## COMMERCIAL AND FINANCIAL weak southern advices; prime crude, 22146220

Wheat Not Entirely Responsible for the General Advance.

AND OATS ADVANCED EARLY

New York Sent Generous Buying Orders and a Fair Foreign Demand Was Reported-Stocks and Bonds.

CHICAGO, Feb. 13.- Wheat news today, although rather leading toward higher was not entirely responsible for advance made. There was a general disposition to buy, and the effect was shown in the gain in the price of May wheat of ic over Tuesday's closing prices. Corn and oats advanced about 4c each. Provisions are up sharply and show sub-

stantial gains.

Wheat showed decided strength, and sold up nearly ic from the close Tuesday. At the start the feeling was somewhat easier, and there was a sale at 14c below the close Tuesday, but there was a good class of buying, and with rather moderate offerings price was gradually advanced, and before noon the gain was over 1c. early cable seemed weak, but the second one reported some improvement. New York sent generous buying orders and a fair foreign demand was reported there, the clearances from that port being reported at 265,000 bu, in wheat and flour. The local talent was largely on the buying and nearly all the big speculators were said to be taking wheat very freely. The falling off in the receipts at Minneapolis and Duluth the past two days, 832 cars, comparewith 960 cars last week, and the fact that much of the growing wheat is unprotected much of the growing wheat is unprotected by snow and liable to injury from a sudden freeze, made shorts nervous, and, taken in connection with the strength displayed, caused a good deal of covering. The liberal local shipments by rail and action of the Western Freight association in cutting the rates on wheat to Kansas points one-half, or 12c per 100 lbs, were also instrumental in adding to the bullish tendency. It was estimated that the big clique of operators which has been working to depress the market for some days had secured satisfactory lines and was now working for an upward movement. May opened somewhat irregular and about 4c lower at from \$5½c to 65%c, but then turned strong and went up gradually to from \$6½c to \$65%c, split, reacting under some active realizing to \$64%c. The market kept strong during the last hour, mainly on predictions of colder weather, and there was active buying, largely to cover shorts. May sold up to \$65%c, but ensed off a fraction, finally closing steady at \$65%c.

Corn was quiet but strong, influenced by the strength in Wall street, and was also helped by the storm, which is expected to cut off receipts. May opened unchanged at 25%c, advanced to 31%c, and reacted to 31%c. The market held steady and firm during the last hour, May closing at 30%c.

Outs were quiet but firm, and closed a by snow and liable to injury from a sudde

at 30%c. Oats were quiet but firm, and closed a shade higher. Sympathy with wheat was the main cause for the advance. May opened unchanged at from 20%c to 21c; sold up to 21%c, and closed at from 21%c to 21%c.

21'4c. Provisions opened firm at a slight advance, and gradually worked higher. The strength displayed by wheat and the small run of hogs gave the market an unexpected firmness. For May delivery pork closed at \$10.32\foralle{4}, against \$10 on Tuesday. Lard left off at \$5.70, as against \$5.60 on Tuesday, and ribs at \$5.37\foralle{4}, compared with \$5.20.

Estimates for Friday: Wheat, 200 cars corp. 326 cars; oats, 263 cars; hogs, 10.000 head. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Closs.

HIDES AND TALLOW.

Some persons, according to the Shoe and Leather Review, bold the retains.

ders, skinned, 5½c; pork trimmings, 5c; tenderloins, 14c; pigs feet, cleaned, per doz, 35c.

HIDES AND TALLOW.

Some persons, according to the Shoe and
Leather Review, hold the opinion that hides are
accumulating at country points since the competition among city dealers to buy them has
decreased. Natural conditions seem to favor
the new plan of buying on selection. The tunners are not anxious for hides and there is no
incentive for dealers to secur the country in
quest of them. Quotations:

RICE—Du NEW YORK, Feb. 13.-With many buyers in the market, and in view of excessive moisture

and gloomsome clouds, there has been more business doing all around and in all classes of cotton fabrics, such as brown, bleached, colored, printed and woven fancy goods, than heretofore. Agents have reduced the prices of Pacific, Cocheco, Windsor, Merrimac and Allen, black and white and fancy red prints 4c each. Printing cloths, dull but steady, at 24c, and no business reported in odd goods.

STOCKS AND BONDS.

Business After the Hollday Started with Higher Prices.

NEW YORK, Feb. 12.—Business after the hollday started under the stimulating influence of oay started under the stimulating influence of higher prices for American stocks in London and buying orders for that account in this market, chiefly for St. Paul and Louisville & Nashville. This condition of affairs was manily attributable to the conciliatory tone of the queen's message in relation to the Venezuelan imbregilo. The local markets, while semewhat less active than that of Tuesday, and irregular at times, exhibited an under current of strength that was as surprising as it was unpulatable to the professional bears and the buils without stocks. Influences bearing upon special stocks were the annual report of the American Tobacco company. In the Pitt-Barrows case and covered and special stocks were the annual report of the American Tobacco company in the Pitt-Barrows case and covering summer and the professional commarket the decision at Albany Tavorable to the Chicago Gas company in the Pitt-Barrows case and covering summer and the experienced judges of the committee of the whole. The report of the earnings that came to hand were as a rule, favorable, and the experienced judges of the commercial paper market predicted an essier turn provided money rates continued on about the present basis. In purely speculative circus, a pessimistic tone prevails on the subject of the present basis. In purely speculative circus, a pessimistic tone prevails on the subject of the present basis. In purely speculative circus, a pessimistic tone prevails on the subject of the present basis. In purely speculative circus, a pessimistic tone prevails of the new government of 10 on a favorable exhibit of carnings for the past year, in the face of the accepted fairly active and strong, with Tobacce on the decision of the subject of the past year, in the face of the accepted to the last divided.

Other important, but less material improvements occurred in Sugar, Chicago Gas, General Chicago, and the control that a subsequent press the subject of the decision to the subject of the decision of the subject of the decision of the higher prices for American stocks in Londo and buying orders for that account in this mar-ket, chiefly for St. Paul and Louisville & Nash-

PHOTOGRAPHED THE HUMAN BRAIN. New York Scientist Succeeds Without

the Cathode Rays.

NEW YORK, Feb. 13.—The human brain

Ningara Falls Nearly Run Dry. NIAGARA FALLS, N. Y., Feb. 13.-For the first time in half a century the American falls practically ran dry today. By the formation of an ice bridge or dam extending from Schlosser's dock on the American bank, about Schlosser's dock on the American bank, about half way across the river, the water was almost entirely diverted to the Canadian fails. This morning it was possible for a time for a man with a plank to have walked from the mainland to Goat island without wetting his feet, and, indeed, to walk between all the islands inside of Goat island. At 11 o'clock the water was so low that a man in knee boots could have walked across the brink of the falls from Prospect point to Goat island.

Don't invite disappointment by experimenting. Depend upon One Minute Cough Cure and you have immediate relief. It cures croup. The only harmless remedy that produces immediate results.

OMAHA LIVE STOCK MARKET

Receipts of Both Hogs and Cattle Continue Light.

Prices Advanced 10 Cents-Fat Steers Stendy-Hogs in Good Demand at a 5-Cent Advance and the Pens Cleared Early.

GOOD DEMAND FOR BUTCHERS' STOCK

THURSDAY, Feb. 13. Receipts for the days indicated are: Cattle, Hogs, Sheep, Horse February 13.
February 12.
February 11.
February 10.
February 7.
February 6. 229 CATTLE-It was another day of tremely light cattle receipts, only 829 head being received, as against 985 yesterday and 964 on Thursday of last week. There were

feeling on the market was better, and the trade as a whole was more satisfactory from a seller's point of view.
Only about a dozen loads of fat steers

Only about a dozen loads of fat steers were on sale, and the buyers picked up all that were desirable in good season, paying fully steady prices. The best cattle here were only fairish stuff, and the sales were mostly at \$3.5073.70.

Butchers' stock was again in very light supply, only about ten loads of cows and helfers being offered for sale. The demand was very urgent, and everything sold on the jump, and at prices fully loc higher than yesterday. The pens were practically cleared of that kind of cattle before 9 o'clock. Shippers are all talking of the scarcity of butchers' stock in the country and the size of the receipts would seem to bear out their assertions.

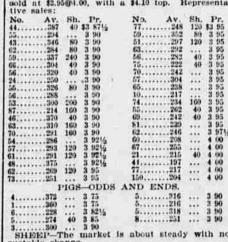

Full loads of stockers and feeders were hard to find, the supply consisting mostly of odds and ends, a piece of a load here and there. The market did not show any material change in the matter of values. The demand is light, but with so few coming it has been sufficient to hold prices steady. Representative sales:

Small Receipts Kept the Market Quite Strong, CHICAGO, Feb. 13.—In cattle there was a little stronger market, owing to the small receipts, and trade was fairly active, some of the better

the Cathode Rays.

NEW YORK, Feb. 13.—The human brain has been photographed. Dr. Carleton Simon of 114 East Fifty-sixth street exhibits a picture of his own brain, obtained from a process in which the cathode rays are not a factor. He has been nearly three years in completing his experiments. He tells the story of his efforts as follows:

"The brain has been my especial study, and I have worked independently in a quiet way for nearly three fram to photograph it. I first sought to accomplish my purpose by passing a continuous current of electricity through the brain, illuminating it by the spark, and then Itafish the interrupted current, but this pathueed paralysis of the brain, rendering spassess the subjects. The principle is illustrated by a flash of lightning on a dark night, which carries images, through which it travels to the eye. From this, indeed, it was suggested to me the same idea might, be applied to the brain. Again, you know the firefly is made almost transparent by its timy lantern.

STARTED A BOOM FOR WHITSEY.

Mississippi Democrats Call on Rim JACKSON, Mss., Feb. 13.—The Whitney presidential managers express themselves as having accomplished results beyond anything they expected when they recently decided upon a Whitney campaign in this state. Petitions calling upon Mr. Whitney to enter the field have been signed by leading and influen-Governor McLaurin, who was not importuned, but whose close friends are actively enlisted in the measure. The call upon Mr. Whitney

but whose close friends are actively chilsted in the measure. The call upon Mr. Whitney reads as follows:

While we, the undersigned Mississippi democratis, recognize the necessity of fluorical and other reforms in this country, if it is evident that such reforms can only be had through a democratic administration of the whole federal government. If the ancient foe of the south, the republican measures will be enacted that will entrench that party in power and perpetuate it for a generation to come. As applied to the present situation, we recommend to our political brotherhood throughout the country a spirit of conservatism and concession upon the great political issues of the day as the only true basis for unity and harmony and success to the great political party to which we belong. Let it not be forgotten—it must never be forgotten—that the city halls of the eastern and New England states were the scenes during the past twenty-five pears of those heroic debates and intellectual conflicts which have resulted in political justice, white supremacy, local self-government and the material advancement of the southern people. Recognizing in Hon, William C. Whitney of the Empire state of New York a typical American, a patriot of unquestioned loyalty to hils country, a man of fact and affairs in the highest sense of the term—a statesman of broad and enlightened views—one of the purest and most glorious among northern democratic national convention as a candidate for the presidential nomination, believing your nomination will unify and enthuse the democratic party throughout the country and insure the election of its ticket.

This call will be forwarded to Mr. Whitney at once, hardly enough cattle here to go around among the buyers, and as everyone wanted few head, the trade was soon over. The

This call will be forwarded to Mr. Whitney at once. A TRAMP MADE A MONTE CRIST O.

How a Weary Wraggles Fell Into s Handsome Fortune. SACRAMENTO, Cal., Feb. 13.-John P. Harmens, a tramp, 50 years of age, who by his own confession recovered over \$20,000 that was hidden by train robbers a year ago, is locked up in the jail in this city. For months he has been living in San Francisco on the fat of the land, on the preceeds of money taken from the Overland express near Sacramento by Jack Brady and Browning over a year ago. The prisoner has turned over to the police \$2,000 which he had in the German Savings bank in San Francisco, \$5,900 in securities, a diamond

ring and a diamond collar button. Harmens found the money hidden under a Harmens found the money hidden under a clump of bushes near Sacramento, where the robbers who held up the train had buried it. It is known that the robbers obtained over \$50,000 from Wells, Fargo & Co., but Harmens did not find all the plunder. He says he obtained only \$20,000, but it is believed that these figures are rather under the exact amount. This conclusion is based on the fact that when Brady, one of the bandits, confessed and took the officers to the place where the money was buried, only \$6,000 was found. Harmens had evidently taken the rest of the treasure before the officers arrived. Harmens was arrested in San Francisco Saturday and brought to this city last night. In appearance he is a typical tramp. Among his friends he is known as "Dutch to New York for the purpose, and the tramp was transformed into a regular fashion plate.

FIRE RAGED IN GUAYAQUIL.

Millions of Dollars Worth of Property Goes Up in Flame. NEW YORK, Feb. 13.-A special from Panama, Colombia, says: A great fire raged in Guayaquil, Ecuador. When the firemen and soldiers, who were hurrledly ordered out to help them, finally brought it under control, thousands of panic-stricken persons were homeless in the streets, many lay dead in the morgues and property worth nearly \$2,000,000 had been destroyed, including the noble cathedral and the convent which adjoined it. The fire was first discovered in joined it. The fire was first discovered in the convent. It spread with such rapidity that it was with great difficulty that the majority of the inmates escaped with their lives. The firemen were on hand within a few minutes, but were unable to save either the convent building or the cathedral of San Augustine, which the flames immediately attacked. From there the fire flew to sur-rounding property, and in an incredibly short rounding property, and in an incredibly short time many blocks of houses were in a blaze. The fire brigades of all surrounding towns were summoned by telegraph, and battalions of guards were dispatched to aid the firemen. Through their efforts the spread of the fire was checked, and the city saved from de-

in the convent, several of whom were burned, was contagious, and the city became terror-stricken. The officials urged the president. stricken. The officials urged the president, General Alfaro, to seek a place of safety, and he took refuge, with his family, on board o steamship in the harbor. It is believed that at least thirty persons

uffered death, and it is known that many were injured. ACCIDENT INSURANCE FOR CYCLERS

Underwriters Agree that the Risks Shall Be Extra Hazardous. BOSTON, Feb. 13.—The accident risks for bicycle riders are being considered in the conference of the Mutual Accident Insurance underwriters and an ultimatum has practically been given out. It was decided that bleyeling is a hazardous occupation which insurance companies cannot insure against at the present rate. In the resolu-

tions adopted was the clause: Resolved, That the use of the bicycle has been covered by additional cost or a reduction of the amount of death indemnity benefits; and it is recommended that this be provided for by either of the following methods:

1. The adequate increase of premiums to cover the added risk, or

2. The classification as an occupation of bicycle riders as a class twice as hearrdous.

2. The classification as an occupation of bicycle riders as a class twice as hazardous as the "preferred" risk.

3. That benefits by accidents in bicycle riding be specifically reduced.

4. The including of bicycling under the policies to be covered only by specific permits at an extra premium. mits at an extra premium.

Stock companies were not represented in the conference, but the prominent ones represented were: Star of Chicago, Commercial Travelers of Utica, National of New York, New England, Mutual, Masonic Equitable, Massachusetts Mutual, and Atlas

EDISON MAKES A NEW DISCOVERY. Now Able to Make Aluminum as Hard

ns Steel. NEW YORK, Feb. 13.—Edison, in his experiments with the Roentgen rays in photography, believes that he has accidentally hit upon a process of hardening aluminum that will make it a substitute for steel in all

tial men from every section and party faction in the state. They claim to have the leading business and professional men of the state capital, including the mayor and cliy officials, three-fourths of the segmenture and finally the new state administration, except of medicine, said Captain William Kerr, Coverney Medicine, said Captain William Kerr, Captain William Kerr PHILADELPHIA, Fcb. 13 .- "We have tired counsel of the Hart Steamship line, last night, and he then proceeded to give the information that the company would adopt a policy which, if carried out, will annoy the Spanish authorities considerably. He also said that for a considerable period a boat laden with ammunition and stores had been lying at Wilmington, S. C., and the cargo would go to Cuba.

"I am telling this to let Spain and others know what we are doing," he said. "The steamship Commodore is now at Wilmington, leaded with arms, ammunition, dynamite and stores. She is loaded so full that the boat is deep, so deep that they could not get any-body to take her out of the port. The boat has been there several months. Tonight at 12 o'clock Captain Samuel Hughes of the Lauradia goes down to Wilmington and takes with him P. F. Thurston, chief engineer of the ship. They will take the Commodore to Charleston. The cargo will go to Cuba. No person can come aboard until he shows the Cuban flag. If Cuba wants to buy ammunition and supplies of us I do not see why we should not sell to them. We do not propose to sneak out of port any longer, but will be

to sneak out of port any longer, but will be open in our traffic."

LEWES, Del., Feb. 13.—The captain of the schooner Navarino, which was detained by a Spanish cruiser while enroute from Manzanillo to Boston, said today that he was unable to get the name of the Spanish vessel. After the Spanish marines had thoroughly searched the schooner the pilot of the Navarino was restored, and she was allowed to proceed. The Navarino is in fair condition, after her encounter with a cyclone, and will proceed to Boston as soon as the weather clears.

FOLLOWED BY A NOTED ANARCHIST.

Prince Luigi of Italy Has a Queer Personal Attendant. SAN FRANCISCO, Feb. 13.-The Italian colony in this city is considerably agitated over the discovery that Pietro Gori, the anarchist who was said to have incited Antonio Caesario to murder President Carnot, is shadowing Prince Luigi, the nephew of King Humbert of Italy, who arrived here last week on the war ship Christophero Colombo. Since the arrival of the prince he has attended a number of social functions given in his honor and on each occasion a tall, dark-complexioned man was noticed. When the identity of the stranger was learned the prince asked to see the anarchist. When the tall young man was pointed out to him the prince watched him with a tinge of well-bred curiosity. Gori says he has no particular motive in following the prince about and attended the balls at which King Humbert's nephew was present for the purpose of seeing the women, He admitted that he taught Carnot's slayer the principles of anarchy and was himself a hater of royalty, but denied that he had any evil motive in seeking the company of Prince

Pool of Soft Coal Producers. NEW YORK, Feb. 13.-The Advertises Harmens was arrested in San Francisco Saturday and brought to this city last night. In appearance he is a typical tramp. Among his friends he is known as "Dutch Charley." After he found the money he went to San Francisco, where he loaned a great deal to responsible business men. But he was not miserly, as it is said that he lived a life of luxury seldom dreamed of by the average tramp. He bought the most elegant clothes for himself, making a trip to New York for the purpose, and the tramp \$2.30 per gross ton of 2.240 lower, and the higher grades at about \$2.50 per gross ton. The decision as to tonnage will be governed by previous sales. Already \$80 per cent of the interests directly involved are said to have indicated their willingness to enter the pool.

willingness to enter the pool.

Sent Up as an Habitual Criminal.
CHICAGO, Feb. 13.—H. Dean, a son of the chief justice of the supreme court of the British possessions in Africa, pleaded guilty to the charge of forgery in Judge Dunn's court today. Some years ago, it is said, he had a prominent position in one of the first banks of England. He came to this country and visited California, where he got into trouble and served two years for forgery. The crime to which he pleaded guilty today was attempting to pass a forged check for \$1,800 on Cook & Co., the excursion agents and bankers. He was sent to the penitentiary for an indefinite term, under the habitual criminal act. Dean has a wife and children living in New York City. He begged hard for clemency, and the court agreed to recommend his discharge when he had served one year with good behavior.

Pallium Given to Archbishop Kain. ST. LOUIS, Feb. 13.—Bishop Shanley of North Dakota has arrived here, and deliv-North Dakota has arrived here, and delivered to Archbishop Kain the pallium recently conferred upon the latter by the pope. This badge of office will be officially conferred upon Archbishop Kain by Cardinal Gibbons at the cathedral, May 10.

A report is now being circulated that Cardinal Satolil will not make the contemplated visit to St. Louis. Father Francis M. Kelly of the Holy Angeles church says that, owing to the disruption between Archbishop Kain and the clergy regarding the reception of Cardinal Satolil, Dr. Rooker, secretary to the cardinal, wrote to a former student of the American college that he thinks the cardinal will not visit St. Louis.

Insurance Companies May Take It All. CHICAGO, Feb. 13.—"God bless the rich CHICAGO, Feb. 13.-"God bless the rich corporations; the poor people can steal." Such was the unique title of a paper read

Such was the unique title of a paper read before the farmers' insurance convention at the Great Northern today. The author of the paper was H. F. Stapel of Rockport, Mo. He asserted that if the present rate of increase in the growth of seven companies of the United States was kept up for twenty years they would practically control the finances of the United States. William A. Fricke, state insurance commissioner of Wisconsin, addressed the meeting, and a paper on "Some Experiences in Mutual Insurance" was read by John F. Merile, Yorkville, Wis.

Minnesota is for Davis. ST. PAUL, Feb. 13.—The republican state

committee met here today and formally issued the call for the state delegate conissued the call for the state delegate con-vention, to be held in Minneapolis on March-24, for the selection of four delegates at large and nine presidential electors. The convention will have 1,151 delegates. No formal action was taken, but the sentiment was unanimously in favor of the candidacy of United States Senator Cushman K. Davis of Minnesota for president, and a solid dele-gation for him is considered certain.

Mining Men Delay Their Departure. DENVER, Feb. 13.—The departure from Denver of the special train carrying mining new mining exchange has been postponed until tomorrow morning. The excursionists arrive at New York next Tuesday.
