Revival of the Olympian Games at Ancient Athens,

With the Dead Games at El Paso-Ir English Waters-The Wrangles in Sport-The Derbys with All the Live Sporting Gossip of Day.

HE fact that there is to be a revival of the famous Olympian games will be heraided with extreme patisfaction by the athletes of both continents. These world-noted Greek pastimes will be Greece, late in

April. While the interest in this event may not be so intense in this country as it Is in Europe, there is still enough of it to inspire the utmost curiosity. The exclusion of foot ball, base ball and polo, three popular sports here, is undoubtedly the only reason why the announcement has not been received with the same fervor manifested on the other side. It is reported, but not authentiof New York will send a team over. If they do there is but little fear but what their showing will be up with the very best, and it is the general wish that America will be represented. These Olympian games are of especial interest to the students of all the this country, but more particularly to the Princeton university. This is owing to the fact that the American repre-sentative of the international committee is a professor at the college. Prof. William M. Sloane, who is at the head of the department of history and political science in the university, is authority on the subject, and all of the American business connected with the games passes through his hands He has taken pronounced interest in the college's athletics, and it was probably owing to this fact that he was chosen as the American representative. Prof. Sloane is much disappointed over the outlook, inasmuch as he apprehends that no American team will go over. It was his hope that a whole shipload of athletes would be sent across and that they would hold the pole that would reach the persimmons. The that would reach the persimmons. The card of sports being prepared includes "feet 100, 400, 800 and 1,500 flat metres (equivalent to about 110, 440, 880 and 1,650 yards); contests, running long and high jump, pole vault, putting the shot and quoits; cross country race, forty-eight kilometres (equivalent to 29.76 miles), from Marathon to Athens, for a cup offered by M. Breal of the French institute. Gymnastics Individual armpull, horizontal bar, rings, parallel bars, vaulting, weights. Teams of not fewer than ten members will be adto contests, yet to be Fencing, wrestling and marks-yachting and rowing according to the entries and under special rules to be obtained from the French Yacht union. and Pacing Horses has arranged for an exellent race meeting for Washington Park The program adopted contem plates an innovation when compared with former meetings. It was decided to commence the meeting with a horse show, which will open on Saturday, June 27, and occupy the first two days of the meeting. The Washington Park club will make this a so-clety event similar to the well remembered Derby days, which have been a social feature with that club for the last ten years or more, excepting last year, when no running meeting was given. On Tuesday morning, June 30, will commence four days of straight trotting, pacing and bicycle races. trotting, pacing and bicycle races. The crack harness horses, like Patchen and Gentry, will not be in it this year and the boys with the bikes will. The "bike" feature will, doubtless, serve as a good drawing card, though the combination seems a little peculiar. It is a little bit like having horse-back riding and dog races to attract a crowd

The twelvementh just closed-1895-in the outset was expected to be the greatest year of international sport ever known in the history of athletics. But it was a disappointment. There were events enough, but so much wrangling and disastisfaction was never the lot of sportdom before. What effect all these contretemps will have on effect all these contretemps will have on international competition during the present year remains to be seen. The prospects for a cup race are infinitesimal, the Dunraven experience being the most damaging and disgusting faux pas of all the numerous annoyances of the year. We will be represented at the great regatta at Henley, however, as Yale has concluded to attempt the trick at which Cornell so ignominiously failed and the British turf will also be invaded by and the British turf will also be invaded by American horsemen. The London Athletic club is also in the field with a challenge to the New York club and it is still possible that Oxford or Cambridge will come over to measure strength with an American university crew. Again, it looks as if the three continents will make an effort at resuscitating the game of the professional rower, so that in an indefinite sort of a way the prospect for international sport in 1896 isn't half bad.

Now that the St. Petersburg chess tournament is over, it is pleasing to announce that there is still another event and even a still more prominent and interesting one on the tapis. Arrangements have been completed for an international contest with the knights and pawns between the cracks of this country and the United Kingdom of Great Britain and Ireland, all the moves to be made by cable, and it will assuredly be promised his pal that it should be done. So much for history. has ever known. It wiss certainly strike the readers as rather unique to read of the contests, knowing that their own countrymen are playing in New York and the Britishers in London. The tourney will run two days, March 13 and 14, and the victorious team will be awarded with a magnificent silver cup valued at \$1,000, and which has been donated by Sir George Newnes, president of the English Chess club. Oliver Iselin has sorely disappointed all

of us bellicose Americans. He will neither cross raplers with the Earl of Dunrayen, nor take a crack at him with his little pistol, let alone taking a punch at his jaw. Ollie evidently considers Dunny not in his class, and instead of going over to London for just some such fell purpose, Mr. Iselin went to complete arrangements for the salling of Defender in the Mediterranean in the early spring. Orders have been received to get the boat in sea trim by April I, and this leads the yachtsmen to believe that she is to be entered in either the Mediterranean regatta or the English ewents later on. any case, that is what we want to see ber do, race in English waters. Defender, un-like Vigilant, can turn on her heel like a flash, and she ought to show our English the Clyde were mainly responsible for the many defeats of the Vigilant, and her slowness in stays seemed to cause much amusement on the other side. What Americans want is to see Defender beat the whole lot of English racers, and it looks very much like the Defender people are going to make the attempt. Dunraven's boat Valkyrie will not be in the contest unless the ear makes some settlement with Mr. Iselin in regard to his recent charges. It is doubtful even then if Mr. Iselin would consent to race with Valkyrie. With Valkyrie out, of course, Defender's chief competitor would tion have just been completed by ex-President be Britannia, and possibly the Allsa. As Kent. > There is little doubt but what Ormonde, the greatest English horse of the generation, is going to prove a great sire. His first colt is creating a perfect furore in California turf circles. He is out of King Crust and is being prepared for the coming summer's local campaign. At a recent public trial with 110 pounds up this youngster went a quarter like a bird, flying over the distance in the excellent time of 0:23%. It was this trial that has given the colt the boost. W. O'B. Macdonough gave \$150,000 for Ormonde and it now looks as if the returns were to be such as to justify this enormous expenditure. pling to prove a great sire. His first colt is as to justify this enormous expenditure. While enroute from New York to 'Frisco four years ago Ormonde was given a two days' rest here and hundreds of horsemen flecked to the Palace stables to examine and admire him.

Within a short time the National league schedule will be made public. It was thought that at the meeting of the National Board of Arbitration some idea of how the holiday "plums" would be divided would be divided, but the base ball solons ambled out of town without giving up the desired in-formation. If President Young follows up his original ideas the Giants will have Pittsburg's gang of Pirates on one of the holidays. Since 1892 all the other westerners have had a crack at New York's gate receipts on a holiday. Chicago and Cincinnati have had two whacks, while Connie Mack's hustlers have never ap-peared in Gotham on any of the three big days. At last a true line has been found on Snapper Kennedy's playing ability, says the Cincinnati Commercial Gazette. The batting and fielding averages of the Western associating, is twenty-eighth in the league's list. Among the outfielders he stands eleventh in attested by the fact that he has 116 runs to his credit, only three men in the league— Joe Verner, Katz and King-having the in the matter of making fallies. In the field he has 177 put-outs and 34 assists with only 12 errors. Altogether he has a pretty fair minor league record and his form is enough to warrant Captain Ewing in

For the benefit of my old Cincinnati friends will say that Fresident Kent's averages are not worth the paper they were written upon. In a letter to me, asking for missing cores, he said he had not received more than one-half the games from any city in the association, and from one city, Peorla, he had not received a single return. And then as to Snapper Kennedy, I am still willing and anxious to bet \$25,000, more or less, that Kennedy won't last through a half dozen games with any club in the National league. At his very best he is but an indifferent minor league player and he gets the rame Snapper from his ludicious throwing form. He snaps the ball only, and couldn't get in a long hit in a week in time to put the batter out at the plate unless he managed to throw the ball in by relays. Wait until you see Snapper, Mr. Weldon, Mr. Davis, Mr. Zubler Snapper, Mr. Weldon, Mr. Davis, Mr. Zubler and Mr. Mulford, and your beautiful dreams will fade like so much dishwater in an ashpile. Now, mind you, I am not writing this to injure or belittle Snapper any, but only in response to the delirious guff with which you fellows have been stuffing the Cincinnati public about a man you never saw nor know anything about. Snapper is all right in his place, and that is in a cornfield or a very minor league.

DAN A STUART.

Dan Stuart held another meeting today with the citizens of El Paso relative to the \$10,000 purse which the latter agreed to post. The money is already up, but has remained in the hands of the citizens, Stuart, who is already heavily out of pocket, mer the citizens this afternoon and asked that the purse be posted with a third party. This, it is understood, was agreeable to the merchants, but they were to declare the purse forfeited should the big fight fail through.

The ground chosen, if selected, was as mysterious to citizens here as to the denizens of Labrador. It will scarcely take place in New Mexico. The hostile action of congress settled that, and neither Dan Stuart nor the fighters themselves wish to antagonize the law. Texas will not get the fight for reasons quite as patent. It will not likely be in Juarez, for Diaz has given his instructions to the governor of Chihuahua and then, too, there are three companies of Mexican infantry just across the river; but it is generally surmised that an attempt will be made to clude the Mexican soldiery. The cutposts of the Texas rangers are being moved closer to El Paso each day. This is evidently Governor Culberson's line of policy to keep a keen eye on the sports on this side of the river. This afternoon there was a show of activity, real, or assumed, noticed about the saw mill, where the ring paraphernalia stood. The ring fixtures are ready for shipmem at a moment's notice. Wild rumors kept the people up most of last night. One was that the train for the battle ground would leave before daybrenk, but the training quarters of Flizsimmons at Juarez were as quiet as an Indian graveyard.

LEAGUE OF OMAHA WHEELMEN.

Temporary Organization Has Been Effected-The Officers. A few members of the League of American Wheelmen met at the Young Men's Christian association hall last night and formed the basis of a city league. M. O. Daxon was chairman of the meeting and J. E. Howe briefly stated the object. Messrs, Howe, Bouk and Ebersole were elected a committee to frame a constitution and by-laws for the new body.

On motion of Mr. Henderson a temporary organization was formed with J. E. Ebersole as president; W. C. Bouk, vice president; R. L. Huntly, secretary, and C. M. Russell, treasurer. The committee on membership selected was: Messrs, Patterson, Howe, Bouk, Johnston and Anderson. The object of the body which was named, upon a vote, the League of Omaha Wheelmen, is purely of a business character in connection with the League of American Wheelmen, election of state officers and to increase the membership of the national body in this city. Twenty-nine charter members mames were voted in, and all committees ordered to report progress at Young Men's formed the basis of a city league. M. O. ordered to report progress at Young Met Christian association hall February 17.

A MAN CAN'T WORK.

WHEN HE IS SUFFERING WITH PILES

He Can't Eat, Can't Sleep, Can't Get Comfort Any Way But One-Pyramid Pile Cure Will Cure Him, Give Re-Hef at Once-Never Known to Fail.

mind that it will cost him hundreds of dollars. Life is a battle. To succeed one needs all his energies and all his brain force to apply to the question at hand. Even a corn will make him irritable, cross, angryand an angry man seldom succeeds. triffing pain of a corn is a pleasant feeling beside the agenizing ache of piles. That is a pain which seems to pervade the whole It communicates itself to all the body. parts near the seat of the trouble and brings on a heavy, dragging feeling in the perineum. Those who have never so suffered do not know what it means. It racks the nerves, prevents sleep, prevents concentrated thought and makes a man lose flesh as fast as he would with a virulent fever.

And yet piles are looked upon as a little thing. They are neglected—allowed to run on from month to month and year to year. By and by comes a dangerous surgical opera-tion. Maybe it cures—maybe it kills. There is only one sure, safe and quick cure for piles. It is the Pyramid Pile Cure. It is a recent discovery and its properties are such that it cleanses, soothes and heals the inflamed parts, reduces the inflammation at once and with continued treatment removes all swelling and all trace of the dis-ease. It puts the membranes in a healthy, active condition and cures completely and

permanently.
From C. F. Collins, Garnett: I commenced using the Pyramid Pile Cure and my case was so had I thought the remedy was going to fail in my case, but before I had used two-thirds of one package I began to feel much better, and can honestly say I am entirely cured. It is the quickest and surest remedy I have ever tried or heard of. From Josiah Roberts, Port Oram, N. J.: Just one-quarter of a package of the Pyra-mid Pile Cure did wonders for me and I

have lost no opportunity of recommending such a great remedy.

From Wm. McHale, Rockpert, Mass.: One package of Pyramid Pile Cure has helped more than anything I have yet used.
Pyramid Pile Cure is sold by druggists generally. If yours doesn't keep it he will get it for you if you ask him. Book on cause and cure of piles ent free. Address Pyramid Drug Co., Albion, Mich.
