The street supervisor is authority for the statement that there is a place on Ridge street where there is likely to be an accident for which the city will be responsible. The city and council together have recently made a bill of \$100,000 for the intersection of Ridge with Canine street, and no fence has been put up to prevent the unwary from stepping off. In case of accident the city would be liable for the place inside the city limits.

It was an exceedingly pleasant sight to Manager Alton of the New Bohony last night to see about ninety seats in the theater filled by a highly pleased individual, and it was also the source of some satisfaction to the Woodward Theater company to receive the rather demonstrative expression of approval of their work. The opening bill for their week's engagement was the strong and simple five-act drama, "The Two Sisters," and it seemed to be just exactly what the people wanted, rendered doubly pleasant by the fact that it only cost one-tenth the price of similar attractions on former occasions. This evening the bill will be "The Millionaire," the piece the company traveled with and made one night stands during the past season. It is a strong play, in four acts, with high scenery and a calcium light effects. Admission to the box seats of the house will only be 10 cents, and seats on sale at 9 o'clock this morning.

HOW TO TREAT LUNG TROUBLES

Breathing Balm and Healing "Straight Into the Diseased Air Tubes," Instead of Roundabout "Doctoring Through the Trachea—Lasting Cures by Pleasant Antiseptic Inhalation.

There can be no adequate and effectual medication of diseased bronchial tubes existing by the method practiced by Drs. Copeland and Shepard. The healing vapors which they administer by inhalation are as balm and ointment poured from a cup directly upon the fevered bronchia. Their strong remedial virtues are not wasted and lost by being uselessly diffused throughout the entire anatomy, but reach the place of disease in their abundance and entirety—in their full curative potency—like a contingent salvo upon an ugly wound. Drs. Copeland and Shepard's easy and complete mastery of bronchial catarrh is exciting deep, general interest and drawing great numbers of sufferers daily to their offices. It is simply because the method they employ is the only method by which the disease can be directly medicated with the freedom, fullness, potency and abundance requisite to its radical and permanent mastery.

D. J. Dineen, 1623 Fourth Avenue, Council
