

JRS. BARRETT SENTENCED

Judge Lenient with Her on Account of Her Age. The county commissioners held a short session as a committee of the whole yesterday morning to confer with the county judge on the matter of retrenchment. Judge Baxter informed the board that he had only five clerks in his office, whereas his predecessor had nine. He also said that the salaries paid in his office were less than under former administration. The judge took considerable pride in explaining to the board a new system of recording which he had introduced in his office. He said he had procured the passage by the last legislature of a bill providing for the consolidation of the entry, estate and probate books, and had adopted a uniform system of blanks for use in all cases relating to probate matters. A large record book had also been prepared in which these same forms were bound, and the work of recording documents relating to probate matters was greatly simplified, enabling him to dispense with the services of one clerk, at a saving of \$500 per annum. He also showed that the record books had been prepared in such a way that if any other office in the building and he did not see where any reduction could be made.

THE IS LET OFF WITH A LIGHT FINE

There was nothing of any moment before Judge Shiras yesterday, though a lot of normal entries were made and arrangements perfected for the commencement of jury matters this morning. John K. Irwin and John Hughbanks, the enterprising Keith county ranchers, were before Judge Dundy yesterday to hear the information charging them with stealing coal from the Union Pacific cars. Both men pleaded guilty to dumping a ton or so of coal from the cars, and both denied hauling it away or having any knowledge of its disappearance. When asked if they desired a lawyer to defend them, they said they did not think it was necessary as they were guilty and did not want to put the government to any more expense than could be helped. This magnanimous consideration for Uncle Sam was heartily appreciated by the judge, and he adjourned the court to sit at 10 o'clock, when they were fined \$10 and costs and placed in the marshal's custody for six weeks.

THE SULLIVAN PLEADED GUILTY TO NOT POSTING HIS LIQUOR LICENSE IN HIS PLACE AND WAS ASSESSED A FINE OF \$25 AND COSTS.

Mrs. Ellen Barrett was the next to mount the rack. She is the old woman convicted last week of having counterfeited money in her possession, while her son Frank was convicted of counterfeiting. Mrs. Barrett is about 70 years of age, and her case, coupled with that of her son, constitutes a pretty dark chapter in criminal annals. Several years ago two of her sons, in holding up a street car in Minneapolis, murdered the conductor. After the commission of the crime, Mike, the older of the two, came to this city and secured a job as laborer on the street. He was recognized by an old acquaintance who gave him away to the police and he was arrested and taken back to Minneapolis. Mike's arrest led to the permanent residence on South Twentieth street, in this city, and last week they were convicted in the federal court. Mrs. Barrett's extreme age and recommendations from the jury, Judge Dundy gave her the lightest sentence in his power, \$25 and costs and two months in the county jail. The judge remarked that a woman as old as Mrs. Barrett would have to be very bad indeed before he could send her to the penitentiary.

THIS MORNING FRANK BARRETT WILL BE UP FOR SENTENCE, AS WILL ALSO E. BLORE, RAILROAD CLERK, CONVICTED OF ROBBERY AND EMBEZZLEMENT, AND MIKE TERNEY, THE O'NEILL COUNTERFEITER.

TROUBLED WITH SICK HEADACHES.

"I cheerfully recommend Hood's Pills, as I have found them a cure for sick headache. I was troubled with sick headache for years, but since taking Hood's Pills I have not had them at all." Mrs. Emily Pfeiffer, 2940 Cassell st., Omaha, Neb.

HOOD'S PILLS CURE INDIGESTION, BILIOUSNESS, HYDREN BROS.

Why take chances on auction stuff when you can buy guaranteed watches and jewelry on regular sales at such prices as these? We will sell you genuine Elgin or Waltham watches, stem wind and set, compensation balance, fine silver cases, \$2.98. Gents' 11-jeweled, nickel, Springfield watches, stem wind and set, fine silver cases, \$3.98; gents' genuine Elgin or Waltham, stem wind and set watches, in gold filled, open face case, warranted to wear 20 years; watch complete, \$6.45. Ladies' fine Elgin or Waltham stem wind and set solid silver watches, \$4.98. EGGS, 124c; BUTTER, 9c.

THE WEATHER HAS BEEN VERY FINE, CONSEQUENTLY EGGS HAVE BEEN POURING IN.

We will sell you guaranteed fresh eggs at 12c; fresh country butter, 9c and 11c; best sweet country butter, 12c and 15c; fancy sweet oranges, all you want, at 10c a dozen.

HAYDEN BROS., LEADERS IN EVERYTHING.

6 P. M. ELECTRIC LIGHTED, STEAM HEATED, SOLD EVERYWHERE. Omaha, Chicago, Milwaukee.

F. A. Nash, general agent; George Hayden, city passenger agent.

GOLD FIELDS.

Union Pacific is the direct route to CRIPPLE CREEK, Colo., and MERCUR GOLD FIELDS, Utah; also the short line to the important mining camps throughout the west. For full particulars call.

A. C. DUNN, CITY PASSENGER AND TICKET AGENT.

1302 Farnam Street, Omaha, Neb.

TALKS FOR HIS HOME CITY.

Wants the Democratic Convention at Ohio's Metropolis. Thomas W. Paxton, president of the Edgewood Distilling company of Cincinnati, and one of the most prominent Democrats of that city, has been spending a few days in Omaha looking after real estate interests here.

He was asked his opinion regarding the location of the coming democratic national convention, and in reply said that he thought the Cincinnati was in the race and was in the race to win. He said that it was one of the most central cities of the country and could handle the crowds. "We have raised \$50,000," Mr. Paxton said, "and our grand music hall has been recently renovated and enlarged. It will seat about 3,000 persons and would hold many more. We have sent a delegation to Washington to urge our claims and shall look for good results. After Cincinnati I think St. Louis is the best place, but the fact that it already has secured one national convention will doubtless operate against its chances. New York is decidedly too far east, and its selection would give but little satisfaction to the democrats at large."

IT HAS GROWN UP WITH THE COUNTRY FOR forty years. Cook's Extra Dry Imperial Champagne has been a household word.

King Solomon's Notion.

That "there is nothing new under the sun" is not always conveyed the truth. Especially is this true as regards the new composite cars now operated daily via the Chicago, Union Pacific and Northwestern Line between Salt Lake City and Chicago.

These handsome Buffet Smoking and Library Cars are entirely new throughout, of latest design, contain all modern improvements, and are well supplied with writing material, the leading daily papers, illustrated periodicals, magazines, etc.

The fact that these cars run daily via "The Overland Limited" and that the Union Pacific was the line west of Chicago to inaugurate this service should commend itself to all.

See that your tickets read via "The Overland Route."

COUNTY COMMISSIONERS MEET.

County Judge Opposed to Retrenchment in His Office. The county commissioners held a short session as a committee of the whole yesterday morning to confer with the county judge on the matter of retrenchment. Judge Baxter informed the board that he had only five clerks in his office, whereas his predecessor had nine. He also said that the salaries paid in his office were less than under former administration. The judge took considerable pride in explaining to the board a new system of recording which he had introduced in his office. He said he had procured the passage by the last legislature of a bill providing for the consolidation of the entry, estate and probate books, and had adopted a uniform system of blanks for use in all cases relating to probate matters. A large record book had also been prepared in which these same forms were bound, and the work of recording documents relating to probate matters was greatly simplified, enabling him to dispense with the services of one clerk, at a saving of \$500 per annum. He also showed that the record books had been prepared in such a way that if any other office in the building and he did not see where any reduction could be made.

THE BUSINESS SESSION OF THE BOARD CONTINUED FOR FURNISHING STATIONERY, SUPPLIES, PRINTING, BOOKS, ETC., WERE AWARDED IN ACCORDANCE WITH THE REPORT OF THE FINANCE COMMITTEE.

The report stated that the board had awarded the contracts as it recommended the county would save 13 per cent as compared with last year.

THE BOARD OF ROBERT W. PATRICK AS JUSTICE OF THE PEACE FOR WEST OMAHA PRECINCT.

The sum of \$500, with H. W. Yates and Lincoln. The report stated that the board had awarded the contracts as it recommended the county would save 13 per cent as compared with last year.

THE COUNTY TREASURER SUBMITTED HIS QUARTERLY REPORT, SHOWING FEES COLLECTED FOR THE LAST QUARTER OF 1915, AND UP TO AND INCLUDING JANUARY 8, 1916, AMOUNTING TO \$337.71.

Sitting as a license board, the commissioners heard evidence on the protests filed by N. P. Fell, business manager of The World-Herald, against granting licenses to Staack, Ruser, Mies, Vollstedt and Koch, five saloon keepers outside the city limits. The protest was filed before the old board, the protests were bunched and evidence relating to all cases was introduced.

N. P. FELL, THE PROTESTANT, AND E. M. STAAK, CIRCULATOR FOR THE BEER, WERE THE ONLY WITNESSES EXAMINED AT THE MORNING SESSION.

The evidence was the same as that produced before the Board of Police and Safety committee, and that there was no such paper as the Daily World-Herald, and the circulation of The Evening News was larger than that of the Morning World-Herald.

THE BEER WAS REPRESENTED BY E. W. SIMERAL, AND G. M. HITCHECOCK APPEARED FOR THE WORLD-HERALD.

Several legal skirmishes occurred over the admission of evidence and Chairman Jenkins attempted to decide the matter. But Stenberg said the board was sitting as a court and a majority of the members would decide any point that might be raised. It was finally decided to admit all evidence which would throw any light on the question of the circulation of both papers.

AT THE AFTERNOON SESSION THE INTRODUCTION OF EVIDENCE ON THE PROTESTANT WAS CONTINUED. WITNESSES WERE CALLED AND TESTIFIED THAT THEY HAD TALKED WITH FOUR OF THE SALOON KEEPERS AGAINST WHOM PROTESTS HAD BEEN FILED.

Stenberg said that he had talked with four of the saloon keepers against whom protests had been filed. He said that they had all admitted that they had talked with the saloon keepers against whom protests had been filed. He said that they had all admitted that they had talked with the saloon keepers against whom protests had been filed.

THIS COMPLETED THE EVIDENCE FOR THE PROTESTANT AND MR. HITCHECOCK TOOK THE STAND.

Stenberg said that the morning and evening editions of the World-Herald constituted one paper, and Staack testified that they advertised in good faith.

THIS COMPLETED THE TESTIMONY AND THE ARGUMENTS WERE BEGUN. MR. SIMERAL ARGUED THAT THE SEVERAL EDITIONS OF A NEWSPAPER CANNOT BE CONSIDERED AS ONE PAPER UNDER THE DECISIONS OF THE SUPREME COURT.

He read the reports of the supreme court in support of his position. He also alleged bad faith on the part of the advertisers.

MR. HITCHECOCK PREFACED HIS ARGUMENT BY SAYING THAT HE WANTED TO SETTLE THE MATTER BY THE BOARD OF POLICE AND SAFETY.

He said that the morning and evening editions constituted one paper, and that the combined circulation of the two papers was larger than that of the Evening News.

AT THE CONCLUSION OF THE ARGUMENTS, COMMISSIONER STENBERG ANNOUNCED THAT HE WOULD CALL A SPECIAL SESSION TO CONSIDER THE MATTER.

The motion received no second and Stenberg read a resolution to the effect that the saloon keepers against which protests had been made had advertised in the World-Herald in good faith, and finding that the World-Herald was the paper having the largest circulation in the county, the resolution further stated that the board overruled the protests and ordered licenses to issue to the saloon keepers in question.

SUITS IN THE DISTRICT COURT.

Courland Beach Association Alleges a Breach of Contract. Suits continue to multiply in the county court against Gatch & Lauman, the latest being that of the Peoria Pottery company for \$327.27, the M. S. Bonediet Manufacturing company for \$463.35 and Baws & Dotter for \$750.50.

THE SUITS COMMENCED WERE THE EASTMAN KODAK COMPANY AGAINST E. HEYN & CO. FOR \$500.46, AND ALLAN BROS. AGAINST JAMES A. DALZIEL FOR \$222.96.

The Courland Beach association has brought suit against the Pette & George company to recover \$68.18, alleged to be due under an agreement to share the expense of grading a road to the beach.

NATIONAL DAIRY ASSOCIATION.

CHICAGO, Jan. 15.—At today's session of the third annual meeting of the National Dairy Association the annual reports of the president, secretary and treasurer were read. Following these Prof. A. Henry of the Wisconsin experiment station delivered an address on the need of immediate legislation for the protection of the cheese industry.

MADE CHARGES AGAINST WHOLESALERS.

KANSAS CITY, Jan. 15.—Delegates to the annual convention of the Wholesale Implement and Vehicle Dealers' association spent the entire morning in excoriated the wholesale men for their failure to implement the contract, avoidance of obligations and other wrongs. A great many of the charges were pushed through the board of directors. The grievance committee will at once take action in these matters. A thorough investigation will be made. The afternoon was spent in address making. Officers will be elected tomorrow.

LIABILITIES RUN INTO THE MILLIONS.

PHILADELPHIA, Jan. 15.—Was stated today on good authority that the liabilities of Keen, Sutterly & Co., leather dealers, whose failure was announced on Saturday, will reach the sum of \$1,000,000. Nothing can be learned of the assets. It is stated further that Frederick W. Sutterly, the head of the enterprise, has left the city today before the assignment was recorded. The company was a tobacco merchant, who failed at the same time, and that neither has since been heard from. The latter failure is considerably agitated over the situation.

Sudden change of weather causes throat disease. There is no more effective remedy for Coughs, Colds, etc., than Brown's Bronchial Trochoc. Sold only in boxes. Price 25 cts.

FAMILY LEFT DESTITUTE

Sarotzka's Wife and Children in Pitiable Condition. The committee as announced by President Saunders of the city council Tuesday night favored some amendments to a few dispositive and conciliatory amendments. It had been suspected that Taylor would get the committee on judiciary. Kennard's elevation to the head of the finance committee was not expected outside of those few who were familiar with the intentions of the appointing power. It was understood that Kennard had been closely connected with the work incident to the treasury defalcation was cited as a reason why he should be selected to continue the work. It had also been the impression that Kennard might be disposed to break away from the combine too often and his position at the head of the most important committee is relied on to keep him in line.

APPEARANCE IN POLICE COURT YESTERDAY

Mother and Four Little Ones Gather to Tell How a Husband and Father Was Killed by Hans Hermansen. By reason of a misunderstanding many of the witnesses in the case of Hans Hermansen, charged with killing John Sarotzka in a saloon fight some time ago, appeared in a saloon fight yesterday. It was understood by them that the preliminary hearing of Hermansen was to be held, whereas the date of the hearing is Friday at 2 o'clock in the afternoon.

Among the number was the wife of the deceased and her four little children, a group which attracted the attention of every eye in the court room on account of the poverty signs of distress which they showed. The mother was pale from worry, but sympathy was attracted especially from the poverty of her clothing. She was arrayed in frayed and torn garments which appeared to be utterly insufficient to protect her from the cold and damp atmosphere. The appearance of her children, the eldest 12 and the youngest 2 years, interested this sympathy. Their clothing consisted of garments which appeared to be the cast-off apparel of other children who had outgrown them. Their shoes, as well as those of the mother, were worn, showing great holes through which the snow and slush had entered. The mother was unable to speak English, but she was able to converse in the latter language, as it appears they have attended school. Through them it was discovered that the family were absolutely without means of support and were depending upon the county for whatever they were able to obtain.

"Since father was killed," said the oldest child, a bright little girl, who interpreted for her mother, "I can't do anything, everything we get from the county commissioners. We live in a little house on Seventh street between Leavenworth and Burley streets. I don't know how long we will stay there or what will become of us, because the landlord has asked for the two months rent which he must have. The rest of the place is \$4 a month.

"We have an older brother, who is in Chicago at the present time. He went there to try to get some money, but he can't get any here. He has written us to help us along, but we can't send him any money, because we have not even enough to work anyway, because he has some hands which will not heal.

"You can see in what condition we are," continued the little girl as she pointed to the clothing and shoes of her little brother and two sisters who were standing by. "I don't know what will become of us, but the sympathy of the bystanders, and although none of them appeared to be in a condition to give us any help, a little money in their possession, the first they have had for a considerable length of time.

EVIDENCE WAS AGAINST HIM.

Neil Allen, who has been in police court on charges without number, was up again before Judge Gordon yesterday. On this occasion he answered to the charge of larceny. The complainant was a butcher named Allen, who had been in the store for 10 cents worth of beefsteak, and while making the purchase returned 20 cents worth of pork.

"I didn't steal that meat, yet honor," said Allen, in explanation. "I met or fren on Sixteenth street with a beefsteak man, and he got me into a house in South Omaha. I asked him, 'What's the matter with me takin' some of that?' and I took the piece, which he had just meat. I don't want to do his man's store and he told I stole it. Dat's de way it wuz."

"How is it that you offered to pay for the meat when the owner found it in your pocket?" asked the court.

"Well I hev bin in perlice court so often that I taat dat fat wuz de best way out of it," answered Allen.

NEW MAN AT THE WHEEL.

The new city prosecutor, who was appointed by the council Tuesday night, William Bullock TenEyck, entered upon the discharge of his duties at the police court yesterday. He filed his first case, which was a \$1000 promptly, but he has not as yet been initiated in his new position. The ceremony is expected to occupy several days.

NOTES FROM THE STATION.

It has been reported to the police that a bar at 611 South Thirteenth street, was closed Tuesday night and some barman shot.

The case against Dick Burdick, charged with running a disorderly house in the Third ward, has been dismissed by Police Judge Gordon. He showed that he had been in the house, but he had not run the place this year.

Mrs. Jennie Stringfellow of Oskaloosa, Ia., has asked the police to look for her husband, from whom she has been separated several months ago from the Aetna house. The woman says that she and her children are in destitute circumstances.

WORK OF THE CITY COUNCIL.

Documents Which City Fathers Handled During the Year. City Clerk Higby has prepared his annual report. It includes some interesting statistics in regard to the work of the city council during 1915. There were sixty-three regular council meetings, with an average attendance of fifteen members; twenty-three special meetings, with an average attendance of thirteen and five meetings as a board of equalization.

The number of resolutions introduced during the year aggregated 1,035. There were 2,292 communications and reports of officers considered by the council, of which 216 came from the mayor, 157 from the clerk, 355 from the Board of Public Works and 144 from the city engineer. Of the 341 ordinances which were introduced, 269 were passed. The total documents of all kinds considered during the year aggregated 1,192 pages for the ordinance record, and these, with the minutes of the Board of Equalization, occupied a total of 3,476 pages. The receipts from licenses which passed through the clerk's office aggregated \$127,763.

THEY ALL WANT MORE SNOW.

At all of the railroad headquarters yesterday snow was reported in light quantities along the lines. Freightmen are well pleased, but are hoping for more of the good thing. A hard snow, it is said, would have the effect of setting in motion much of the grain, which the farmers are now holding back for an increase in prices. Division Freight Agent Lane of the Union Pacific road said yesterday: "The grain shipments for the corresponding period for the last two years have been extremely light, but the shipments this year were even lighter than usual. Moisture, and an abundance of it, is needed badly all over, and the freight men will be pleased to see all the snow that can possibly fall during the next month. They want snow, also, because it will create a demand for coal, the shipments of which have been lighter than for several seasons."

PLACES ON THE COMMITTEES.

Prizes Given Out by President Saunders of the Council. The committees as announced by President Saunders of the city council Tuesday night favored some amendments to a few dispositive and conciliatory amendments. It had been suspected that Taylor would get the committee on judiciary. Kennard's elevation to the head of the finance committee was not expected outside of those few who were familiar with the intentions of the appointing power. It was understood that Kennard had been closely connected with the work incident to the treasury defalcation was cited as a reason why he should be selected to continue the work. It had also been the impression that Kennard might be disposed to break away from the combine too often and his position at the head of the most important committee is relied on to keep him in line.

THE NEW MEMBERS FARED FAIRLY WELL IN THE MATTER OF COMMITTEES.

Allen drew a position on the sewerage and railways, which is considered one of the most desirable places. He also has a place on streets, alleys and boulevards and on paving, curbing and guttering. Bingham drew a position on fire and water. Burnmaster gets fire and water, which is one of the committees which new members are anxious to get. He has a position on sewerage and gutters, curbing and guttering. Bingham was disappointed in his ambition to serve at the head of the finance committee and has to be content with sewerage and third place on finance and gas and electric lights. The places on the Board of Health committees both go to new members, Christie and Benavente, who were elected to the board.

Prince succeeds Mercer as chairman of sidewalks and bridges, while Mercer draws the chairmanship of the committee on claims. The remainder of the committees were given to old members. Christie and Benavente were given the committee on printing, and Knecht, who was chairman of grades and grading last year, gets police and telephone. Allen and Jaynes and Lemly retain their positions at the head of paving, curbing and guttering, curbing and guttering, and electric lights, respectively.

THE OLD COUNCIL DID NOT CLEAN UP ITS BUSINESS AS COMPLETELY AS WAS THE CASE A YEAR AGO.

The cost of the department was practically eradicated the disease. In conclusion, Dr. Saville asks for additional funds. He wants money with which to procure analyses of the cost of the department. He also recommends that the bills for the removal of dead animals and the hospital bills should be paid out of the general fund and not out of the health appropriation.

THE COST OF THE DEPARTMENT FOR 1916 IS ESTIMATED AS FOLLOWS:

Salaries ..... \$7,100  
Printing, etc. .... 2,000  
Antiseptics and disinfectants ..... 500  
Examinations and analyses ..... 500  
Miscellaneous ..... 1,200  
Total ..... \$11,300

Dead animals applied for permission to haul from anywhere they pleased as long as they obeyed the regulations of the Board of Health. Mr. Macdonald objected to any modification of the previous action on the ground that there was nothing to be gained by it, as the gardeners were getting all the manure now. The matter was referred to the board and the city attorney was called in. The arguments were all repeated for his education, and then the attorney for Macdonald arrived and the whole process was repeated a little time. By this time every one showed indications of a weary feeling, and the board referred the whole matter to the gardeners and the city attorney was instructed to get together if they could.

KNOWNS TOWN BURNED OUT.

PILOT GROVE, Jan. 15.—The entire business portion of Pleasant Green, Cooper county, was destroyed by fire at an early hour this morning. The approximate loss was \$20,000. Insurance about \$7,000; origin of fire unknown.

FEW PEOPLE THERE TO HEAR HIM.

A. P. A. Lecturer Failed to Draw the Crowd. A "silver tongued orator" from Michigan, as announced by hand bills, addressed a small audience at Washington hall Tuesday night on "The Mission of the A. P. A."

The speaker was introduced by Judge Scott, who stated that he belonged to the order of which the speaker was representative, and that he had no apologies to make on that account.

The speaker requested the few people present to be present at the next meeting. He stated that Omaha had the reputation in the east of being a very patriotic city along the lines of A. P. A. men, but that among the lines of the audience that greeted him he had his doubts about that subject. He said that of all the organizations in the United States the one to which he belonged was the most maligned and misrepresented, and that he considered it his duty to set the minds of the people right on the subject and to maintain the honor of the order. The speaker announced that he considered most of the societies and orders of the Catholic church as detrimental to the march of civilization and the maintenance of a patriotic feeling among its members. At this point the speaker discovered a Bes representative in the audience, and contacted the great of his discourse to reading the newspapers of the city for not publishing the date of his lecture.

HOWELL INSTALLED IN OFFICE.

Engineer Rosewater Turned the Business Over to His Successor. City Engineer Rosewater turned over his office to his successor R. B. Howell yesterday. Mr. Rosewater stated that there had been no time in several years when the office could be transferred with so much facility. All the plans of assessment for special taxes were completed, no important public works were under way, and all the correspondence of the office had been carefully inventoried so his successor would have clear sailing.

City Attorney Connell, License Inspector Hurst and Superintendent Mathieson succeeded themselves without ceremony. Assistant City Attorney Gerlach still occupies his office pending the qualification of his successor. Judge Estelle will probably file his bond some time during the week, so that it can be approved by the council at the next meeting.

AWARDED HIGHEST HONORS—WORLD'S FAIR, DR. ROSEWATER.

Dr. Rosewater was awarded the highest honors of the World's Fair, Chicago, 1893. He was awarded a gold medal for his invention of the "Dr. Rosewater's Compound" for the cure of colds, coughs, and other ailments. The award was presented to him by the World's Fair Commission.

THE NEW MURRAY.

(From the Hotel Reporter.) The Murray hotel is rapidly getting back its old-time patronage. Friends of this popular hotel speak in very high praise of Mr. Sillaway's management, and continental men agree that it is conducted in the best possible manner since the late renovation, better than ever before. E. M. Slickney, the gentlemanly and courteous chief clerk, is an especial favorite with the traveling public, and is proving to be a great drawing card for the house. Rates reduced.

SIMPLY LIMPED ALONG

Health Board's Work Crippled for Lack of Funds. The first meeting of the new Board of Health was held yesterday afternoon. It made up in length for what it lacked in interest. Absolutely no business was transacted outside of hearing the report of the commissioner of health, but the garbage question was taken up, the behest of the market gardeners and discussed for nearly two hours, with no perceptible benefit to any one concerned.

COMMISSIONER SAVILLE'S REPORT

Additional Funds Will Be Asked—New Board Begins by Talking Over Dispute Between Gardeners and Garbage Contractor. The first meeting of the new Board of Health was held yesterday afternoon. It made up in length for what it lacked in interest. Absolutely no business was transacted outside of hearing the report of the commissioner of health, but the garbage question was taken up, the behest of the market gardeners and discussed for nearly two hours, with no perceptible benefit to any one concerned.

Councilmen Benawa and Christie took their seats as members for the first time. Mayor Breach pleaded other business as marked excuse for nonattendance, and Benawa was made chairman. In his annual report Commissioner Saville stated that the work of the department has been slow and irregular on account of the insufficiency of funds. The suspension of inspectors during several months, he declares, has been very detrimental to the work of the department. He also reported the epidemic of contagious diseases, he says better things, but here he contends that a lack of funds has materially impaired the efficiency of the board, and that the result is a serious epidemic of diphtheria, but this was also successfully controlled, and by the use of anti-toxins the physicians have materially reduced the mortality. He also reported the epidemic of scarlet fever. By constant work, isolation of patients and thorough use of disinfectants, the disease was restricted to a few cases. He also reported the epidemic of typhoid fever, but this was also successfully controlled, and by the use of anti-toxins the physicians have materially reduced the mortality. He also reported the epidemic of scarlet fever. By constant work, isolation of patients and thorough use of disinfectants, the disease was restricted to a few cases. He also reported the epidemic of typhoid fever, but this was also successfully controlled, and by the use of anti-toxins the physicians have materially reduced the mortality.

RECOUNTING OF BALLOTS IN DUNCAN.

In the Duncan-Lemly election contest before County Judge Baxter yesterday the casting of several ballots marked with lead pencil and the subsequent rejection of the same by the election boards was proven and a claim for a recount in districts where this was shown was made by the contestant. The recounting of the ballots in the following districts brought in: Third ward, Second, Eighth and Ninth districts. Seventh ward, Second district.

The afternoon session was taken up in counting the votes cast for councilmen in the following districts: Second, Eighth and Ninth of the Third ward; Fourth and Eighth of the Fourth ward; Sixth and Second of the Seventh ward. The result showed a net gain for Lemly of five votes. The First ward, where the contest was most bitter, counted this morning and the court will then hear arguments on the point of recounting the vote in the remaining districts. The city clerk has reported that the returns have been found in nearly every district counted so far, but a variation in favor of Duncan in one district has been off. The gain for Lemly in another district. Several ballots have been found among those rejected which bore no evidence of the cause for their rejection, but these have changed the result materially as a board as Duncan and Lemly are concerned.

The afternoon session was taken up in counting the votes cast for councilmen in the following districts: Second, Eighth and Ninth of the Third ward; Fourth and Eighth of the Fourth ward; Sixth and Second of the Seventh ward. The result showed a net gain for Lemly of five votes. The First ward, where the contest was most bitter, counted this morning and the court will then hear arguments on the point of recounting the vote in the remaining districts. The city clerk has reported that the returns have been found in nearly every district counted so far, but a variation in favor of Duncan in one district has been off. The gain for Lemly in another district. Several ballots have been found among those rejected which bore no evidence of the cause for their rejection, but these have changed the result materially as a board as Duncan and Lemly are concerned.

RECOUNTING OF BALLOTS IN DUNCAN.
