SECRETARY MORTON GETS INSTRUCTIONS

He Will Proceed, If He Obeys, to Recognize the Old Seed Distribution on the Old Basis at Once.

WASHINGTON, Feb. 11.—(Special Tele-gram.)—Perquiaites, such as attach to sena-torial honors, are not to be lightly put aside, and even so small an item as seeds assume a dignity in senatorial minds commensurate with this position. Although the press has shown the folly of the government carrying shown the folly of the government carrying an expensive seed bureau, senators today voted to go back to the old order of things and have by resolution directed Secretary Morton to distribute seeds as in the early days of the Agricultural department.

Ex-Senator Paddock stated tonight that he had no intention to leave the fertile fields of Nebraska for Lima, South America, where he is interested with a number of New Yorkers in a street railway. He states that he is looking for a settlement of the Otoe and Missouri Indian land matter in a short time, which would relieve the settlers in Gage county very materially.

The populists are not at all satisfied with the ticket put up by the republican sena-torial caucus, and Senator Allen, as spokes-man for his colleagues, told Senator Sherman today that the populists were not ready to give the republican chairman of caucus their answer as to when the ticket calcula their answer as to when the toket should be voted for, nor were they settled in their minds as to just what places they would ask under republican management.
