with previous weeks. BOOT AND SHOE TRADE. The boot and shoe trade shows no signs of improvement. As a general thing, re-tailers complain of a continued light de-mand owing to the mild and comparatively dry weather that has prevailed up to within a day or two in this section of the country. In the jobbing branch of the trade there is not much of encouragement. The light re-tail trade and the lateness of the season does away with the demand for winter goods and the general situation in the coun-try is such as to retard the movement of spring goods. At this time the jobbers ought to be very busy sending out spring goods, and while they are shipping some, they are by no means doing anything like what would be expected in an ordinary sea-son. The fact is jobbers are in no greater hurry to ship their goods than are retailers to order until the spring is nearer at hand and more is known as to the probable future ourse of trade. The shoe trade has been very backward all the season in all sec-tions of the country and the situation is no different here. Manufacturers in the east have been complaining about the light or-

Brown, and the latter, in asking his congre-gation not to judge him hastily, referred to his spotless reputation. The Bulletin, which has been printing sensational charges against Mr. Brown, yesterday showed that he had once before been in trouble and had been tried by a council at Rochester, Mich. This was seventeen years ago and Dr. Brown, who saya he himself demanded the investigation, was acquitted. Today Dr. Brown relates the history of his trial in Rochester. He says that

adopted.

tory of his trial in Rochester. He says that Rev. John A. Armstrong, a Methodist minis-ter in a neighboring town, actuated by jeal-ousy, wrote anonymous letters, accusing Brown of indecent acts. Dr. Brown says he was triumphantly acquitted and that the person who was exposed as the author of the letters was later caught in the act of stealing money from a merchant who was his most intimate friend. The council met March 10 and 11, 1879, and included the most emi-

#### CHICAGO LIVE STOCK.

### There Was Not Enough Cattle to Make

n Market. CRICAGO, Frb. 8.-There were not enough cattle here today to make a mutket, and prices were mostly nominal. Although less than 4,000 arrived this week, prices have shown no marked mprovement, nor is there a good prospect for

15

uch better prices. The largest demand is for

One Man Burned to Death Before He

The receipts of both cattle and hogs the past week show a decided gain over the previous week, but a failing off as compared with the corresponding week of last year. The receipts from the first of the year to date also show a heavy decrease. CATTLE-The week closed with the usual light run of cattle, only 918 head being re-ported in the yards as against 1.167 yester-day and 850 on Saturday of last week Chicago reported only 40 head received and Kansas Cliy 300. The market summed up in a few words was merely a repetition of the usual Saturday's trade-light receipts, moderate demand. A few pretty good beef steers were among the offerings, but the packers were in making selections. In fact buyers and selers were a little slow about getting together on a trading basis and the market in consequence was not very active. In the end, however, about everything was sola and at steady to easier prices. As high as \$1.75 was paid, which was also about stead and the most of the offerings were take. The usual Saturday's dullness prevailed in the stocker and feeder division. There was some little trading, but not much, and hearstet was without feature of impor-tance. Representative sales: BEEF STEERS. No. Av. Pr. No. Av. Pr

theater building and the Herard plant is estimated at \$175,000, and on the other build-ings \$25,000. NEW YORK, Feb. 8.—Fire in the six-story building at 9 and 11 Franklin street today caused damage to the amount of \$75,-000. The principal losses are: John Sim-mong & Co. \$10,000: Simpson & Perkins.

mona & Co., \$10,000; Simpson & Perkins, \$20,000; W. M. Jennings, \$30,000; on build-ing, \$15,000.

### BITTER FIGHT FOR A REPUTATION.

San Francisco Pastor Has Many Ac-Cusations to Answer. SAN FRANCISCO, Feb. 8.-Rev. C. O. Brown, the Congregational minister who ac-

cused Mrs. Davidson of blackmail, is making a determined and bitter fight to preserve his reputation. There has been a serious split in his church ever since the exposure of Mrs. Davidson and her charges against Rev.

ders, but they comfort themselves with the thought that there will come a time when the trade can no longer put off buying and that business when it does come will be enough to make up for much lost

large enough to make up for much lost time. Country produce is moving rather slowly and it is sometimes a question in the minds of commission merchants what people in the city live upon. The consumption of all kinds of produce appears to be unusually light, while the supply at nearby points, within driving distance of Omaha, is large, so that consumers and retail stores buy largely direct from the farmers, thus cut-ting down the sales of the wholesalers. Complaints come from all quarters, with-out exception, as to the poor collections. Collections have not been very good at any time for months back, but there appears to be a scarcity of money just now that is making it still worse. With the opening of spring a freer movement of produce is pre-dicted and with that collections should im-prove.

#### London Market Review.

London Market Review. LONDON, Feb. 5.-The weather during the past week has been mild and the crops are well forward. A cold spell is desirable to shacken the pake of the growin. In the market wheat fluctuated and eventually hardened on good de-mand and American advects. The while series were more active and the market was steadler at 3d to 6d advance. United kingdom stocks were diminishing and parcels were in moderate demand. Spot was slow and steady. Maize was quiet and steady: Lie was paid for steamer mixed American affoat. Parcels were quiet and spot was steady at Us 94 4455 p. m.
