> asked that the time should be extended until ordinance making the additions and extending the time as requested. This ordinance making his opening statement of what he was never accepted by the company. About was never accepte) by the company. About three months after its passage the company's agents asked that they might be allowed to file their acceptance, claiming they had for-getten to do so within the time fixed by

The work was commenced yesterday morning at the corner of Fourteenth street and Union avenue and laid both ways, with the intention of meeting the transfer at the north. The laying of ties and the hammer ing of spikes went along merrily all day long, and it was not until well along in the afternoon that the city authorities awoke to the fact that something was going on. Then City Attorney Hazelton went to his office and drew up a petition for a writ of injunc-tion to restrain the work of track laying. In it he slieged that the terminal people were threatening to lay their tracks the entire length of Union avenue, without any authority of law, thereby making the street useless for public travel. He presented the petition to Judge Smith, who issued a re-straining order.

Deputy Sheriff Hooker took the order and

hunted for Superintendent Harris, but he in Omaha. He accordingly served it on John J. Sullivan, the foreman of the track laying gang. At the same time the city attorney notified A. S. Potter at the company's office in Omaha that he had begun the action. Mr. Potter agreed that no further work should be done. As a matter of fact, the work was about completed already. When the order was served a gang of men was unloading a car of rails at the corner of Union and Fifth avenues. The work had been finished between Fifth avenue and the transfer, and it would have been the work of only a few hours to carry it on to

Broadway. are two theories upon which this There are two theories upon which this sudden jump into activity is explained by the knowing ones. One is that the Illinois Central Railway company, which has long been looking toward Council Bluffs and Omaha, is back of the scheme. It is re-ported on good authority that during the last few days there has been a transfer of a large amount of real estate north of Broadway, near the Northwestern depot, to the Terminal Railway company, and it is supposed this is to be used as a depot site by the Illineis Central. This company, it is said. has recently increased its capitalization by issuing stock to the amount of \$10,000,000, which seems to indicate that some move is intended, and why not in the direction of from Fort Dedge to Council Bluffs?

The second theory is based upon the fact that in January a decision of the United States supreme court in the case involving the bridge contract between the Union Pa-cific Railway company on the one hand and the Chicago, Milwaukee & St. Paul on the other is expected. Several years ago, during the Adams administration of the Union Pacific, a contract was entered into for a term of 999 years, by which the Milwaukee and Rock Island roads were granted the use of the Union Pacific bridgs at this point. When

Pacific suit was begun in the supreme court to annul the contract. The supposition is that the Rock Island and Milwankee people have had a "hunch" that the decision will be against them, and are consequently on the lockout for some other way of getting cross the river.

The Bridge and Terminal company has

endeavoring to induce the roads to transfer their patronage from the Union Pacific, but so far has been unsuccessful. A decision of the supreme court in favor of the Union Pacific would be pie for the Ter-minal people, and a track connecting the Rock Island and Milwaukee tracks with the Terminal bridge would come in very handy.
The sudden stopping of the work by legal measures was a great surprise to the con pany. As one of the men connected with said last evening. "We had not the slightest idea but that we were doing precisely what the city wanted us to. If we had been trying to steal a march we should probably have done our work on Sunday, when we could not have been enjoined. The understanding we had several months ago was that the coun-cil were willing to have us proceed with the work and were, in fact, anxious for us to push it as hard as possible."

The working people who thought they saw a chance to earn a dollar were probably more downcast over the sudden stop than were the company, for it was probably the first chance some of them had had to work for wages for a good many montes.

REV. F. T. PIERSON IS ORDAINED. Well Known Evangelist Becomes

Member of the Presbytery. There was a meeting of the Council Bluffs presbyt ry yesterday afternoon at Dr. Stephen Phelps' study in the First Presbyterian church. The chief item of business for which t was called was the examination of Rev. morning the scaled verdict in the \$19,000 notable work in the city last summ r, as a damage suit of Kimbali Bros. against Deere, candidate for ordination to the ministry. The following clergymen and laymen were present: Dr. A. L. Sarchet, Council Bluffs, presiding officer; Rev. Joshua Riale, Hardin township; W. H. Snyder, Missouri Valley, W. W. Harsha, D. D. Li. D. Omaha; R.y.

F. Tongo, Omaha; Rev. Stephen Phelps, Council Bluffs; J. H. Westcott, F. E. Hoagland and D. H. Huston, all of Council Bluffs. Mr. Pierson was examined as to experi-mental religion, motives for desiring to en-ter the ministry, languages, theology, church history and church government, and being found up to the required standard in all of them, was ordained by the laying on of hands by the presbytery, while Dr. Phelps made the ordination prayer. The constitutional questions were asked by Dr. Sarchet and Mr. Plerson was enrolled as a weaker.

tional questions were asked by Dr. Sarchet and Mr. Pierson was enrolled as a member of the Council Bluffs presbytery. His intention is to go on with his evangelistic work during the winter and spring, and he wants to become the pastor of some church, probably in the east, for the summer.

The announcement that Dr. A. L. Sarchet had resigned the pastorate of the Second Presbyterian church of this city to accept a call from the church in Griswold, Casseounty, came as a great surprise to those present, inasmuch as there was no idea of his having any such plan. His change of pashaving any such plan. His change of pas-torate was allowed by the presbytery. This puts Dr. Sarchet at the head of the strongest

church, next to the First church in this city, in the entire presbytery.

The church at Guthrie Center presented a call to Rev. C. Whetzel, who was formerly pastor at Avoca, but left that place some years ago to take up his residence in Ohio, where he has been preaching.

Rev. B. C. Swauk, presbyterian Sunday school missionary, with headquarters at Shelby, was disminsed to go to the Iowa City presbytery, where he takes charge of a

State Board's Jurisdiction. The trial of F. D. Parker, the disciple of steopathy," was pulled off yesterday afternoon in Justice Vien's court, and in view of some of the developments, the language describing the event. The little court room any work done, excepting the filling of the avenue, and then the representatives of the company came before the city council and the trial was set for yesterday.

and his trial was set for yesterday and his trial was set for yest what the law provided with reference to the issuance of permits to physicians, when Tom Pilling, an old man who has gained some thing of a reputation for bing irrepressible on occasions, piped forth from the jury box 'Was it a crime for Jesus Christ to heal on the streets of Jerusalem without a per-mit from the State Board of Health?" This sally brought a round of applause from Parker's sympathizers in the back of

'That's it," roared Tinley, with the angry "That's it," roared Tinley, with the angry blood rushing to his face, and making it receimble a boiled lobster; "bring on your crowd of hooflums and let 'em cheer. If Jesus Christ should come into town today and set up a raloon on Broadway it would be a crime, just as much as for any one else."

Justice Vien rapped for order, which came when it got ready. John T. Stewart was the first witness introduced by the state. He was anything but a willing witness, for he was a patient of Parker's. From the first word he uttered it was evident that a row would be shortly forthcoming, unless more oli than Vien's kerosone lamps contained should than Vien's kerosene lamps contained should be on hand to sooth the troubled waters. He described Parker's method of treatment. but hated to go into all the details. Tinley continually prodded him in a way that was most unaccustomed to the wealthy packer, and at last got him star ed. Suddenly Stewar went into the subject more deeply than Tin-ley wanted, and the latter tried to stop him with a series of "heres." The list "here" was a loud growl, and Stewart was angry

in a second.
"Don't you rear at me," shouted Stewart jumping out of his seat and presenting a face livid with rage, within a few inches of Tinley's face; "don't you roar at me, or I'll knock your head off, — you."

Justice Vien tried to be heard, but it was of no use for a few seconds. Court, witness, and atterneys were all talking at once. Attorney Flickinger, who represented the defendant, thought that in view of Stewart's delicate health, he ought to be protected from Tinley's insults, and Tinley declared he had not meant to insult the witness.
"No, and I'll see that you don't," inhe had not meant to insult the witness.
"No, and I'll see that you don't," interrupted Charles Stewart, the stalwart son of the witness, swinging a large cane which he held in his hand, within a few feet of Tipley's face. "I am as large a man as you," retorted

Tinley, edging up to him, "and my muscles defy yours.

onstrations in court. There was no evidence that Parker had

ever held himself out as a healer, or that he

State Superintendent Sabin's Efforts to Relieve the Pressure Only Result in Greatly Increased Attendance.

DES MOINES, In., Dec. 30.-(Special Telethe sign was pulled down, the stream of was crowded to the doors with interested gram.)-The annual meeting of the Iowa State men anxious for a few days' employment spectators, conspicuous among whom were Terchers' association will open a three days' kept coming for some time. It soon became known that the intention of the company was to lay about 4,300 feet of track on Union avenue, running from Breadway to the Union Pacific transfer. More than a year ago the company was granted a right of way along the full extent of Union avenue, on condition that \$75,000 abould be given by July, 1895, in improvement. Last summer wore away without seeing any track laid or any work done, excepting the filling of the uous contest on the part of some of the weaker schools which it is proposed to deny recognition.

lowa has 26,000 teachers and they are all eligible to membership in the association, although of course only a limit d number gatherings have grown to such large pro-portions that they are becoming unwieldy, although divided into departments and sections. In order to rell ve the strain on the state association, State Superintendent oblin last year inaugurated the plan of helding each year four educational associa-tions. Each was attended by nearly 1,000 teachers and yet the state meeting was last year still larger than ever before. Four meetings have been held again this year with equal success, and the state sup rintendent is of the opinion that these gatherings. instead of relieving the state association, actually stimulate the teachers to attend, and it is a query in the mind of the officers of the association what to do with the great number of teachers who will attend this year. The association is divided into four lepartments: College and university, second-ary, county superintendents and elementary and graded depirtments. These are divided into sections, five in all, as follows: Superintendents and principals, penmanship and drawing, primary. Iowa library and school directors. There will also be conducted twilve round tables under efficient leader ship. These various sections and depart-ments will be in session at the same time in various parts of the city, and the teachers will have an opportunity to attend such

COLDS AND GRIP ARE EPIDEMIC

Nature of the Malady Now Prevalent-In Many Cases Superinduced by Catarehal Infection-Secessity of Prompt Attention

Half the people in Omaha are just now a well known eitigen of means and standcezing and running at the nose, or hawking, coughing and spitting with more or less fury. Some are drooping in the first languid half-sickness of a bad cold. Others are seriously ill from neglected cold, half dead with headache, earache, lungache, b-neache, due to latent cataerhal poiso suddenly awakened from cold and snake like sleep to victous and destructive activity. The other half of the community are

emplaining of chills, followed by pain and misery in the head and by pain und sore hess in the muscles. They show a quick feverish pulse and a high feverish tem perature. They have a cough that is in cessant and distressing, with nervous sick-ness and cold dejection like the taste of death. They have the grip. That is to say, about half the population is affected with catarrh, and the other half

That is to say, about half the population is affected with catarrh, and the other half by the grip. That isn't all. Half of those who are sick with the grip have catarrh, and half of those long affected by catarrh and half of those long affected by catarrh are down with the grip or quivering in its first premonotory miseries.

The fact is catarrh and the grip are sister diseases. They are intensely sympathetic. Each involves or invites the other Catarrh induces a half poisoned condition that makes the lungs, kindeys, etc., a quick prey to grip. An attack of grip lets down the tone of the system to the minimum of vitality and enables some dormain catarrh to subject the entire anatomy to sudden and deadly invasion.

To those who droud the grip, not for the miscries of influenza proper but for the calamitous after-claps of Bright's disease, consumption or hopeless physical debility, good and timely advice would seem to be, look to your catarrh trouble. Act precisely as you would if you had swallowed an ounce of poison by mistake. See the specialist at once.
