FOREIGN NEWS THE LEADING FACTOR

United Kingdom Admits that It Cannot Depend Upon Russia Nor the Argentine for Supplies at Present.

CHICAGO, Feb. 6.-Wheat was a surprise to both sides again today, opening strong, and, though losing some of its early gain, closing to higher than yesterday. It seems to be the generally ac-cepted opinion that wheat is being manipu-lated by a few powerful operators. Corn, oats and provisions were all firm and closed with some gain for the day.

In wheat there was not as much excite-

ment and the trade was not as large, but the market nevertheless was sensitive and nervous, the range for the day being 1c. The trade, too, was mainly local, with less doing for account. Initial trading was at from 1/2c to 1/3c advance, early trading in May being at from 68c to 68%c. The strength was due to a cablegram from London ac-May being at from 68c to 65%c. The strength was due to a cablegram from London acknowledging the almost complete dependence of the United Kingdom for supplies until May on account of the late movement of Argentine wheat and the fact of the Russian ports being closed by ice. Cables were received from London this morning that Argentine was offering heavily for April-May shippinents. The latter dispatch encouraged same selling and caused a decline to 67%c; however, the market quickly reacted to 67%c, when Bartlett-frazier sent two or three brokers into the pit and took about 20,000 bu. The Liverpool market was reported 15d higher at the opening and %d higher at the copening and stone were again very large-514 cars. The Atlastic scaboard clearances of wheat and flour were 200,000 bu. Reports concerning the flour trade were not encouraging, the general advices being to the effect that flour did not respond to the advance in wheat. The Cincinnati Price Current says that the weather last week was generally in favor of the crop. Reports regarding Argentine wheat were conflicting. One set of them claimed that course injuring the crop, and another that offerings from there to the United Kingdom had increased, but were said to be chiefly for March-April delivery. A good inquiry from winter wheat milliers resulted in placing since the close of 'Change yesterday up to noon today ilo,000 bu, 90,000 bu, of which was for St. Louis. That assisted in holding the market steady. May, after falling to 67%c, sold to 67%c and up to 67%c, and at hoon was at 67%c. During the last hour wheat had a spurt to 67%c, where it closed. The cash business done with country millers was swelled to 207,000 bu, before the close, with 14 boatlonds taken for export.

ort. Corn was quiet, but the prospect of small Corn was quiet, but the prospect of small receipts for some time helped to give confidence to holders, and consequently a firm undertone to the market. May opened about the chigher about the start, and then settled down around 30½c for the remainder of the day and closed at that.

Outs were influenced a good deal by corn and sold higher, holding fairly well. May opened ½c higher from 21½c to 21½c, weakened to from 21¾c to 21½c and closed at 21½c.

Provisions were firmer on the prospect

ened to from 21%c to 21%c and closed at 21%c.

Provisions were firmer on the prospect of small receipts for some time to come, on account of the fearfully bad state of the country roads. Good buying of ribs and lard by packers also helped to sustain the market. The best prices of the day were made at the opening, when May pork sold at \$10.52%, closing at \$10.57%, or 10c improvement over closin- prices of yesterday. Lard opened up at 24%c, but closed unchanged. Ribs opened at \$5.42% and closed at \$5.40 for May, against \$5.35 yesterday.

Estimates for tomorrow: Wheat, 66 cars; corn, 160 cars; oats, 95 cars.

The leading futures ranged as follows:

The Los Angeles Commercial Bulletin is credited with the following: "Last week we published an estimate of the apple crop of the United States for two years, showing a production of 66,000,000 this season and 57,000,000 last year. As the matter passed through our hands we guess of those apples would make a line of ours as long as from San Francisco to Omaha. This week the California Fruit Grower gives a table, showing the crop according to figures compiled by Mr. B. W. Snow, statistician of the National Apple Growers association, which substantially confirms the figures we gave last week. At 160 bare is to the car of twelve tons, and allowing forty feet as the space a car occupies in a train, these apples would load a train as long as from San Francisco to New York. There would be 400,000 cars, 16,000,000 feet of space, or 5,000 miles in round numbers. At first glamce the figures appear out of all reason. It seems atout a barrel of apples for every man, woman and child in the United States. There is, however, every reason to accept the figures as reasonably accurate, and this being so, it impresses on us the fact that on the size of the apple crop depend the prices for all the fruit crop of all kinds is the country more than on any other cause, if not more than on all other causes combined. Quotations; MEXICAN STRAWBERRIES—None, AFPLES—Fancy New York, \$3,250,350; choice western, \$2,500,275; fancy western, \$3,00.

FORFIGN NEWS THE LEADING FACTOR

Course of the Market Was Extremely Disappointing.
NEW YORK, Feb. 6.—The course of today's market was extremely disappointing to many persons who had expected, in view of the great and unsurpassing success of the new government loan, a decided upturn in prices, both here and abroad. Apparently, both in London here and abroad. Apparently, both in London and on the floor of the New York Stock exchange, the new Was not regarded from a breader point of view than as affording an opportunity to secure profits accruing from the recent rise. Conservative flanciers expressed the opinion that the securities will soon reflect increased confidence as to the financial outlook. Aiready the expectation of a tetter market for commercial paper is expressed, and also of a reasonably easy market. A favorable fenture is the cantinued increase of earnings shown by nearly all of the prominent lines. The volume of business showed a considerable increase over the record of the previous day. Prices moved in an erratic fushion, and in some instances the fluctuations were wide. Sugar and St. Paul again absorbed the greatest interest, with the first named well in the lead in point of activity. The two stocks mentioned recorded nearly one-third of the entire total.

and St. Paul again absorbed the greatest interest, with the first named well in the lead in point of activity. The two stocks mentioned recorded nearly one-third of the entire total.

The market opened slightly higher, despite the cald shoulder presented by the lower range of prices for Americans in the London market. In some instances improvement over the initial flaures was made, but the market soon turned on the appearance of heavy liquidation in the leading shares, both for local and toreign account. In the ensuing reaction many stocks touched flaures below last night's closing prices. A raily then followed, and the market exhibited irregularity until 1 o'clock. At that hour, supporting orders appeared, and prices advanced rapidly. Sugar was the leader, rising 2½ per cent, and the other active shares 15/1½ per cent, in the movement Southern preferred. Missouri Pacific, Louisville & Nashville and the grangers were the most prominent. In the usually linactive shares, Pullman rose 34; per cent; Minneapolis & St. Louis first preferred. 2 per cent. Rio Grande Western preferred. 2 per cent. Rio Grande Western preferred. 2 per cent. Laclede Gas preferred and Metropolitan Traction, 2 per cent; Cordage guaranteed, 1½ per cent, and Evansville & Terre Haute, 1 per cent. The report that Presdient Ranigan of the United States Rubber company had tendered his resignation, together with a rumor of dissensions in the board of directors, was followed by a decline of 2 per cent in the common stock certificates, and of 4 per cent in the preferred. The folmer subsequently regalated by recent of the decline. In the last half hour, taking of profits caused another general decline. Chicago Gas was conspicuously weak, reacting 2½ per cent on rumors of further impediment to the consolidative plan. An attempted explanation of a 2 per cent drop in Lackawama and deal by the New York senate was not seriously taken. The market closed moderately active and irregular. Business in bonds was fairly large, and values generally worked higher.

told, were reported in the yards today, as against 1,892 yesterday and 1,484 on Wednesday of last week. It was hardly more than a Saturday's run, and there were not enough of any one kind of cattle to make a market. The light run, however, did not have very much effect upon the market, the indifferent character of the demand of late being such as to preclude the chance of sudden advances on the strength of light receipts. About the best that a light run can do, apparently, is to make prices firm and cause the offerings to move off a little more freely than on other days.

Only a few fat cattle were on sale, but some of them were quite desirable for the

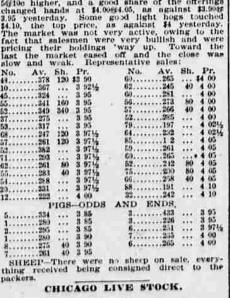

Only a few fat cattle were on sale, but some of them were quite desirable for the dressed beef trade. As high as \$3.95 was paid for one small bunch of 1,357-lb. steers. The prices paid were a little stronger than yesterday, and the cattle were all sold

The prices paid were a little stronger than yesterday, and the cattle were all sold early.

In the way of butchers' stock, there were ten or a dozen loads of cows and heifers. The demand was fair, but not active enough to bring about any advance in prices. Salesmen were generally calling the market just about steady, though buyers reported their purchases as costing a little more than yesterday. Everything was sold before the close.

The stocker and feeder trade was not very large for two very good reasons. There were only a few cattle here and the demand was light. Good stockers continued about steady, but there is a very weak feeling on heavy feeders, and the tendency of the market on that class of stuff is lower. In commenting on the feeder market the Chicago Drovers' Journal observes that the price of good feeding cattle and good fat cattle are about as near together as they ever have been. There is scarcely 50c difference, and some country shippers who sold good 1,400-lb. fat steers and wanted to buy desirable 1,050-lb. feeders declared a few days ago that there wasn't any difference. Feed is so cheap and plentiful that there doesn't need to be as much difference in orice as usual, though the gap should be wider than it is to give feeders any kind of a show. The price of feeding cattle is not extremely high for this time of the year, but the price of fat cattle is unusually low. Representative sales:

mild weather is checking the demand for beef, but today's receipts were so small that there was a fair demand at stronger prices. Some lots sold a little higher, and the best cattle were from 10c to 15c higher than at the close

Mild Weather Checked the Demand

were from 16c to 15c higher than at the close least week. Common to extra choice beef steers sold at from \$3.25 to \$4.75. Butchers' stuff was active and strong, cows and helfers selling chiefly at from \$2 to \$4.25, with fair sales at from \$2.39 to \$2.60. Buils sold at from \$2 to \$3.50, and caives of good to choice quality at from \$3.25 to \$4.6. Stockers and feeders were in moderate demand, with sales mostly at from \$3 to \$3.89. Texans were unchanged, steers selling at from \$1.15 to \$3.60, and cows, stags and buils at from \$1.5 to \$3.60, and cows, stags and buils at from \$1.5 to \$3.50, and cows, stags and buils at from \$1.5 to \$3.50, and cows, stags and buils at from \$4.25 to \$3.25. In hoge the larger receipts recently predicted by the packers are not materializing, and packers reluctantly put back the 5c they took off yesterday. The trade was animated at from \$4.25, with a few fancy assorted light hogs at \$4.27\cdots and some prime heavy at \$4.30. The average receipts at the present time consist largely of well matured, rather heavy hogs, and prime light promise to sell at a fair premium shortly, as they are wanted by both local packers and castern shippers.

In sheep prices were no more than steady, larger supplies having checked the advance. Common to choice native sheep sold at from \$2.40 to \$4.55.

Receipts—Cattle, \$5.000 head; hogs, \$21.600 head; sheep, \$15.000 head.

IS NOW RUNNING FOR A RECORD.

taice of 138 miles, the run was made in three hours and three minutes. The engine was No. 888, also of the Omaha shops, and was in charge of Engineer Austin. On this run into one paper, under the name of thirty-seven minutes were made up. From the Omaha Trade Exhibit. M. S. Bartlett Rawlins the train was reported as being only one hour and fifty-five minutes late, having manager. The first issue of the consolidated made up over two hours of the lost time paper will appear on Saturday, February 8. after leaving Omaha. From Rawlins to Ogden is a distance of 325 miles and in that run it was expected that the "Overland" would cut its lateness in half, arriving at Ogden only fifty of fifty-five minutes behind its

The "Overland Limited" runs from Chicago to Ogden via the Chicago & Northwestern and the Union Pacific systems. It has a very sidered no mean achievement. No short cuts were taken on this run. The train was handled in just the same manner as it is every day and all necessary stops were made. The regular schedule of stops was adhered to and flag stations were not over-

John H. Flanagan, on account of his con tinued ill-health, has resigned as local freight igent for the Chicago & Northwestern railroad and will make a prolonged trip to Flor-ida and the Bahama islands to recuperate. George G. Dennis, who has for many years city, will succeed Mr. Flanagan, Rates for Homeseckers.

General Passenger Agent Buchanan of the Elkhorn returned yesterday from Chicago, where a meeting of representatives of the transmissouri lines was held Wednesday. It was agreed to cancel the party rate rule that has been productive of so much injury to the roads through scalpers. Arrangements were made for excursions of homeseekers to points in Nebraska and Kansas 100 miles west of the Missouri river. A rate of one fare plus \$2, on the certificate plan, was authorized. These excursions are arranged with the intention of bringing in new settlers to the western parts of Nebraska I

and Kansas, and will be given on the fol-lowing dates: February 11, March 10, April 7 and 21 and May 5. A time limit of twenty days has been placed on the tickets; It was also decided to establish local passen-ger associations, similar to the "low joints" here, in Lincoln and at Colorado common

In regard to a d'spatch from Denver, which appeared in The Bee Wednesday, a prominent official of the Burlington system yesters day said that there was absolutely no truth in the report that there was danger of a disruption in the Western Passenger assoto the trip of the Colorado mining men to New York had been satisfactorily settled yesterday in Chicago. An agreement was made with the roads east of the Mississippi, and

Cripple Creek and Mercur famous. The exhibit is being arranged on a grand scale, and it is expected that its value will reach \$1,000,000. No effort will be spared to convince the inhabitants of the metropolis that Colorado has some of the most profitable mines in the world."

Rallway Notes and Personals.

John A. Eyler, live stock agent of the Burlington, is in the city. W. L. Collins of Penca, Neb., was a caller at Burlington headquarters yesterday. General Manager Dickinson and Traffic Manager Munroe of the Union Pacific have

gone to Chicago.

Chief Clerk Reddington of the Elkhorn office is in Chicago, where his wife was buried a few days ago. General Baggage Agent Traynor of the

Union Pacific is on a tour of inspection of the western baggage offices of the road. James H. Jagoe, traveling passenger agent of the West Shore road, was in town yester-day on his way from Chicago to Salt Lake

Increased freight traffic in and out of Salt Lake City on the Union Pacific has neces-sitated the employment of two additional train crews.

E. G. Patterson, city ticket agent of the Union Pacific at Denver, has just resigned. He went to Denver from Omaha about ten years ago. For a time he was ticket agent for the Colorado Midland and Santa Fe and was absent from Denver for about a year as traveling passenger agent in the northwest for the Union Pacific. The vacancy caused by the resignation of Mr. Patterson will be filled by the promotion of John J. Burroughs,

The verdict of the people is that Dr. Bull's Cough Syrup is the best remedy for coughs, colds, sore throat, asthma, etc.

CHICAGO, Feb. 6.—At the annual meet-ing of the Custom Tailors' association today. ing of the Custom Tailors' association today, the following officers were elected: President John E.
