But Dr. Solomon claims to know a great deal more about the career of W. H. Chap-ple during his stay in Omaha. Chapple seems to have made something of a confidant of the doctor and to have told him of all his affairs of the heart, and they were many this analys of the heart, and they were thank and varied. Then the women with whom Chapple became entangled seemed to have sought out Dr. Solomon in a professional way, and he has a list of women who came to grief through their relations with the man whose death is now the subject of official inquiry. The doctor tells of a number of escapades in which Chapple figured prom inently, and one of them, at least, if the dector's version of it is true, explains a local shooting mystery. On the night of June 19 last it was reported that a woman had shot a man at Syndicate park, n∈ar South Omaha man at Syndicate park, near South Omaha. Reporters and policemen investigated the cose, but failed to locate the author or the victim of the shooting. Dr. Solomon has a bullet which he says he took out of the man's shoulder, and has a letter from the woman who fired the shot. The man in the case, he says, was one of Chapple's chuma, and the woman was one of Chapple's vic-tims. The letter in question written in a tims. The letter in question, written in a neat feminine hand, enclosed in an envelope bearing the postmark of Warren, Ill., and date of June 29, is in Dr. Solomon's posses-sion. It is as follows:

WOMAN'S TALE OF WOE.

FIGHT MAY DRAG ALONG FOR YEARS

Lieutenant Churchill's Opinion of Affairs in Cuba.

TAMPA, Fla., Dec. 9.-Lord Winston Churchill, a son of the late Lord Churchill,-a leutenant in the British army, who has been with General Valdez in Santa Clara, is in the sity. In an interview today he said: "I think the situation in Cuba is serious. The winter campaign is intended to be decisive. Should the Spanish forces succeed in eject-ing the revolutionists from the provinces of Matanzas and Santa Clara this winter the fight will be prolonged indefinitely, as in the last revolution. If the struggle is prolonged the insurgents will gain in numbers on ac-count of the general discontent that will exist, and the government, owing to the enormous expense involved, will have to de-crease its army and hold only the principal points, while the country and the smaller places will be given to the insurgents. In that case the country will scon be in a wretched condition and the people will bring much pressure to bear upon the insurgents to terminate the struggle, while the United States, in behalf of her citizens' interests, will similarly press Spain, and the result will be that Cuba will gain complete autonomy and Spain will not lose her colony. Should the insurgents maintain their position this winter in the provinces, then the result is nearer and more promising to them. The Spaniards do not quite grasp their way of fighting, and the Cubans, who thoroughly un-derstond the woods, have the advantage. Out-

side of England, I do not believe there is another country which could successfully suppress that revolution. There are now 32,000 troops being run into Cuba, and unless those in command have arranged a very brilliant

coup, I cannot see where these additional troops will help the situation much." Knights of Ak-Sar-Ben Meet.

Knights of Ak-Sar-Ben were summoned to meet at the Commercial club rooms last evening for the purpose of the regular annual meeting. The elevator passage was choked off at the fourth floor and a watchful sentinel guarded the stairs so that there is no question but that the hosts of Samson were assembled. From the triple headed Cerberus who warned outsiders of the danger of approaching too near the sacred precincts it was learned that a complete new set of officers was chosen from high muck-amuck down to rear inside bottle-holder. The knights also passed resolutions endorsing the Trans-mississippi exposition project and declar-ing in favor of the proposed new metro-politan depot at the foot of Farnam street. moned to meet at the Commercial club

these was the following, which presented his reasons for refusing to approve the bond of A. G. Edwards, city treasurer-elect:

I have the honor to notify you that I decline to approve the bond of A. G. Ed-wards, city treasurer-elect of the city of Omaha, in the sum of \$100,00, with the Fidelity and Deposit company of Baltimore as sole surety. is sole surety. This bond is not sufficient in amount, and

Fidelity and Deposit company of Baltimore as sole surety. This bond is not sufficient in amount, and in that respect does not conform to the requirements of section 10 of the city char-ter, or with section 3 of ordinance No. 2.381. I do not consider it safe to rely upon one surety on any bond. To do so would be to assume an unusual, unwarrantel and untecessary risk. The bond under consider-ation is for a very large amount, and for that reason it is more important that the security should be ample and not dependent entirely upon the continued solvency of one person or corporation. I consider the security should be ample and not dependent entirely upon the continued solvency of one person or corporation. I consider the security offered insufficient, for the reason that the amount of risk assumed by other com-panies of good standing in the same line of business, and wholly out of proportion to the resources and income of the guar-autor. I am informed that the following companies are the leading companies of this country and that their resources and the maximum of risk assumed by each, re-spectively, is as follows, viz: American Surety Company, New York-Capital, \$2,000,000; assets, over \$1,000,000; limit in any one risk, \$50,000. Guaranty Company of North America-Assets in United States, \$10,000, total as-sets, over \$2,000,000; limit, \$30,000. United States Guaranty Company, New York-Assets, \$2,300,000; limit, \$30,000. Tidelity and Casuality Company, New York-Assets of the Fidelity and Deposit company of Baltimore, \$1,300,000; risk as-sumed in this case, \$400,000. By the laws of New York and several other states companies of this nature are prohibited from assuming any single risk in excess of 10 per cent of their capital and surpus, and in addition, are required to deposit bonds as security for the policy holders within said states, respectively. Even the state of Maryland, its own domi-cile, requires of this company a guaranty deposit bonds as recurity for the policy holders within said states, respecti

had been an effort all along the line to pre-vent Edwards from qualifying. He took the ground that the fact that the binks were c m.

pelled to give bonds in order to obtain de-posits of city funds would protect the city from any considerable defalcation on the part of the city treasurer. No one else had anything to say and the

bond was approved over the veto. Yeas-Back, Bechel, Gordon, Holmes, Jacobsen, Jaynes, Kennard, Kment, Lemiy, Mercer, Prince, Saunders, Taylor, Thomas-14. Nays -Burkley, Cahn, Howell-3. Edwards was excused from voting. The mayor's veto of the resolution approv-

ing the bond was overruled by a like vote. AGAINST ALL SUCH BONDS.

The ordinance providing that the bond a guarantee company might be accepted for the city treasurer was also vetoed. In this connection the mayor said:

the city treasurer was also vetoed. In this connection the mayor said: I return herewith without my approval, an ordinance to amend section 3 of ordinance No. 2381, relating to city treasurer's bond. It is contrary to well lestable de public policy to rely solely upon one surety, no matter how responsible it may be. It has always been thepolicy, not only of the city of Omaha, but of Douglas county, and the state of Nebraska to provide against possible contingencies by requiring at least two sureties, and this city in case of its treasurer, has always required at least three. The reason for this is obvious. The city should not put uself in such position that the failure of one person or corporation would wipe out its entire security. This principle is recognized in this very ordi-nance. That part of section 3, which re-lates to security to be given by resident fresholders, requires the bond to be signed by not less than three such persors, and under it a bond executed by two of our wealthest clitzens, whose property is sit-uated within the jurisdiction of the state and worth several times the total assets of any bond company how doing business in the state, would have to be rejected. I can see no reason why a bond signed by one non-resident corporation, no matter how responsible it may be, should be accepted, and the chances taken of the city being left entirely without security in case of its fall-ure. The law on this subject ennoted by the

I learn from other reliable sources that its total premium receipts for the year 1894 were less than \$250,000, a sum much less than the amount of risk assumed in this one bond. Corporations, as well as individuals, who take unlimited chances for the purpose of securing a large volume of business usually meet disaster sconer or later. The American Casuality company of Baltimore, doing a similar business with a larger capital than is possessed by this company, failed within the past three years, and, so far, has not paid its policy holders any part of their just claims. Many Omaha citizens had policies in that company wen it failed. It has been stated that telegrams were received by the finance committee from bankers and business men in various parts of the country endorsing the company. I have looked these over very carefully and find that several of the telegrams are indefined that Nr. DIFFICULATY OF RECOVERY.

DIFFICULTY OF RECOVERY.

DIFFICULTY OF RECOVERY. It is a very unwise proceeding to rely upon the existing statutes of this state to protect the interests of the city in case it should become necessary to institute pro-ceedings upon any such bond. The law en-acted by the last legislature, upon the sub-ject of guaranty companies, is vicious, be-cause the interests of the public are not properly guarded. This statute copies, in part, an act of congress on the same sub-ject, but leaves out all of the provisions of that law, which were designed to protect the public. Among other things, the United States statute provides that a failure to pay judgments promptly shull work a for-feiture of the right of the corporation to do
