the time he has been on the bench. Judge of holding it. has taken down the evidence in long hand so quickly and accurately that he has been able to settle disputes between conflicting

shorthand reporters. In regard to divorces Judge Tuley has some very interesting memoranda. In taking notes on a divorce case the judge makes in a practice to make mention of the cause of divorce and the length of time the dissatis-fied couple has been married. On these pages of his note books are from twenty to thirty cases to the page. It is a remarkable fact that in almost every instance, if the length of time the couples have been married be added together and divided by the total number of cases on the page, the average will invariably be five years. This is the case throughout, and though the time that married couples have lived together in harmony uns all the way from a few days to almost half a century in some instances, the average

s five years. The case in which the parties were oldest and had been living together the long-est that came up before Judge Tuley was one in which a woman of \$2 was suing for a diorce from her husband, who was two years her senior. The evidence showed that the woman had become jealous of a 35-year-old

ece of her husband's. "The case came up before me," said Judge Tuley, "and I was asked to hurry it, lest one of the parties die. I replied that I would do nothing to hurry such a case, and, while I never have wished for any one's death, I did hope the Lord would interfere and take the case off my hands. Sure enough, in about six months, before the case came to a final hearing, the old man was called away and I was relieved of a disagreeable task of sitting on a divorce case where the couple had been living amicably together for almost fifty

years In contrast to this the judge cites many cases where the litigants live together scarcely more than a week. In these cases desertion is the usual charge.

QUESTION OF ORGANIZATION. Whereas, It is perfectly clear that if these voters can be brought together and or-ganized that they can and will reverse the present infamous policy of robbery and give to the people a return of good govern-ment, based on the principles of true democracy, as represented by Thomas Jef-ferson, and of true republicanism, as represented by Abraham Lincoln. There-fore, we invite organizations desiring finan-cial reform, but who are not yet ready to become members of our organization, to hold a separate convention in the same city and at the same time that we shall fix upon, so that an honorable effort may be made by conference and consultation, without any sacrifice of principle, to unite all friends of financial reform in support of the same candidate for president and vice president. Resolved. That in so great a work of
