HILL CITY, S. D., Nov. 29 .- (Special.)-

Almost daily encouraging gold discoveries

are reported from claims in this vicinity,

upon many of which the annual assessment

work is now being done. The finds are

usually of free gold in oxidized quartz or

tionally rich prospects in the face. A quan-tity of quartz taken out, some of which is

on exhibition here, is of the grade which re

quires watching in mining and sacking to prevent loss. Another find, almost equally

as premising, was made on the Coats ground, in an entirely different district, three miles north of the camp. Miners familiar with

the region prozounce the samples shown equal to anything found in this vicinity.

The extent of country in portions of which

promising prospects have been discovered luring the past year of active prospecting

seems to confirm the assertions of mining men that a "belt" of indefinite width, con-taining numerous gold ledges, traverses the

southern Black Hills. The general strike of

the ledges is northwest and southeast. The finds are of little importance, however, unless

capital can be interested for their develop-

LOOKING FOR THE WARRIES. Tolerance, it appears, has essent to be a virtue in the present cas, and even those who have been in favor of the most pacific treatment in dealing with the sultan now appear to have afrived at the conclusion that notiing but the show of armed force will bring Abdul Hamil to his sensite. The time for diplomatic exchanges of views seems to have about expired, and everybody here is hourly

There has been some delay in the receipt of the answer to the message which Sir Philip Currie sent to London after his interview early this morning with Said Pasha. The Turks believe that this indicates that eat Britain has decided upon further de-but this is not the general opinion here. United States Minister Terrell has received crited States Minister Ierral has received details confirming the reported massacre of Christians and the destruction of American missionary property at Marash on November 18. It is now established beyond a doubt that the schools of science attached to the American mission were pillaged and set on fire and that two other buildings were ransacked. Mr. Terrell's advices also confirm the statement that no protection was afforded the Americans or their property, in spite of the promises of the porte, until eight hours after the riot. The American missionaries, telegraphing under date of Tucsday last, November 26, from Marash, say they are all safe under the protection of the Turkish authorities. An estimate is being made of the damage done, and the Turkish officials any they are doing everything possible to rever the property looted from the American buildings.

GROWING WORSE HOURLY. Every report which reaches Constantino-ple not only confirms the stories of reported outrages but adds to the list of horrors recorded and swells the death list hundreds daily. Bloodshed, fire and famine have been stalking unchecked, if not encouraged, brought abut by the Asiatic domination of the Turk; and the hour, it is again said, cannot

be delayed when Europe must cry to the bloodthirsty infidel, and the cross be upraised against the green banner From Erz roum some additional news was

forthcoming today, but it only served to paint the picture blacker and redder. More attempts to exterminate the Christian population of that city and vicinity have been made, and the Armenians who survive are actually being induced by their priests to embrace Islamism to save their lives. The last outbreak at Erzeroum, according to the official account of the affair, was of a triffing nature; only eight persons were killed and it is attributed by the governor of Erze-roum to an encounter between agents of the tobacco internal revenue department and

some smugglers. The Armenian versions of the affair put an entirely different com-plexion upon the disturbance, saying the number killed was much greater, and that the rioting was occasioned by the Turks. A dispatch from Kharput, dated yesterday, A dispatch from Knarput, dated yesterday. November 27, again reports that it has been established that the American mission buildings there, recently destroyed by rioters, previous to the massivere of about eighty Christians, were set on fire by the Kurds in the presence of the Turkish troops, who made no effort to prevent them from so doing made no effort to prevent them from so doing. It is added that the Mussulmans also took part in the incendiarism, although the American missionaries and the unburned houses were protected by a detachment of about 100 soldiers. Only slight confidence is felt in the security of the American missionaries re-siding at Kharput, and the non-arrival here siding at Kharput, and the non-irrival here of letters from them, giving details of the recent disturbances at Kharput, leads to the belief that in spito of the promises made by the porte to Mr. Terrell, they have been intercepted by the Turkish authorities. Mr. Terrell will make further representations to the Turkish government on this subject, and everything possible is being done to communicate with the American missionaries.

GRATITIDE UNDER DURESS

Further advices from the provinces estab cal Turkish official are continuing their efforts to force the Armenians under various threats to sign ad-dresses of gratitude to the sultan and to declare that the outbreaks were the work of a "few misguided persons." The Turkish newspapers publish dispatches from the different provinces containing similar statements, but the members of the diplomatic corps attach no importance to any such assurances local authorities yesterday vainly asked the Armenian newspapers of this city to publish similar statements under threat of suppress ing the publication of the papers if they did not do so. The publishers replied that the statements were false and that under no cir cumstances would they publish them. The newspapers have not yet been suppressed.

GRATITUDE UNDER DURESS.

The Porte today issued the following offi-cial account of the outbreak at Maraph and elsewhere: "An Armenian of Marash re-cently set fire to his own house, situated in the Mussulman quarter, in order to provoke a tumult and revolution. panic ensued, during which five Armenians were killed and six wounded." DIPLOMATS LESS CONFIDENT.

LONDON, Nov. 29.—A Turkish dispatch to the Times says that the diplomats there appear less confident of carrying their point as to the admission of a second guardship of each of the powers into the Dardanelles. "The sultan seems to consider," the cor

respondent continues, "that the fact that such a small concession is demanded proves that the powers are not in agreement on the subfeet, and that he is therefore safe in refueing the firmans. Should the sultan's opposition prevail. Christians and foreigners will be placed in a position of great danger." "Said Pasha again visited all the ambassadors in an endeavor, on behalf of the sul

tan, to dissuade them from insisting upon the admission of the second guardship. Sir Philip Currie, the British ambassa had a private audience with the sultan today, lasting two hours. "The Imperial Ottoman bank has reduced

The Vienna correspondent of the Daily Telegraph says an acute financial crisis has arisen in Turkey, owing to the paralysis of trade, industry and husbandry and to the cutlawry caused by the mobilization of troops, and the sources of income are so completely exhausted that an issue of paper currency is nder consideration.

ROME, Nov. 29 .- The pope, in the course of his allocution at the secret consistory where the new cardinals were created today dwelt upon the gravity of the situation in Turkey and added that the holy see was not indifferent to the distress of the Armenians, but decred to see the various peoples of the Ottoman empire governed upon principles of equity and equality.

Advices received from Constantinople add to the sum of traveledge of the district and

to the sum of knowledge of the disorder and bloodened with which Turkey is burdened. It is reported there that fresh massacres have occurred in Aintab. a town situated on the mountain slope of Mount Taurus, and about sixty miles northeast of Aleppo. A condition of panic, it is said, continues through the villayet of Haleb, in which Aintab is situated. At Tiffis, in the Russian Trans-caucasus, it is announced from Erzeroum that the Turkish government has accepted that the Turkish government has appointed a commission, including some esteemed Ar-menians, to attend to the restitution of property to Armenians who have been robbed in the course of the recent disorders. The gov ernment, it is reported, has also agreed to appoint a commission to assist needy Arme-nians with bread and money. WASHINGTON, Nov. 29.—The State de-

partment has received advices from Minister Ferrell stating that the missionary school of science at Marash was burned on the 19th. but that the missionaries are safe. He tele graphs that the Aintab college is protected. "Even the Joints and Muscles cry out with rheumatic pains."

"But we can't help it." said the Kidneys. "We can't do impossibilities. We are sick and week ourselves and cannot do our work. Of course, these poisons collect in the blood and irritate and disease you. The moment we stop work you feel it. Your health always did and always will depend on our activity."

And just then an ordinary, every-day, common-sense doctor who knew his business was called in and prescribed Dr. Hobb's Sparagus Kidney Fills.

The Kidneys promptly responded and sei cheerfully to work with renewed strength and vigor; the Uric Acid, the waste product of decay and of fever, the ashes of digestion, and all the poisons and impurities in the blood were cast out.

"Well, that's something like it," said the Lungs. "I'll pitch in and do my work now, said the Stomach.

"What a relief," said the Liver and the Heart, and the Joints and Muscles Joined the chorus.

The quarrel was over. It was a bappy family, working harmoniously once more. This sounds like a fairy story, but it isn't it's cold, hard, solid facts and common ense.
