroads king exhibits of carnings for the taird week Sained Statistics of the confidency of the same week gained STLESI in gross. road officials continue to dilate upon the prospect of decided improvement in revenue to be derived from the new rate agreement between trunk lines and connecting roads.

In the industrials Sugar absorbed about one-half of the dealings. American Tobacco came next in point of activity and scored the greatest net loss of the day. Chicago Gas was third in extent of trading and left off at an important fractional decline. In no other stocks on the list did the dealings reach the 10,000 share mark. There was no news of importance bearing upon the industrial securities and their course reflected liquidation and the backing and filling of the room traders. This contingent employed the rather worn autiments of probable hostile proceedings against the American Tobacco company by the New Jersey state authorities and of an impending favorable decision by Attorney General Moloney against the legality of the plan of consolidation of the Chicago Gas and the arbitrary properties.

The market opened dull, with the only feature weakness in the industrials and a firm tone to the railway list on the influences previously noted. After 11 o'clock fractional railles accurred all around under a further bear raid and drove prices to the lowest of the day. For the rest of the day up to the closing the speculation was dull and heavy in tone, except for the railroads. The final sales showed losses of 2% per cent in Tobacco. 1% per cent in Northern preferred. Trading in bonds today was dull, the dealings aggregating \$89,000. notified by the prisoners and frustrated the scheme. Last night the three men suspected one of the prisoners of reporting on them and made him go into an upp r cell. Then they began to make a noise to attract the attention of the shoriff. One of them stood at the door with a fire shovel, ready to strike Shoriff Berry as he entered, but one of the prisoners called out to him not to come in alone, as the desperadoes were watting for him. The sheriff then called in Deputy Dillingham and then entered and put the three men in their cells.

Sears' Strange Conduct. Al Sears, for the past eight years a bookceeper for Martin Bros., commission merchants at the Exchange, is missing. Last Friday Sears put on his coat and walked out of the office without saying a word. The other employes in the office who noticed Sears going out thought nothing of it. The after-noon went by and still Sears did not return. Mr. Martin thought possibly he had been taken sick and had gone home. When Saturnoon came and still no bookkeener turned, Martin started to investigate. ound that the young man had left his boarding place in the same manner as he had the office. An investigation of his books was made and everything was found to be all right. In speaking about the matter yesterday morning. Jim Martin said that he believed Sears strictly honest and could not account for his strange conduct. From people who claim to be intimately acquainted with Sears t is learned that there is a woman mixed up n the case, but beyond this bare statement
