He had several hundred dollars with him, and on his return to Plainview he was met by John Albert, Omaha, who had been in Weston for five years and was doing a very prosperous business. LATER DEVELOPMENTS OF FIRE.

Mayor Cleaver Thinks the Fire Department Plenty Large Enough.

The scene of Friday night's fire was visited by large numbers of people yesterday. There were plenty of people who declared that Mayor Cleaver and his fire department policy were responsible for the enormous loss, but it was a noticeable fact that those who were loudest in their denunciations of the present policy of the council were members of the opposite political party. Mayor Cleaver was seen yesterday and had already heard, apparently, what hard things were being said about him, even before he was informed by the department of the large enough.

"The fire department is large enough," was his reply to a question. "Last night's developments have not changed my opinion in the least. At a time like that every citizen should be a member of the department, and any man who would refuse to lend his aid in such an emergency should be kicked out of town. The fellow who is doing the kicking belongs to a crowd that uses a man's life as a football, and who are over head and ears in debt. Now they stand off and roast us because we are merely trying to live within our income, instead of putting money into the pockets of the rich."

As long as I have any say in the matter there will not be any increase in the size of the fire department until the state of our finances is such that we can afford it.

Considerable doubt was expressed as to the ability of a fire department of any size to bring about a different result. All the fire companies in the city were in use, and if there was a weak point anywhere it was in the pressure furnished by the water works.
