EXPRESSIONS OF LAST NIGHT'S MEETING

Primaries of Saturday May Have No Effect-Situation is Apparently as Much Mixed as it Ever Was.

About a hundred First ward citizens met at Eleventh and Pacific streets last night to ratify the selections of candidates for the council that were made at Saturday's primary. Contrary to general expectation and the very evident sentiment of the rank and file of the audience the meeting was largely a succession of dreary platitudes. There were numerous long speeches, in which the speakers studiously refrained from saying anything. Half a dozen speakers related the history of the attempts of the council to fill the vacancies and told how the primary came to be called. But this was all ancient history, and most of them stopped right there. There was but little of the spirit of retaliation that was so freely expressed in previous meetings in evidence. The speakers counseled moral sussion rather than menage as a means of leading recalcitrant councilmen to support the interests of the ward. These admonitions were received in silence, but when one or two speakers hinted that if the council should choose to ignore their claims there would be a time to get even, the sentiment was greeted with vocifer-

The only radical expression was from R. C. Jordon, who was one of the candidates. H stated that the recent primary was purely a farce, as not one-half of the men who voted there were legal voters of the ward. He added that neither the voters nor the council should take any notice of a proceed-

ing that was so irregular.

Dr. Hanchett was also a little out of tune with the majority. He spoke for more than an hour in a general way, but carefully refrained from committing himself in favor of the Stuht and Hascall combination. Finally in reply to a direct question he ad-mitted that he was still for Jordan and he refused to come over into the fold. AGAINST RADICAL ACTION.

E. J. Cornish spoke early in the meeting and advised the First warders not to take iny radical action. The council happened to be the tribunal that would determine the matter in controversy and the ward was powerless to compel it to grant its wishes. powerless to compel it to grant its wishes, Hascall and Stuht proffered similar advice and they succeeded in preventing any ac-tion that could be regarded as a personal threat by any of the councilmen. After over three hours of discussion the meeting simply passed a resolution to inform the council that Stuht and Hascall were the choice of the ward and calling upon all citi-zens of the ward to go up to the council chamber tonight and aid in the task of get-ting the council in line. As it was put by A. E. Walkup, who offered the resolution, "Let us all take up our march to the city hall with the song of Stuht and Hascall on our lips and their glittering stars upon pur foreheads and see that the people's

So far from effecting a solution of the councilmanic muss over the filling of the two va-cancies in the First ward delegation the primaries which were held in the ward Sat-urday seem to have added further compilications to the situation. The selection of two candidates by the First warders is evidently without the slightest effect on the positio of the councilmen and the indications are that the primaries will be totally ignored.

JORDAN IN THEIR WAY. The fact is that R. C. Jordan is san who is a thorn in the of these men just now. Jordan was not as enthusiastic over the primary proposition as the others. In fact, when the committee called on him Saturday morning in relation to the matter he constically informed the members that when he wanted to go into farcs comedy he would go on the stage. hints that have been dropped from councilmanic sources, has given the other candidates the impression that Jordan knew what he was doing when he declined to mix in the

Counc'lmen who have Jordan's name in

scribed on their slate say that if the First warders think the council is going to ratify such a farce as the primaries proved to be they are much mistaken. They contend that the primaries cannot be taken as a test of the sentiment of the ward, inasmuch as they were run by the corporations and padded with illegal votes to an extent matterly corrulated. scarcely paralleled in recent years. One councilman declared yesterday that a friend of his had told him in confidence that he had himself run in eighteen men from the Third ward and voted them for Hascall. They also claim to know that scores of other outside men were voted, and one in-stance is cited where an 18-year-old boy voted three times, and no one objected. They say that the best the First ward can expect is that one of the men named will be firmed, but that there is no certainty that either of them will be recognized.

A peculiar development is the fact that Hascall is now at outs with his former sup-porters. It is said that Wheeler is the man of all others whom Mayor Broatch wants to see in the council. Hascall has now antagonized this interest by his desperate effort to corral the councilmanship-at-large, is the only one to which Wheeler can legally be appointed. Within the past few days it developed that unless Hascall was discarde votes in line. The situation was promptly recognized, and for two or three days past the Wheeler influence has been directed toward forming a combination on which ten votes could be united. It is said that Jordan is most likely to be the other end of this combination, and if this plan succeeds, as several councilmen declare it will, both Has-call and Stuht will be turned down.

Mother and Daughter Helped.

"I have been exposed to scarlet fever, but I did not have it. I felt all the time as though I was coming down with some disease and was in this way for nearly two years. I tried everything in the way of remedy and was treated by physicians, but grew worse all the time. One day I re-selved a circular advertising Hood's Sarsaparilla and resolved to try it. I purchased one bottle and it helped me so much that I took four or five bottles, and now I am as well as ever. My mother had what seemed to be dropsy, which baffled physicians, but she has been cured of this trouble by Hood's Sarsaparilla."

The board of directors of the Transmissisippi and International exposition and A. S. Hazleton, M. F. Rohrer, Mayor Cleaver, T. C. Dawson, W. W. Loomis, William Moore, E. H. O'Dell, E. W. Hart and Victor Bender, members of the Counc'l Bluffs committee, gathered about the banquet board in the Commercial club rooms last night. After discussing the menu, they gave the coming ex-

position a boost. President Wattles of the Exposition company explained the object of the gathering by saying that while it was for the purpose of promoting and camenting the bonds of good fellowship between Omaha and Council Bluffs, it was also for the purpose of exchanging ideas concerning the best methods of pre-paring the preliminaries of the big show. A. S. Hazieton of Council Bluffs stated that his city was ready to take hold of the matfar short of that figure. Volker gave ball.

E. H. O'Dell urged that the time was ripe for action, and that steps should be taken at once to place the plans of holding the exposition before congress and the legislatures of Iowa and Utah. He felt that not only the state of Iowa would lend its assistance, but hat every town and city would feel in duty bound to assist in making the exposition the greatest success of the age.

COUNCIL BLUFFS READY. M. F. Rohrer said that Council Bluffs could be depended upon to do its share. He urged that all of the members of the Transmississippi congress which convened in this city last November should be made to feel that the proposed exposition was largely due to their efforts, as it was that organization which first inaugurated the scheme. G. H. Payne favored the plan of sending excursions to the cities in Iowa and adjoining states for the purpose of interesting the people in the exposition. The plan was frowned upon, the sentiment prevailing that

nore good could be accomplished through

he newspapers. The resolution adopted by the Transmisissippi congress when it was in session in city was read and adopted by the pard of directors and the committee. Mayor Cleaver of Council Bluffs said that he holding of the exposit on was a stupendous undertaking and an important affair. "We must keep in touch with every member o the Transmississippi congress," he urged.
"for it was through the efforts of that body that the scheme was first given birth. Those men brought it about, and I am sure that now they will stand by it to the end. If we can recure the combined efforts of the delegates to that congress, we can feel asthat the exposition will be a success. There is a vast amount of work to be done and to accomplish results, we must all work in harmony, and never allow the idea to prevail that this is a local affair. We must not feel that the exposition is for Omaha, Council Bluffs, Nebraska, or lowa, but in-stead, we must feel that it is in the interest of every city west of the Mississippi river.

J. A. Wakefield spoke in favor of unite effort, and urged that the plans for the ex-position be called to the attention of the Chamber of Commerce and the Board of Trade of Sloux City. He paid a tribute to the city at the mouth of Perry creek by de-

claring that the residents were always ready to take hold of a good thing, assisting with their money and their enterprise. Dudley Smith said that he favor of corresponding with the members of the Transmississippi congress and ask-nig the members to put their shoulders to the wheel and give it a push. He thought that it would be a good plan to send a com-mittee to Des Moines and call the attention

of the Iowa legislature to the magnitude of the scheme. A resolution favoring the holding of the expesition, Mr. Smith thought,

hould be adopted by the legislature. C. S. Montgomery urged that steps should be taken to get the matter properly before the Iowa legislature and in his judgment the thing to do was to have a committee ap-pointed, not as lobbylsts, but for the purpose of presenting the facts. "The exaid Mr. Montgomery, "should be "The exposition, said Mr. Montgomery, "should be supported by every state west of the Mississippi river. "A bill looking to the securing of an ap-propriation of \$50,000 has been introduced in congress by Senator Allen. Senator Thurston is ready and will do all in his power to push the matter along. The newly elected senators from Utah are with us. The \$50,000 is only a start and before the end of 000 is only a start and before the end of reached we expect an appropriation of \$150,000, \$50,000 for the building and \$100,000 for an exhibit. My judgment is that the senators from all of the states west of the Mississippi should meet and agree upon a line of action, and I understand that this will be done when the matter is properly called to their attention." called to their attention."

At this point Mr. Montgomery moved that a committee of three or five be appointed with the concurrence of the Council Bluffs committee to go to Des Moines and interest the members of the Iowa legislature and the newspapers of the state. Dan Farrell, jr., was of the opinion that the Council Bluffs committee could look after

the Iowa plans. Mr. Montgomer Mr. Montgomery's motion was adopted and President Wattles announced that he would name the committee at some later date. BUREAU OF INFORMATION.

Mr. Montgomery then moved that a committee of three or five be appointed to furnish information for the press and the public concerning the exposition, the committee to correspond with governors of states and mayors of cities in the transmississippi states. Two hundred people last evening at the Commercial club rooms enjoyed hearing read by a Scotch woman some of Ian MacLaren's pathetic and humorous sketches of Scotch ife in old Drumtachty.

The entertainment was under the auspices of the educational committee of the Young Women's Christian association. The reader was Mrs. Margaret Park, a native of Glas-gow. She was assisted by Mrs. Frances F. Ford, who, before each reading, gave a general description of the characters that would appear. "Drumsheugh's Love Story," "Eurnbrae" and "The Sermon Taster" were the stories read and the dialect rendering of the lines by Mrs. Park gave to them an added and peculiarly enjoyable meaning. The Crescent quartet, comprising Messrs. McPherson, Dunn, Graham and Swift, sang two selections with encores.

TALKED ABOUT ARMENIA.

Discussion by the Current Topic Club Last Evening.

The Current Topic club of the Young Men's Christian association last night discussed the Armenian question for a couple of hours, a large attendance being present. The speakers who presented the question were Rev. A. H. Byles, Rev. Thomas McCague

and Abraham Rudy.

Mr. Byles dissected the difficulties which in his opinion, prevented a solution of the problem. He held that the one end and aim of Russia was to obtain possession of Con-stantinople, because it was the only avail-able scapert possible. England did not de-pire that the port should pass into the pes-session of Russia. On this point the two powers desdlocked and the other European nations backed one or the other as their

interests dictated.
Dr. McCague dwelt chiefly upon the situa tion of Armenia at the present time. He was in the immediate neighborhood as a missionary for a long time. He stated that the deepest hatred of all Mohammedans was always directed against Christians and that destruction of them was a part of their re-

ligion. An analogy was drawn by Mr. Rudy be-tween the position of Russia toward its ni-hilists and Jews and that of Turkey toward the Armenians. Both being despotic powers, they waged reientiess war against all who would not yield obedience in every way. The Armenians were in every way superior to the Turk and therefore the latter hated them, although it was said that the sultan himself was not as fanatical as his subjects. Mr. Rudy stated that he realized the situation of the European powers, but urged that it was necessary for one of them to make a step toward assisting the Armenians. His remarks were interspersed with interesting anecdotes of life in Russia, of which he has personal knowledge.

After the subject had been presented to
the club a discussion by the members fol-

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual discontinuous and the contributed condicase, but simply to a constipated condi-tion of the system, which the pleasant family laxative, Syrup of Figs, prompt-ly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts.
