and might kill her. Chapple wanted to know if my life was not insured in my wife's favor. He tried to got my wife to give him \$100 with which to buy clothes. He told her he had rich relatives in California."

Then the defendant took up the story of his actions after learning from his wife's lips the story of her infidelity. He told how he had spent the day on Saturday and of the occurrences of the following Sunday morning. He explained his visit to the residence of Mrs. Sammon, by saving that Mrs. dence of Mrs. Sammon, by saying that Mrs. Ish had left the house and he suspected that she had gone to see Chapple and he followed to see where she was going. He desied emphatically that he had met Mr. Lowrie that morning. He said that he had not seen Lowrie for three or four weeks prior to the time of the tragedy. This brought the recital down to the evening of Sunday, June 9, the hour when Chapple arrived at the cottage which he never left alive.

SAYS CHAPPLE FIRED FIRST. "I was coming over from my mother's barn," said Ish, "and saw Chapple standing at the porch. I asked him what he was doing and he said that he had come to fix the sewing machine. I said it was a funny time to fix the machine and he said if I did

not want it fixed that day he would come the next day and do the work.

"I don't know what I said to him. I walked into the house and Chapple followed me in. He walked into the bedroom, took tea ready in a few minutes. I saw there was no fine kindling in the basket. I started to the cellar for some kindling and had only gone a few steps when I heard the chairs.

I then fired at him, and shot until I thought my revolver was empty. I do not know how often he fired at me, and I do not know how often I shot at him. I was very

ENTERED SEVERAL DENIALS. Attorney Bradley, who was conducting the examination of the defendant, then presented the two revolvers that were taken from the Ish home on the night of the tragedy. Ish identified the revolver which he owned. He said it looked like his revolver and he thought it was the one which he had owned when he was employed as operator of the police and fire alarm system. The other re-volver, the nickel-plated one, he said he had never sean. It did not belong to himself or his wife and he had never seen it before. Then the attorney asked a number of direct questions. Had Ish and his wife ever con-spired to kill Chapple? Had Ish ever told his wife that she must kill Chapple by Tues-day night? Had he ever told her that if she did not kill Chapple he would never take her back to live with him as his wife? To all of

meeting and intimacy with Chapple she had become weak in mind and body and had not been herself. The state objected to the admission of this evidence, and a showing and offer was made by the defense and the court took it under advisement.

Mr. Slabaugh took up the cross-examina-tion of Ish and questioned him minutely on his conduct from the time of his wife's conression until the time of the tragedy, Takenoss-examination did not develop any taken perial flaws in the statement of the accused

He was going down the stairs when he heard the noise of a moving chair in the bedroom and turned back to see what was going on. He found Mrs. Ish sitting on Chapple's lap. Then the trouble commenced.

Slabaugh's cross-examination was rigid and minute, but it did not shake the statement made by 1sh in his direct examination. Failing to shake the testimony given by Mr. Ish in his statement of the tragedy and the causes leading up to it the state sought to impeach the witness and attacked his credibility. He was asked by Mr. Slabaugh about his visits to girls who were residents of "I don't know what I said to him. I walked into the bouse and Chapple followed me in.
