Assigning Territorial Delegates WASHINGTON, D.c. 7 .- The committee places which will be assigned to the territorial delegates in the house bave been decided upon by the speaker, after a conference with the three delegates, who are in the city. Al-though the delegates have no vote on the floor of the hours, they are entitled to vote on bills in committees, but there are twelve mittees to which their services are limited by custom, most of them having to do with matters of interest mainly to the west. The places for which the delegates have asked Flynn of Oklahoma, public lands and Indian affairs; Murphy of Arizona, coinage, weights and measures, territories and private d claims; Catron of New Mexico, coinage and agriculture. It is not likely that Can ion of Utah will serve as a delegate in this congress, since the territory is to achieve statehood, and the other delegates expect three or four committee places each. Republican Leaders of Iowa Seek Escape from the Load of Prohibition.

MODIFICATION OF MULCT LAW DESIRED

Such Amendment as Will Permit Manufacture the Object of the Liberals-Cold Water Men Bent on Resubmission.

DES MOINES, Dec. 8 - (Special.)-While, is conceded that the leaders of the republica party have decided to throw prohibition over board and divorce the party from this issu for all time there is a very wide difference of opinion, especially among the republical members of the next legislature, as to the best method of accomplishing this result The prohibitory law was kept on the mature

altogether. The partial triumph of democracy at last aroused the republicans, and the mulct law was the result. To perfect this measure and pass an act authorizing the manufacture

bill by the lower house at the last session it became necessary to make at least a quasipromise to the radical prohibition republicans to resubmit the whole question of prohibition in the form of a constitutional amendmen to a vote of the people, and a re-olution of Day before yesterday, says the Buffalo to a vote of the people, and a resolution of Express, there was a man at the Mansion this character was adopted in order House fresh from the lively scenes at Cripple give effect to this agreement it will be need to the same of the coming legislature to ratify this \$1,000,000 worth of gold a month. This man resolution and fix a time for the vote to

Some of the ultra-prohibitionists elected to meet their approval, and that they will bit terly oppose a manufactures bill and all efforts to modify the harsher features of the mulet law. They will insist on letting the riulet law stand until the people have another opportunity to vote upon the question constitutional amendment.

The last state convention left the whole matter to the legislative districts, so that both elements in the legislature will be untrammeled by party piedges. A careful can-vaes of the members-elect shows very clearly that neither side can secure the necessary fifty-one votes in the lower house to carry out its program without democratic assistance. A further compromise or a union of the lib-eral republicans with the democrats is the solution.

If the prohibition element should be suc essful in securing control of the lower house and thereby blocking further legislation in line with the mulct law, overtures would undoubtedly be made to democrats to join forces and dispose of prohibition at once and forever. Just how far the democrats will go toward bringing about this end is a matter for conjecture.

Te resubmit prohibition and reepen an agi-tation upon this question just now on the eve of a presidential election, and with an Iowa candidate in the person of Senator Alli-son in the field seeking a nomination, seems to the average republican to be the height of folly. To posipone the vote till after election of the president would not matters, especially if Allison should be the candidate. The only safe course, therefore, should it become necessary to resubmit, would be to fix the time at the earliest possible date and have the question out of the way before the presidential campaign fairly opens

Searching for Missing Boys. SIOUX CITY, Drc. 8 .- (Special Telegram.)-C. G. Walker of Kansas City is here in search of his sons, Arthur and Charles, supposed to have been murdered by robbers

of valuable horses. They were last heard of 180 miles south of Aberdeen, where all trace of them was lost. A band of horse thieves is known to have been prowling about the country at the time, and the supposition is that the travelers were foully dealt with.

Returned to His Family. SCHUYLER, Neb. Dec. 8 .- (Special.)-V. Sudik of this place, who several weeks since met at Wahoo and departed from there with the wife of a merchant at Ravenna, returned to Schuyler Thursday evening and will probably return to his wife and family of seven children and in the future feel that there is more of congeniality in his own home than elsewhere. The pair went to Cedar Rapids. Is., and from there came some days since reports that the woman had returned to her home at Ravenna and that Sudik was de-

ented by Atlan E. Omby of Holycke, Mass and he has entered into an agreement with Walter H. Durfee of Providence, R. L. for the manufacture and sale of the machines. Mr. Durfee is the owner of the righte to make rubular chimes for clocks, says the books solely by the republicans for ten years Springfield Republican, and has facilities and many of its provisions still remain to for turning out the new invention. As the isme indicates, the jubular chimes are made with the new tubular bells, and the people dwindling away until it finally disappeared who have heard the bells in clocks will appreciate the beauty of the tenes that can by secured in the new machine. It is really musical invention, and Mr. Olney is confident that it will be a great success. The machine is a combination of the bells and it of alcoholic liquors for legal purposes are among the important matters that will engage the aitention of the coming session of the legislature.

In order to secure the passage of the muicities of the building in which it is set any part of the building in which it is set any part of the building in which it is set. up by means of a st of push buttons. The machine is designed to be set in the top of large hallways, and this enables the full power of the bells to be secured. The number of bells will vary according to the number and scope of tunes that are to be played, and the machine will be built with from eight to seventeen bells and with either twenty or forty tunes, as desired.

By an ingenious controlling device that ir. Olney has attached to the machine, it will be possible to have the entire number of tunes played in rotation, or one can be re-peated as desired, or selections can be made from the list. The bells are an inch and a Some of the ultra-prohibitionists elected to the next house, under the lead of John Henry from the list. INTENSE SUFFERING

rom Dyspepsia and Stomach Tron . ble.

Instantly Relieved and Permanently Cared by Stuart's Dyspep sin Tablets.

> A New Discovery, But Not a Patent Medicine.

> Dr. Redwell relates an interesting account of what he considers a remarkable cure of acute stomach trouble and chronic dyspepsia y the use of the new discovery, Stuart's respensia Tablets.

He says: The patient was a man who had uffered to my knowledge for years with dyspepsia. Everything he are seemed to sour and create soil and gases in the stemach; he had pains like rhoumatism in the back, shoulder blades and limbs, fullness and distress after cating, poor appetits and loss of flesh; the heart became affected, causing palpitation

and sleeplessness at night.

I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experi-ment, I finally bought a 50-cent package of Stuart's Dyspep ia Tablets at a drug stare a d gave them to him. Almost immediate relief was given, and after he had used four boxes was to all appearances fully cured.

There was no more acidity or sour watery risings, no bloating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid, healthy

flesh.

Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores yet I con-sider them a most valuable addition to any physician's line of remedies, as they are perfeetly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety, being harmless and containing nothing but vegetable and fruit essences, pure pepsin and Golden Seal.

Without any question they are the safest, just effective cure for indige ton blicusners, onstipation and all derangements of the stomach however slight or severe Stuart's Dyspepsia Tablets are made by the Stuart Co. of Marshall, Mich., and sold by druggists everywhere at 50 cents per package.
