## READY FOR THE TESTIMONY

Morgan Murder Case is Selected.

COMPLETED YESTERDAY NOON

Great Care Used in the Questioning of Every Man Called-First of Witnesses Will Be Henrd Monday.

In the criminal court the entire morning was consumed in completing the work of securing the jury in the Morgan murder trial, The examination of each jurer was long and extended until almost up to noon, when there were still three challenges remaining for the defense and two for the state. Judge Scott then announced that he intended to keep the court in session until the jury was empaneled, The attorneys then considerably hastened their questioning, evidently fearing that if they dallied they would lose their dinners.

At 1 o'clock in the afternoon the twelve furors in whose hands will rest the fate of George Morgan, charged with the murder of little Ida Gaskill, were secured and the cour took a recess until Monday morning.

Morgan occupied the same position as he took Friday. He listened intently to the questions put to the jurors and their answers Occasionally his attorneys engaged him in close conversation when they were selecting the juror whom they intended to challenge Morgan, however, apparently had little to say

Mrs. Gaskill, accompanied by one of her children and a friend, was present during the proceedings and took a chair close to the tury box. She was dressed in a black mourn ing costume. Once or twice she spoke to the county attorney, but during the greater par of the proceedings she was engaged in closely listening to the questions and answers which passed between the attorneys and the jury At the opening of court the defense ex

hausted its eighth peremptory challenge, A C. Boody being excused.

Louis Littlefield, a milk dealer, and R. E Livery, a brick contractor, were called to fil the panel, the jury box having contained only eleven men on adjournment Friday night. Both the jurors went through the examina tion of both attorneys, having no prejudic

against the accused and having no objection capital punishment. On its ninth peremptory challenge the

defense excused John E. Davidson.

John Grant was called. He said that he had formed an opinion in the case from what he had read and heard. He was consequently challenged. In answer to ques tions from the court he said, however, that this opinion would not affect him in ren-dering a verdict and the challenge was overruled. The defense also challenged the juror on his statement that he had been shown by a reporter who will be a witness a sketc of the building where the murder occurred The challenge was overruled. The state used its third peremptory against

After again consulting Morgan the attorneys for the defense excused Simon Ries on the twelfth peremptory. This created some surprise, as Ries had been considered an ideal jurer. THEIR HUSBANDS ARE CRUEL Allegations that Are Made in Two

Suits for Divorce. "On August 3, 1893, he put a rope around her neck and threatened to hang her." This bit of cruelty is the principal of the many cruelties which Stella Honan alleges that she has sustained at the hands of her husband. Pat J. Honan, and on which she bases a suit of divorce. She was married to him on November 15, 1890, and shortly after he is alleged to have begun his abuse. Many in stances are cited, but the main one is the hanging incident. The trouble between the two culminated on August 6 of this year. the house, and she has not returned since

Mrs. Honan also makes allegations of drunk-enness and non-support. Cruslty is the main ground on which another divorce suit was filed yesterday, in which Mary C. Essley appears as plaintiff and William D. Easley as defendant. They were married at Springfield, Ill., August 22, 1872, removed to Omaha eighteen years and and live at present at 3105 Larimore avenu The wife claims that some years ago her husband commenced to drink, and that since that time she has been compelled to sup-port herself and a family of five children by washing. Drink also drove the husband to cruelty. He abused her for a long while, but the climax is said to have been reached November 2. Mrs. Easely says that on that November 2. Mrs. Easety says that on that day her husband came home at 2 o'clock and found that no dinner had been kept for him. He ordered her to get some, but before the tea kettle had time to boil he hit her in the neck. She rushed for the door, but before she could get out, she says, her husband beat the cruelly. In order to prevent him from further molesting her she also applied for a restraining order against her applied for a restraining order against her husband, and obtained it. There are five children, the oldest 15 and the youngest 5 ears of age, whom the mother desires placed

n her care. Mrs. Stevens Interferes.

Minnie Stevens, formerly Minnie Johnson, the former wife of Arthur Johnson, the brick menufacturer, has jumped in and taken a hand in the action brought by Johnson to prevent the sheriff from solling his brick manufactory on an execution. The execution was issued to satisfy a decree for several thousands of dollars worth of allmony, ob-tained by the diverced wife in the courts. Johnson sought to slay the execution on the grounds chiefly that the property does not belong to him, but to Johnson & Bro., a firm of which he is a member.

Mrs. Stevens says that she is the real de-

fendant in the suit, although Sheriff Drexet is named as the defendant. As such she goes on to deny that the property belongs to the firm, but alleges that she knows that it be-longs to Arthur Johnson.

Declares He Never Said It.

Edward Guraky denies in an answer filed yesterday that he ever said or intimated that one of his houses had been set on fire by Emanuel Levy, the occupant, Lavy alleged that such a remark was made by Gursky, and on the strength of it he brought suit for damages against him.

Gursky says that when he found that the house was on fire be became excited and in semewhat strong language did say that it had been fired through the careleseness and negligence of Levy. He claims that the fire negligence of Levy. He claims that the fire originated through the carelessness of Levy's family, as it was on account of a defective gasoline stove. He could not, however, he says, have accused Levy of purposely set-ting the house on fire, because he knew at the time that Levy was not at home.

John H. Koehler was able to answer to the satisfaction of all the attorneys and kept his Jacobsen or any one else to usurp the office patent leathed styles for men. tally wants Jacobson to pay over the costs of

Jacobsen began the contest several days ago, chiefly at the instigation of his un-prejudiced friends, who want to get him into the office even more than he wants to get there himself. In his complaint he made no allegations of fraud, but said that in twenty-four out of the twenty-five pre-cincts in the three wards, the Third, Eighth and Ninth, represented in the district, there were mistakes made in the count, which, if rectified, would elect him instead of Kierstead. In the other precinct, the Sixth of the Eighth ward, it was alleged that no electors voted, although the returns show that Kierstead received 121 ballots and Jacobsen eighty-four. In general, Jacobsen's claim to the office

amounts to nothing more than the bars statement that in each of the precincts ten or fifteen votes were counted by mistake which should have been counted for himself. On this basis he calculates that he was elected by a vote of 2,305 to 1,977, in-stend of being defeated by a vote of 2,215

Jacobsen has so far made no attempt to show that in any of the precincts mistakes were made. He simply makes the bare statement that the judges and clerks of election are so hurried in their work that they frequently make mistakes. He does not see that such mistakes are likel be made in favor of one candidate as that such mistakes are likely to as of another. He has, however, etill an-other reason for believing that there was something wrong about his defeat. He does not see how it was that the entire repub-lican ticket was elected with the exception This makes him pause and think that there is something rotten in Dan

In his answer Kierstead denies in general that there were any more votes counted for him than there were cast for him, and denies that more votes were cast for Jacoben than were counted. He says that if any mistakes were made in the count by the judges and clerks of election Jacobsen got the benefit of the mistakes. The allegation that no electors voted in the Sixth precinc of the Eighth ward is dubbed a falsehood. This allegation was made on the ground that the judges and clerks had not been legally sworn in, and that therefore all votes cast in the precinct were illegal and should

FIVE THOUSAND FROM EACH. Herman Timme Sues Five Men for Handbill Libel.

To judge by the five petitions which were filed by him with the clerk of the district court yesterday, Herman Timme intends to make a desperate attempt to obtain satisfaction for the defeat which he sustained at the polls on last election day. He wants in cold cash \$25,000 from five parties.

Timme ran for justice of the peace of Ben

nington on an independent ticket, and he was defeated by his opponent on the republican ticket by two votes. For some time before election there was circulated in the pre cinct in which Bennington is situated a handbill, to which Timme attributes his defeat more than anything else. Besides that, however, Timme says that the handbill caused damage to his character to the amount f the difference between the salary of a jus tice shop and \$25,000. The handbill, he has reason to believe, was distributed by Henry Grau, the successful candidate for the office Otto Hansen, H. B. Waldron, Joseph Boyer and John H. Klinker, and he has therefore sued them for \$5,000 aplece.

The handbill charged Timme with the collection of various amounts while a justice of the prace which he failed to turn over. It also charges that during his eighteen-year term of office his records show that he had only five cases and that he failed to turn over the record as provided by law. It wound up by urging voters not to vote for Timme.

There was a very small attendance on account of the disagreeable mist that hovered outside, but this did not prevent a very profitable digestion of one of the most interesting works of the great dramatist. The paper, which was by Frank Richardson, was read by Mrs. Richardson on account of the absence of the author, and briefly outlined the principal facts relative to the production of the comedy. The remainder of the evening was devoted to reading the lines of a portion of the play, the various characters being personated by members of the club.

Good advice. Never leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

The nasty weather last night had a comparatively small effect on the annual reception given by the young people's societies of the churches of the city to the young men of Omaha at the Young Men's Christian association building. Throughout the evening the brightly lighted rooms, the cosy gymnasium and the spacious hall were crowded with about 1,000 young people of both sexes, who got perhaps more enjoyment out of the oc-casion than if the night outside had been

bright and clear. The reception proper, the getting-acquainted and glad-to-see-you portion of the evening, if you please, began about 8 o'clock and co tinued for an hour. The young men of the city, as they began to pour in, were met by the reception committee of other young m and by young women, marked by badges, who saw to it that everybody was made at home. The carnival and society circus to be given December 11 and 12 at King Ak-Sar-Ben's den in this city for the benefit of Associated Charities, promises to be one of the most elaborate events of the kind ever attempted all were white robes and ensigns, and the ritual was strictly carried out. After the work of initiation refreshments were served, plans in such a way that success is already plans in such a way that success is already assured. The society circus will be a novel entertainment. Society women will sell circus lemonade, pop-corn, peanuts, etc.; the grand entree will be composed of the most swell equipages in the state, handsomely decorated; Hon, W. J. Bryan has consented to act as ringmaster, and well known citizens will be the clowns, while some of the best known society women have consented to pose as living pictures. Many well known merchants and business men will represent the wild ani-mals, and every feature of the greatest show on earth will be given. All the railroads have made a rate of one fare for the round trip for a distance of seventy-five miles in Ne-braska, while the Iowa roads offer the same rate for a distance of fifty miles. The hotels of Omaha offer special rates, and it is the intention of those in charge to make this a charity event of great magnitude.
